

Outboard Regatta Sunday at Emigrant Lake Attracts Coast Stars

SPEED CHAMPIONS HOPE TO SET NEW OFFICIAL RECORDS

20-30 Club Sponsors Expect Largest Crowd Ever to Witness Local Races—N. O. A. Sanctions Event

With important racing drivers from all the coast signing up for the events, with fair weather promised, and with interest rising steadily in their regatta at Emigrant lake Sunday, the sponsoring 20-30 club is anticipating the largest crowd ever to attend boat races in this county, it was announced today.

The race is to be the first ever held in this district under the sanction of the National Outboard association. The Oregon Outboard association is sending officials to conduct the 60 miles of racing. Special timing apparatus will be on hand to check the official speeds, with a good possibility that several official records will be broken.

One of those who is expected to break records is Ward Angilly of Marysville, Calif., who is expected in the city today or tomorrow to try out the course. According to the motor boat racing records of the magazine "Motor Boating," Angilly recently cracked the official five-mile record in the class C, division 1, for amateurs, with a speed of 46.488, driving his own boat at Lakeport, Lake county, California. At the same place, the magazine shows, another five-mile record was shattered when Ernie Millot, driving a Class C, division 2 boat turned in the record time of 44.843 m.p.h. to take the professional honors. Millot will race at Emigrant lake Sunday.

The Emigrant lake site is considered ideal for record times. Surrounding hills cut down most of the wind and the course is smooth and fast. The buoys were surveyed into position with a view to fast times and thrilling knots at the same time. Grassy knolls overlooking the lake from one entire side promise that there will be no parking difficulty. 20-30 committee members say.

The regatta committee will be busy today and tomorrow finishing up the last details of the race. Already it has been decided to make the Emigrant lake races an annual affair with the club.

The regatta committee is made up of the following 20-30 officials:

General chairman—Aub Sander.
Advertising and publicity—Harry Pinger, Del Cox.
Admissions—Andy Anderson, Hal Farley, Herb Brown, Doc Johnson.
Parking—Fred Underwood, Gen Orr.
Docking—Cord Sundermann, Lem Massee.
Registrations—Travis Cantrall, Loye Lindley.

Maple Leafs Win In Wild Climax

TORONTO, April 10.—(AP)—The Toronto Maple Leafs, a bustling, battling crew that never gives up, have pulled another one out of the fire. In a wild, last period surge last night, with the Detroit Red Wings leading 3-0 and needing only that game to win the Stanley cup, Toronto turned on a brilliant offense that brought them up even at the end of regulation time and then, 31 seconds after the start of sudden death overtime, belted in the marker that gave them the game by a score of 4-3.

Midget Autos To Race In Portland

PORTLAND, Ore., April 10.—(AP)—Midget automobile races will come to Oregon this summer, Harvey Wells, president of Jantzen beach of Portland announced today.

Bobby Howe, hockey and dirt track auto racing promoter, will be promoter for the auto and motorcycle races over the beach, Wells said.

Preliminary construction of the track and sports arena at the beach will begin soon, Wells said.

Plan to stay awhile when you visit the NEW EXPOSITION... There's much to see in San Diego.

Handsome Ohio Grappler

Frank Taylor (above), brawny and handsome Ohio State college graduate, will open next Monday's wrestling matches at the Armory when he tangles with Danny Savich, former all-American footballer from the University of Utah, in a return match. Their battle last Monday was one of the features of the card, with both men doing clever wrestling. Savich dropped Taylor for the count with a series of flailing sonnenbergs, an attack which Taylor will be warily watching Monday. Pete Belastro and Prince Mihalakis tangle on the main event of the same card, and Frankie Peck meets George "Wildcat" Wilson, former Washington football flash, in the middle event.

TIGER TRACKMEN TO G. P. SATURDAY

Tomorrow afternoon the Medford high school track team will invade Grants Pass for the first triple track meet of the season, when they meet Grants Pass and Kerby in a contest postponed from last week, because of rain.

On that occasion the Kerby speeders came to Medford and an informal meet was held with the locals coming out on the long end of an 80 1/2-33 1/2 score. Coach Bowerman of the Tigers has stated that he hopes for no such lop-sided victory tomorrow, but expresses the belief that several of his men will turn in wins in the various events. He is particularly relying on his sprint men and middle distance men, and his hurdlers, for fast times.

The meet will be the first regular triangular meet in the history of the school. Coach Bowerman has signed for other meets with Klamath Falls and possibly northern California will be represented on the completed schedule.

THE GRANGE

Roxy Ann Grange.
Roxy Ann Grange will hold a Leap Year dance Saturday, April 11. Music by Silva's orchestra. Dancing from 9:30 to 1 a.m. Refreshments served by men of Grange. Public invited.

California Oregon Power company will show its new talking picture in Roxy Ann Grange hall April 12 at 8 p.m. Everyone cordially invited to see this picture.

