Mrs. Thrifty Says:
 "Save more in Wards September Sale of Housewares."

Unequaled value... enamelware of this quality at this low price! Shrewd shopper that she is, even Mrs. Thrifty was speechless at finding such a bargain. It will wear! That's the most important point... and it's extremely smart, too. Modern shapes that are copied from Wards own higher priced enamelware, and the most popular color combination you can buy at any price, cream trimmed with red. An offer that is reason enough in itself for coming to Wards Sale of Housewares!
