NEW CAR THIS SPRING? Monthly PAYMENTS TO SUIT YOUR PURSE! WHEN YOU BUY A GENERAL MOTORS CAR

The General Motors Instalment Plan enables dealers in General Motors cars to arrange the monthly payments best suited to your circumstances and the car you buy—whether the payments are \$15, \$20, \$25, or any other amount per month. Seldom are two instalment buyers in the same financial circumstances. They differ in the amounts they can pay down—and they differ also in their ability to pay comfortably certain amounts per month. If you agree to pay more per month than you can afford, your car may become a burden and not a pleasure. If you pay less per month than you can comfortably afford, you pay too much for a financing service you do not need. Therefore, the most satisfactory and economical plan on which to buy a car on instalments is the plan which exactly suits your individual requirements. This is the General Motors Instalment Plan. It is easy to figure yourself what the costs of various payment terms are—at 1/2 of 1% of the original balance per month—for example, 6% for 12 months. And it will pay you to compare costs on this plan with other plans. When you do, be sure to include equally complete insurance protection. Under the General Motors Instalment Plan you receive a policy in General Exchange Insurance Corporation, protecting your new car against Fire, Theft, and Accidental Damage—including Collision. Dealers in General Motors cars will be glad to show you how easily this plan can be made to fit your needs—and your purse.