Peaches Damaged
McMINNVILLE, Ore., April 10.—(AP)—Rex Warren, Yamhill county agent, said a survey showed damage to the county's peach orchards, as a result of the recent cold weather, was almost negligible.

BIGGEST SELLING WHISKY IN LOUISVILLE

Bottoms Up Quality Wins Nation's Whisky Capital!

Why Don't You Try It!

"Amazingly Low Price for Such Good Whisky"
—Say Kentuckians

WHEN a whisky wins in Kentucky, that's news! But one taste will tell you why expert Kentuckians choose Bottoms Up. For it's genuine Kentucky straight whisky. It's made from a costly 65-year-old formula. And every drop is aged a minimum of 15 months in wood. Why don't you try it, too?

Bottoms Up KENTUCKY STRAIGHT WHISKY

SINCHAK IS GIVEN NOD OVER JOHNSON ON ELKS-CCC CARD

Andrew Sinchak, 185, Oregon Caves, decided Harold Johnson, 192, Applegate, in the main event on the CCC card at the Elks' temple last evening.

The bout was the second heavyweight contest staged here in many months and indicates that the Medford district is at last developing some talent among the big fellows. The men fought on nearly even terms but Sinchak finished stronger than the poorly trained Johnson.

Top honors on the evening card went to Joe Luchesi, 145, Oregon Caves, and Chester Tracy, 142, Prescott, whose three rounds of toe-to-toe slugfests won the applause of the big crowd. The end of the go found both boys bleeding but game, and they were given a popular draw.

The pair has already been rematched for the April 23 card and it is probable they will be given the main event spot.

Wild Man Simmons, 161, Detachment, and Robert Hyatt, 162, Prescott, milled through three erratic rounds in the semi-final and were finally given a draw. Simmons is leaving the CCC today and had promised to knock out his opponent as a parting gesture, but couldn't connect with a telling blow.

Mear, Frame, 154, Wimer, and Elan Pucina, 156, Prescott, provided plenty of excitement in their spectacular battle early on the card. Frame landed with several dynamic rights, while Pucina depended on sniping tactics and made his jab count. Both boys were down several times and were given a draw.

The Masked Marvel, 145, of Headquarters Detachment, started out like a house afire against Tony Latch, 148, Prescott, but after staggering Latch repeatedly in the first round into one of Tony's rights in the second and was counted out.

Sampel Gipson, 137, Applegate, defeated Henry Vaccaro, 139, Prescott, in a sensational curtain raiser. Gipson lost one tooth in the struggle but had Vaccaro down twice in the opening round to give him the edge.

SEMON TO HEAD R. R. GOLF CLUB

At a recent meeting of the Rogue River Valley Golf club, C. J. Semon was elected president for the ensuing year, and Roy Pruitt was elected vice-president. Directors for the organization named at the meeting were Harry McMahon, retiring president; E. Raymond Driver, George Phythian, R. R. Reter, William Lydard and Eugene Thordike.

On Monday night the directors and other officers will again meet to appoint a seventh director. The new officials of the club foresee one of the best years in the history of the course, with the greens and fairway already in splendid condition for match play. With ideal weather prevailing the course is green and velvety, and some splendid scores are being made daily.

In keeping with a recently announced plan for steady improvement, plans are being laid for a new No. 1 green, and it is probable that other improvements will be made before the season is far advanced.

Fights Last Night

(By the Associated Press)
HOLLYWOOD, Cal.—Art Lasky, 200, Minneapolis, outpointed Joe Bauer, 187, Cleveland (10).
SAN DIEGO, Cal.—Eddie (Babe) Risko, 162, Syracuse, N. Y., world middleweight champion, outpointed Mike Payan, 161, San Diego (10), non-title.

OREGON TENNIS TEAM SWEEPS ONS MATCH

EUGENE, Ore., April 10.—(AP)—The University of Oregon tennis team swept all seven matches in a tennis meet with Oregon Normal school.

The Webfoot netmen dropped only one set, Zimmerman and Chaney of Oregon being forced three sets to defeat Butterworth and Dutton, a number one doubles team from Monmouth.

CONDITIONS STILL POOR FOR FISHING, SURVEY DISCLOSES

The following fishing and sports review was issued today by Karl L. Jannouch, supervisor of the Rogue river national forest:

"Although clearing weather has considerably improved fishing conditions it has also resulted in rapidly melting snow. This has tended to keep streams high and cloudy. This condition applies particularly to the Applegate drainage where all streams are higher than last week-end and are roily. Squaw lake should be fair to good.

"All streams above Prescott are too high to be worth fishing. Evans creek has yielded some fair catches and should be good this week-end. Elk creek and Big Butte creek are about the same as last week-end, the water being slightly clearer and lower. Little Butte creek is high and muddy below the mouth of Dead Indian creek and though the water is dropping some it will probably be high and roily during the week-end. Above the mouth of Dead Indian creek the water is clear and a few fish have been caught. This stream is expected to improve over the week-end if the present weather conditions prevail.

