

HOPKINS PRAISED BY HAROLD GREY AFTER MEETING

Harry L. Hopkins, WPA administrator, is a man of simplicity, directness, ingratiating personality and convincing earnestness.

This appraisal of Mr. Hopkins was given today by Harold D. Grey, acting director for WPA in southern Oregon, upon his return from Portland where the federal administrator yesterday attended a meeting and luncheon for west coast executives of his department.

Attending the meetings from here with Mr. Grey were Kenneth S. Perry, supervisor of the division of operations, Frank E. Thompson, assistant supervisor, and Victor A. Baird, supervisor of the division of finance.

In an informal talk given at the luncheon Mr. Hopkins emphasized the urgency of the relief problem as it confronted him when he became WPA administrator soon after inauguration of the Roosevelt administration.

Mr. Hopkins recalled he was faced with the immediate problem of providing for about 22,000,000 persons in dire need of assistance and decisions had to be made quickly, Mr. Grey said.

Mr. Hopkins told of such experiences as receiving a long distance telephone call from the governor of a distant state saying hundreds of hungry persons were storming the capitol for food.

Mr. Hopkins said the WPA projects had provided relief without injuring the morale of the idle men and women who thus were put to useful work, Mr. Grey said.

Mr. Hopkins praised the personnel of his administration in general and singled out J. C. Griffith, Oregon state administrator, and John C. Albright, deputy administrator, for special commendation, Mr. Grey stated.

At the conclusion of his talk, Mr. Hopkins was accorded a standing ovation that lasted for five minutes, Mr. Grey related.

All of the Medford delegation, he added, were favorably impressed by the head of the works progress administration.

A GOOD NEIGHBOR

Railroad men are good neighbors. Every merchant likes railroad families for customers—churches and lodges like them for members. Steady and responsible, most railroad men own their own homes. They pay their bills, meet their taxes, keep up their insurance. Some of them live in your neighborhood. For the railroad is a home industry.

When you travel or ship via train you help your own community by making more railroad jobs for local men, supporting local families, patronizing local businesses. Western railroads and allied industries last year employed 750,000 workers.

The railroads themselves are good neighbors. They pay huge tax bills. They buy 70,000 commodities from factories, stores, farms, mines, quarries, lumber companies and diversified industries.

We invite you to use our services—fast freight with Free pick-up-and-delivery of LCL—world's finest passenger transportation in sleeping cars or coaches at lowest cost—substantial savings on round trip tickets—air-conditioning—dependability—comfort—safety. . . . See the railroad agent.

Proud of our achievements, we appreciate the public's good will and increased patronage, and pledge continued progress.
