BRADSHAW GIVEN ANOTHER CHANCE

Milton Bradshaw of the Trail district, entered a plea of guilty to threatening to commit a felony, and was granted a six months suspended sentence by Circuit Judge H. D. Norton this morning.

Bradshaw during the course of a hectic quarrel a month ago, at a neighborhood gathering, threatened to kill Sheriff Syd I. Brown, who through the district attorney recommended leniency.

Investigation of the case according to the authorities showed extenuating circumstances. Bradshaw, several years ago while engaged in construction work in California was hit on the head with a large stone. During the trail quarrel the wound was reopened, when he was hit on the head. For several days after his arrest he was in a dazed condition.

Bradshaw, attributed his trouble to wine and jealousy, warned him against the use of liquor. The investigation also showed that Bradshaw, up to the time of the outbreak had been a hard-working and worthy citizen, with a family.

A brother residing in California, promised to provide employment for Bradshaw on a ranch.

CRATER LAKE SERVICE IS PRAISED BY ISAACS

William F. Isaacs and B. C. McKenna have returned from a two-day trip to Crater Lake, and report that the varied program now being offered there should receive commendation. While there they listened to a talk by John Doerr, Jr., park naturalist, on "Trails in the Park." Doerr described the points of interest in the park now accessible by trail. "The talk was both interesting and instructive," Mr. Isaacs said.

The two men stated that landscaping of barren places is now underway, with planting, filling and beautifying the park going on in several places. Attractive new signs have been put up to replace old ones. The west and south entrances now have attractive log arch signs, while the east and north entrance signs are made of stone, Mr. Isaacs related.

YOUNG DEMOCRATS TO MEET TONIGHT

First meeting after a summer suspension will be held by the Young Democratic club of Jackson county at 8 o'clock tonight in Democratic headquarters, 217 West Main street.

Organizational plans for the autumn will be outlined and a definite program of club activities mapped out, said J. E. Murray, president. New Roosevelt automobile plates, received yesterday, will be displayed.

"We hope to carry out a program that will be of benefit to the young voters of the county," Mr. Murray explained. "We appeal for members particularly to patriotic citizens who are interested in preserving American ideals in government and in averting the calamity of electing a puppet of the notorious William Randolph Hearst, whose sole aim is to set himself up as a fascist dictator."

RECOVER CRANE

BONNEVILLE, Ore., Sept. 10.—(P)—Workmen re-conditioned a 60-ton crane today after operations with a reinforced highline retrieved it from the bottom of the Columbia river. The machine, to be used for pouring concrete, tumbled into the stream when its base was undermined by high water last spring.

LABOR DIFFERENCE QUICKLY SETTLED

A slight misunderstanding between six union workers and the management of the Myron Root packing plant was ironed out amicably and satisfactorily late yesterday afternoon in a conference attended by Mr. Root, his attorney, Rawley Moore, E. P. Marsh, conciliator of the U. S. department of labor, and Maurice Howard, member of the northwest regional labor relations board.

It was agreed to permit the six packers, who had been discharged, to return to work this morning without prejudice, Mr. Marsh said. Terms of the agreement were accepted by the workers, he added.

Mr. Marsh came here from San Francisco and Mr. Howard from Seattle in response to a formal complaint filed by the Fruit and Vegetable Workers union which charged that the six employes had been discharged for union activity. A brief statement was issued today by Attorney Moore saying that "all differences were satisfactorily adjusted" and "the incident is closed."