Some fishing is done in the main Rogue river between the bridge below Trail and the mouth of Big Butte creek. All lakes are frozen over except the Squaw lake. No catches have been reported, being taken on flies. It has been necessary to resort to the use of night crawlers or eggs during the past week.

"The roads have dried up to some extent since last week-end. All lower roads in Applegate are open and in fair condition. The end of travel on the Squaw lake road is two and one-half miles from the lake. All side roads above Prospect are closed. Crater lake highway is open and in fair condition.

"The Lake creek road is open to the Soda Springs, but rough above Loet creek. The Butte Falls-Lake of the Woods road is open to within seven miles of Fish Lake. The Camp R-Innaha road is closed. The Elk creek road is in good condition to Bitter Lock creek. The Evans creek road is open to travel to the mouth of Salt creek.

"The snow has been melting quite rapidly the past few days and only 18 inches of snow remains at Union Creek. Skiing should be fair at both Union Creek and at Crater lake park."

By DICK APPLAGATE

There will be no high diving exhibition at Emigrant lake Sunday. The 20-30 club, sponsors of the regatta, investigated the problem and discovered that the cost of erecting a high dive tower would be prohibitive. So that's that.

But yesterday, with no previous halloo whatever, the Prince sneaked over to Gold Hill to test the diving qualities of the highway and railroad bridges there. The water, fresh off the mountain snows, was very little above freezing, but after splashing water on himself to get a little used to it, he edged in and tested the depth of the stream, the speed of the current, and the best place to land.

Then getting up on the rail of the highway bridge, and with a fair portion of the citizens of Gold Hill as spectators, calmly did a forward one-and-a-half falling dive. Gold Hill has seen several dive from the bridge, but doing a one-and-a-half was something new. He turned a little in the air on his way down and didn't hit too straight, so he decided to do it again. His next turning dive was perfect. He hit for several feet, and that was all there was to it.

He was going to do a back layout flip on the next dive, but as he walked up the bank again he was shivering so violently he could hardly maintain his balance and he urged him to call off the performance for the day, which he did.

The trip into that icy river convinced the prince that we weren't kidding when we assured him the water was of the coldest. "I once chopped a hole through ice and swam around in the water at Toledo," he said, adding "and I'll swear that water wasn't as cold as this river—what's the name of it? The Rogue? Whew!"

The Gold Hill people there understood probably better than we did why the Prince didn't care to do any more swimming. The Prince dinked stopping his diving, particularly until after he'd tested the conditions from the top of the railroad bridge. Flanking that bridge on both sides, however, are power wires, which would have shivered him like a wire egg slicer. He still maintains he's going to do it this summer when the water gets somewhere above freezing.

Prince Mihalakis is a little puzzled, apparently, by our excitement over what he terms a low dive like the one from the bridge. The height,

he says, is insignificant, the cold water being the only objection to diving all afternoon. The cool water in which he turned that trick dive would indicate he was not just bragging.

Dr. Alfred Cookman, adventurer, explorer and naturalist who last night gave one of the most interesting talks we ever heard, before the Shasta-Cascade Wonderland association, made a statement that will surprise and please every sportsman in the United States.

"Due to scientific study of the wild life of our country and to a real effort at conservation of that life, game and game birds as well as song birds are definitely on the increase in almost every part of the country. There are a few isolated places where birds and game are on the decrease, but the spots are few."

Perfume is a perfect Easter gift. We suggest Vimay Chany's Gardenia. Young's Drug Co.

Weather.
Northern California: Fair tonight and Saturday, but fogs on the coast; cooler central portion Saturday; moderate northwest wind off coast; Sunday probably fair with coastal fogs.

Oregon: Partly cloudy tonight and Saturday; light rains northwest; no change in temperature; gentle southerly wind off the coast.

IT'S TIME TO Change GEAR OILS!

STOP WEAR LUBRICATION SERVICE

CAR MAKERS RECOMMEND IT ..Saves its Cost!

TRANSMISSION and differential oils become contaminated with metal particles, grit, water or other foreign matter that causes excessive gear wear unless changed regularly.

That's why car manufacturers, who know what is best for your car, say "change gear oils every 5,000 miles."

Another important reason for changing gear oils now is that winter-grade gear oils become too thin in warm weather and do not give adequate protection.

It's false economy not to change gear oils regularly. Go to your nearest Stop-Wear dealer today for complete Stop-Wear Lubrication Service. Drain old gear oils and refill with correct grade Union friction-proof Lubricants. It will cost you but little, and will add to the pleasure, safety, and economy of your spring and summer motoring.

Stop-Wear Lubrication Service is available throughout Pacific Coast States and Western Canada.
