OREN R. ADAMSON ACCIDENT VICTIM ON HIGHWAY JOB

Body Crushed Between Machines While At Work For Contracting Co.—Time-keeper Discovers.

OREN R. ADAMSON, 32-year-old Eagle Point man and father of four children, was crushed to death about 9:30 this morning when a runaway truck caught his body against the back of another truck, parked at road building operations in the Sixtyon mountains.

Adamson had been working for the Berke Brothers Construction company for the past two weeks, helping in the machine shop. This morning his boss, Dewey Campbell, left instructions for Adamson to repair a welding machine. Needing more tools, he had taken one of the trucks from the shed where he was working and gone to the scene of operations on the new Sixtyon highway, a mile up the mountain, and upon returning apparently failed to set the emergency brakes on the truck.

The truck presumably started to roll down hill, and according to Deputy Coroner Will Dodge of Ashland, and state police, the man had made an attempt to stop the runaway machine, according to the evidence found. The effort was futile, and his body became caught on the side of the loose truck, which banged into the rear end of another truck.

Selection of a jury in the suit of Ous Newbury against Marie Collins and Kate Wright, for \$8013 alleged damages for injuries, as the result of an auto accident on the Pacific highway, north of Central Point, on the evening of December 11 last, was underway in circuit court today.

Plaintiff seeks \$5000 general damages and \$1013 for loss of time from business and for medical care.

The complaint sets forth that Marie Collins was the owner and Kate Wright the driver of an auto that collided with one driven by Newbury, after emerging from a driveway to the Pacific highway, resulting in a head-on collision. Newbury claims to have sustained chest and abdominal injuries as a result of the crash.

News Behind The News

By PAUL MALLON (Copyright, 1936, by Paul Mallon) WASHINGTON, March 30.—An inkling of what is happening to the economy program may be found in the old slick-trick method by which congress now appears to be economizing on federal appropriations but is not. The house appropriation bill is a committee court-agonically economized on appropriation \$1114.

The interesting part of it is that the restorations attract little attention. They are made item by item. Hence they are of great interest only to particular localities and interests affected by each item. They are not voted up or down in bulk.

Congress apparently desires it so. Today you can find a foot-high stack of reports on appropriation bills by house and senate committees. These are published in the congressional record. But nowhere will you find a compilation of the amounts of the bills as finally passed with all the restorations, unless you figure it out for yourself or consult an expert of either the house or senate appropriations committee.

This does not mean congress is concealing anything. The figures are available. But the point is that, while the purported economy is handed out with a flourish, you will have to dig to find that they did not last long.

Note—Digging through records kept mainly by the Associated Press senate staff indicates the senate this year increased the agriculture bill by \$40,000,000; the war department appropriation by \$66,000,000; the interior bill by \$63,000,000 (all (Continued on Page Six)

KLAMATH FALLS, Ore., March 30.—(AP)—An accidental shot from a small caliber rifle killed Richard Granger, 20, CCC enrollee from Mt. Gilead, Ohio, at the Tule Lake CCC camp near the Oregon line.

He apparently was taking the gun from a corner of his cabin when it bumped a box and discharged a bullet into his head, officers said. He was alone.

CONFEREES AGREE ON FHA EXTENSION

WASHINGTON, March 30.—(AP)—Senate and house conferees today settled differences over a bill extending the authority of the Federal Housing Administration to insure private loans for home and building repairs.

Early approval by both houses was forecast to get under the April 1 deadline.

The conferees eliminated a house provision permitting insurance of residence loans for new construction up to \$2,000 on unimproved property.

A senate clause allowing insured loans on mechanical equipment was stricken out.

Two house provisions accepted would permit loans to lessees whose leases run for six months or more beyond the loan maturity date, and loans to church properties.

COPCO PERMITTED TO REFUND BONDS

SALEM, March 30.—(AP)—Frank C. McCulloch, public utilities commissioner, issued an order permitting the California Oregon Power commissioner to sell \$12,500,000 of its first mortgage 4 per cent serial bonds on or before July 31, 1936.

The application for the sale had been received March 11.

The issue was requested, the opinion of utilities commission set out, for the purpose of redeeming its present indebtedness, to pay redemption premiums, and to reimburse its treasury for expenditures for improvements and additions.

The amount of bonds to be refunded totaled \$11,975,800 and redemption premiums amounted to \$522,000.

The sale must be made, McCulloch ruled, at not less than 95 per cent of the face value plus accrued interest.

The company operates in southern Oregon and northern California.

ARMORY PROJECT BEGINS THIS WEEK

Improvement of the Medford armory is to start this week, WPA headquarters announced today. The project calls for a total outlay of about \$4000.

Materials for the job are now arriving here and men will be put to work probably Wednesday or Thursday, the WPA said.

The project includes a new roof, cementing of the entire basement, additional sidewalks around the building, a new ordinance vault and redecoration of the whole interior.

This is part of a federal plan to bring all armories in Oregon up to standard requirements.

WASHINGTON, March 30.—(AP)—The democratic convention pledged to urge a Townsend platform plank.

Townsend recently registered as a republican and asserted Senator Borah (R-Idaho) had approached the Townsend movement's aim more nearly than any other presidential candidate.

When advised of the weekly's attack, McGroarty said: "When Dr. Townsend accuses me of political ambitions, he is talking like a fool."

"Apparently the doctor believes he is privileged to be active in politics, but that nobody else may be. His attitude and his unaccountable accusations may do the movement some harm, but I believe it will progress in spite of him."

McGroarty said he "didn't want to come to congress and I don't want to stay. I was surprised and disgusted when the voters sent me here by a 12,000 majority."

SALEM, March 30.—(AP)—Oregon's primary election lists which close tonight will contain the names of Senator William E. Borah of Idaho and Franklin D. Roosevelt for the Republican and Democratic preferential vote for president on May 15.

Authoritative information received at Portland stated Senator Borah would have his filing for the Republican preferential vote in the hands of the secretary of state by 3:00 p. m., just two hours before the deadline for declarations.

President Roosevelt placed his filing here two weeks ago.

60 WPA WORKERS GO BACK TO JOBS

MARSHFIELD, Ore., March 30.—(AP)—Sixty WPA employees resumed work on two projects today but the majority of those who struck for higher wages last week did not return to their jobs.

At a meeting last night, about 150 men again voted to remain on strike. The workers have asked \$50 a month instead of \$44.

Clifford Doane, member of the striking group, said "we want some sign they've given our plea for a living wage fair consideration. They can't sit and stubbornly say no forever."

The demand for the \$50 minimum was sent to the state WPA headquarters.

SUGAR INSTITUTE PARTIAL VICTOR IN HIGHER COURT

WASHINGTON, March 30.—(AP)—The supreme court today, in its long awaited sugar institute decision, held that the Sherman anti-trust law was a "charter of freedom" permitting voluntary action to end abuses in industry—provided such action does not restrain competition "unreasonably."

The court upheld in the main a lower court decision enjoining the sugar institute from many of its practices, but permitting the trade association to continue in existence.

In a voluminous decision partially read by Chief Justice Hughes, the court outlined in great detail its view of the scope of the
