Miss Watkins Is Married in South

Coming as a surprise to many of her Medford friends is news of the wedding of Miss Annie Meade Watkins, daughter of Mr. and Mrs. James Marion Watkins of Eugene, to Leonard Webster Hagstrom of Los Angeles, which was an event of August 16.

The ceremony was solemnized at high noon in the West Adams Presbyterian church of Los Angeles, in the presence of a few close friends of the bride and groom. Mr. and Mrs. William Baugh, Jr., of Los Angeles attended the bridal couple.

Both Mr. and Mrs. Hagstrom are well known here and in Eugene, where they attended the University of Oregon. The bride has been a resident of this city for the past several years, having been on the Medford high school faculty. She has a large number of friends in the city and valley who will be interested to hear of her wedding.

The young couple will make their home in Berkeley, Calif.

CURE FOR CRIMINALS DECLARED POSSIBLE BY NOTED DOCTOR

LONDON.—(UP)—A man who says he can recognize in a few minutes the type of person who is likely to commit crime, whether it be murder, robbery or suicide, and who claims he can cure that person of his criminal tendencies, has arrived in London to give a series of lectures.

He is Dr. Alfred Adler, psychologist, one of the famous Viennese trio—Freud, Jung and Adler.

"I know I can pick out criminals," he said, "and if I, an individual, can cure them, why should not the world organize and cure all criminals? From the beginning of mankind the world has never attempted to cure crime, but has only punished it. Now I realize that if we organized properly we could rid the world of virtually all crime."

The start must be made with the child, and the time will come when all school teachers will be trained psychologists, Dr. Adler believes.

"It is easy to pick out the child who is going to develop into a potential criminal, or suicide, or drunkard," he declared. "It is always the child who has no social interest, who shuts himself up in himself, and who develops imaginary grievances. He becomes the 'getting' type, and when he grows older what he can't get, he takes. A trained psychologist can put him right when he is a child. I myself have done it many times."
