

## WALT OLMSCHIED TO BE NEXT RULER MEDFORD B.P.O.E.

Walter J. Olmschied was elected exalted ruler of the Medford lodge, B. P. O. Elks, for the ensuing year, at a well attended meeting at the lodge temple last night. Olmschied succeeds E. W. Winkle, who was named trustee at last night's elections.

Walter J. Olmschied

The new exalted ruler will be installed, along with the other officials elected, on Thursday, April 2, at which time he will appoint committees for the new lodge year.

Joseph A. Burroughs was named esteemed lecturing knight, to succeed Otto Frohmayer. Arthur D. Hess was elected esteemed loyal knight, to fill Burroughs' place vacated position. Robert A. Duff was elected to the position of esteemed loyal knight, the position formerly held by Hess.

Ernest L. Scott was re-elected to the post of secretary. George T. Frey was again elected treasurer, and N. S. Young, who has held the position of tiler in the lodge for the past 18 years, was again re-elected last night. Mr. Olmschied was elected as a delegate to the grand lodge, with H. N. Butler, past exalted ruler, named as alternate delegate.

## CAMERAMAN PICTURING SCENES OF SOUTHERN OREGON FOR NEWS REEL

Motion pictures of front yard cold mining in Jacksonville were to be taken this afternoon for Universal News Reel by P. E. Emery, staff cameraman of Portland. Mr. Emery has been taking news and feature pictures in southern Oregon the past week.

Mr. Emery was to be shown around Jacksonville by G. W. Gouvard. He was accompanied by A. H. Banwell, manager of the Jackson County chamber of commerce.

After filming the mining scenes Mr. Emery was to go to the Clyde Briggs ranch to photograph 12 baby lambs

that are being raised on bottles. Each of the tiny animals has a bottle and nipple of its own and Mr. Emery planned to get pictures of them in the act of feeding.

Mr. Emery planned to go tomorrow to Crater Lake national park to get pictures of the big new plover shooting out snow from the rim road and of CCC men sawing off slabs of hard snow from the roofs of buildings.

Some of the scenes Mr. Emery is taking will appear in the regular weekly Universal news reel, while others will appear in a monthly feature called "Stranger Than Fiction," the latter showing oddities.

## TOWNSEND CHIEF OF STATE OUSTED IN STORMY MEET

(Continued from Page One.)

plan to Oregon, first started the organization in this state.

The action of the board in effect nullified Hansen's reinstatement of Barde as well as his appointment of Rev. George N. Magwood as successor to Elbert Eastman, Portland lawyer and opponent of Barde.

The appointment by Hansen of Lewis C. Cooke, a youthful commercial photographer, as assistant area state manager, also was voided and Logan was directed to take over that responsibility.

Eastman acted as chairman of the board meeting. He and other critics of Barde, whose activities had attracted considerable attention in recent months, questioned the white-haired Hansen at length about his sudden reversal in returning Barde to the organization.

Before Hansen arrived at the conference the meeting was stormed by nine women and two men who gained entrance when a doorkeeper answered a knock.

Wings of the Morning!  
Fly out of bed.  
Answer that fragrant call—  
"Schilling Coffee!!  
comming uup!!!"

There are two good ways to make coffee—percolator and drip. Either one is more delicious if you use the Schilling Coffee specially prepared for it.

## Schilling Coffee

Two kinds  
One for drip.  
One for percolator.

## NOISE IS CAUSE OF NERVE ILLS, TESTS REVEAL

BUFFALO, N. Y.—(UP)—Noise, such as made by street cars and factory whistles literally upset the nerves, while the roar of an airplane motor contributes to air-sickness, warns Dr. L. Grant Hector of the University of Buffalo.

Noise experiments conducted by the scientist have proved several things to his satisfaction. Chief among them is that some noises have a detrimental effect on human beings.

"You don't just hear a noise," Dr. Hector explains. "It effects your whole sensory apparatus. The physiological effect of a noise depends on its volume and the frequency of the air vibrations it sets up, in other words, its pitch.

"Loud noises of high pitch result in irritability and nervousness, whereas low notes upset the digestive processes and have a definite physical effect."

In his noise studio, Dr. Hector breaks noises down into their component parts, or frequencies, so as to tell how to go about either eliminating or reducing them.

A box-like gadget with vibrating filaments has been developed in the laboratory to analyze noise. It embodies several original features which make it possible to tell in an instant the components of any given noise.

"The noise is picked," Dr. Hector says, "with a dynamic microphone, amplified with a conventional audio frequency amplifier and then fed into analyzer, which separates all the components of the noises according to their various pitches. The fre-

quencies are indicated on the illuminated dial."

The analyzer has been used extensively in Dr. Hector's work with automobile and airplane mufflers. With the apparatus he has cut down the roar of airplane motors to 10 per cent of their original volume.

Dr. Hector built a cathode ray affair which literally pictures the voice.

The ray involves a bombardment of electrons against a fluorescent screen. Every tone or pitch of the voice is traced in a pattern of greenish light on the screen, to correspond to the shape of the sound waves in the air.

## SCHOOL'S ROSTER DROPS ONE-THIRD AS 5 ARE BARRED

(Continued from Page One)

operations performed but Mr. Short demurred, the health officer stated. The parents were then told the children would not be permitted to return to school until the suspicion of their being scarlet fever carriers had been removed. Dr. Johnson related. Thus an impasse has been reached.

The health officer emphasized that he has no authority to order the tonsillectomy and that he did not do so. The children, he explained, will be barred from school only so long as they are considered a source of infection. He declared he would offer no objections to their resuming school attendance if they are given a clear bill of health by another doctor, but it was understood the family physician had declined to do this test because he had become embroiled in a public health and school controversy.

Mr. Short said he saw no immediate solution.
