JACKIE COOPER HAS LEAD RIALTO DRAMA—Crashing to a new high in adventure, and bringing to the screen the latest and most unusual trio, "Tough Guy," amazing story of the Secret Service, was met with hearty approval at the Rialto theater, last night, where it started a three-day run.

Its three characters are a hunted crook, a boy and a dog. Jackie Cooper

er, "The Champ" fame, Joseph Calleia, the bad man of "Public Enemy No. 1," and Rin-Tin-Tin Jr., canine dog actor, are the three comrades amid the hectic pursuit and hair-breadth escapes in the chase with the Secret Service.

Jackie's role is the most "grown up" to date, as a youngster who runs away from home to save his pet dog, accidentally falls in with the crook, unknowingly becomes his comrade, and figures in a series of adventures, in which the hunted man finds regeneration through the comradeship of the youth and the faithful animal.

Yesterday's audiences—and the theater was filled to the brim—apparently found a keen delight in watching the dog actor as he went through his paces with almost human intelligence. How well the crowd took the dog to heart was forcefully brought out in the scene where Calleia shot him before the trio became friends. There was a tenseness in the theater, and lots of sniffing by the younger element, until Rin-Tin-Tin, Jr. was doctored by Jean Harlow and made well again. It looks as though the son of the old-time dog star of the silent is going to become as popular as his famous daddy.

Wall St. Report—NEW YORK, March 9.—(AP)—Early strength of some of the potential "war babies" in today's late stock market dealings failed to hold and recent leaders fell sharply in a final selling flurry.

Losers of fractions to more than two points predominated at the heavy close, although scattered specialties retained some of their gains. Transfers approximated 2,600,000 shares.

Aids from buying and selling cross-currents, attributed partly to the threatened continental floorcup resulting from the next recapitulation of the Rhinelead, domestic news had its bright spots.

The American Iron & Steel Institute estimated current mill operations at 55.8 per cent of capacity against 53.5 last week. At Youngstown steel activities were said to be at their highest in six years.
