They Win in a Walk for Fashion and Value

Ties—for street or sportswear. If they're perforated, then they're definitely Spring 1936 fashions; and if they have built-up heels they're practical. At Wards price, they're values! White buck or black, brown or blue kid. Women's sizes 3½ to 8.

Pumps—for dress. Smart as they can be in white kid, with buckles, cutout vamps, and boulevard heels. Women's sizes 3½ to 8.

Heel and Toe—are Square cut

In the new sandals, both heels and toes must be on the square—that's how you can spot the last-minute styles. T-straps are definitely smart, as are cut-out vamps, and nothing flatters the foot like open shanks—the effect is narrowing. White Kaffor or black patent in women's sizes. 3½ to 8.
