

WEATHER CHEATS CROWDS OUT OF MOVIE AIR SHOW

The elements conspired yesterday to thwart both hundreds of spectators and the Columbia staff which has been here a week taking air scenes for "Devil's Squadron," latest thrill-drama now in process of completion.

The movie men need clouds for a background and it was expected that the atmosphere would be filled with the kind of clouds required.

There were some clouds early in the morning and considerable camera work was done, but by 10 o'clock the clouds had dissipated and the day's work was over.

"We were dreadfully sorry to disappoint the public but it could not be helped," Norman Deming production manager, said today. "We are here for work and while we are glad to have spectators get what entertainment they can from our work, we cannot ask our men to perform hazardous feats just for the fun of it."

Mr. Deming said they now had enough scenes to get by with though he prefers to do some more filming before returning to Hollywood. He expected to receive instructions this afternoon from Columbia headquarters.

The weather bureau said there was a remote possibility of billowy clouds appearing tomorrow and if the clouds from the Columbia staff will take additional scenes, Mr. Deming said.

MANY ACCUSED IN GAMBLING PROBE HEADED BY MOODY

(Continued from Page One.)

Individuals, the grand jury has returned 47 indictments in its cleanup campaign, affecting 29 individuals. This was the second report submitted since the probe was started last September.

Most of the other indictments were for gambling and for operating slot machines. Those named in that group, all of whom had bail set for \$250, were J. E. Tyron, T. Holman, E. A. Lytle, R. Foreman, W. C. Kahle, L. Wagner, C. B. Benton, Frank Marshall, George Orey, Eugene Eckerlin, George C. Hull, W. G. Flood, John Moore, Frank Phal, Lefe Hill, J. H. Campbell and I. H. Smith.

Revelations Shock In its report to the judge the grand jury declared the task of investigating gambling conditions in the county had only been partially completed and "had been shocking in its revelations and widespread ramifications."

The jury stated "evidence has revealed official tolerance, official negligence which has enabled gambling of practically every type to thrive in this community—this gambling having extended until it has assumed proportions of a vicious organized racket, preying upon the youth and upon the needy."

The jury concluded its long discourse on gambling conditions by stating "it is not the weakness of the law which is responsible for these conditions—it is the weakness of the officers."

FRANCE REQUESTS CONDEMNATION OF PACT REPUDIATION

The action was taken in a 30-minute public session which followed a secret session in which the council members agreed today to denounce Hitler's demands for equality but flatly rejected his "condition" that the council must discuss his peace proposal.

Hitler had offered to send a representative to the council's deliberation on the Rhineland only on a basis of full equality in the conference and with the understanding that his recent offer of new peace pacts would be considered.

Six nations headed by France opposed Hitler's insistence on bringing his peace proposals up simultaneously with the discussion of the Rhineland reoccupation.

The other nations with France were Turkey, Spain, Russia, Poland and Rumania.

The council then voted unanimously to accept Hitler's first condition and to accept his first condition.

The vote was interpreted as tantamount to a qualified refusal of Hitler's conditions.

South Sea Romance On Bill at Rialto "Last of the Pagans," the romance of South Seas native life, filmed at a cost of \$1,000,000, and over the year to make it, delighting audiences at the Rialto theater where it opened yesterday for a three-day run.

Saga of native life and a vanishing race, filmed on an uncharted isle where the native life is as yet untouched by the white man's civilization, the new picture featuring the popular stars of "Eskimo," Mala and Lotius, is a charming love story of a boy and girl, separated through the trickery of white traders, and reunited through the heroism of the native warrior.

Mala, the Eskimo girl, is superb as the South Sea warrior, and beautiful Lotius Long makes an ideal heroine. In fact, the whole native cast drew compliments from those who saw it.

Today, the pleasure of smoking Camels is being everywhere recognized as a comforting and healthful part of the art of dining. Camels are incomparably mild. They never get on your nerves or tire your taste. Enjoy Camels for their matchless blend of costlier tobaccos—for their energizing "lift"—for the welcome feeling of well-being they bring you. Camels set you right!
