New Hampshire Bridges, described by his supporters as a progressive who stands for a balanced budget and "sound currency," rolled up 40,055 votes to 28,497 for Moses, who bore the endorsement of Herbert Hoover. The tabulation in the race was nearly complete.

Massachusetts Curley, long a figure in Bay state politics, garnered 105,798 votes to 84,837 for Greenwood to take the Democratic senatorial honors with the tabulation nearing completion. Pitted against him in November will be Lodge, grandson of the late Henry Cabot Lodge, famous Massachusetts senator.

Wisconsin Governor Philip La Follette, unopposed for the Progressive nomination, polled 170,958 votes in returns from 2,204 out of 2,928 precincts. In the Republican gubernatorial contest 2,253 precincts gave Alexander Wiley 82,218 to 76,137 for John B. Chapple, editor.

However, one candidate who ran both as a Republican and a Townsendite captured a nomination. Danmany hall administered a setback to Independents in New York City, apparently nominating three judges, and William P. Brunn for aldermanic president.

PEAR SHIPMENTS TOTAL 1465 CARS

Pear shipments this season from the Rogue river valley totaled 1,465 cars up to last night, 1,008 cars packed pears, and 458 cars to California and Willamette valley canneries. The Southern Pacific railroad freight department reported this number was in excess of last year.

Pears are now being dispatched at the rate of 35 to 40 cars daily, chiefly to eastern markets, via Ogden, with some export shipments. Pear shipments to canneries this year were less than last year, but the packed pear shipments were greater, according to figures of the Rogue River Traffic association.

Bartlett pear shipments to canneries this year totaled 7,004 tons. In 1935 the cannery shipments aggregated 11,612 tons. This difference was made up by packed pear shipments the Traffic association secretary, P. Kramer Deuel, said.

Packed pear shipments for this season to date total 419,296 boxes. The packed pear shipments last year was 251,227 boxes.

FIRE PREVENTION WEEK SCHEDULED

SALEM, Sept. 16.—(AP)—Governor Martin set aside the week of October 4 to 10 as fire prevention week in Oregon. His announcement stated: "Oregon in 1935 made an excellent record in fire loss, according to the report of the state fire marshal. In the year there were 4,945 fires with a loss of \$2,378,578. This is the lowest fire loss in 15 years. "We of Oregon are interested not only in the prevention of fire in our buildings but in our forests and fields. It is, therefore, doubly to our interest that we participate in fire prevention week and encouragement of all educational programs to reduce fire loss."

The group, composed of Roger Taylor, Joe McChane, Richard Sullivan and Walter Quilling, is en route to southern California, to engage in radio work over K. G. E. R. RICHMAN, MERRILL DENY QUARRELING

CARBONAR, Newfoundland, Sept. 16.—(AP)—Capt. Eddie Rickenbacker left today in the motorship Lincoln in a new attempt to reach Harry Richman and Dick Merrill in Musgrave harbor. At Musgrave Harbor Richman and Merrill, working in apparent harmony to get their transatlantic monoplane out of a bog, denied they had quarreled over dumping their gasoline supply off the Newfoundland coast Monday afternoon.

"There is no truth in the statement," Richman said, concerning reports published in New York. Merrill denied agreement. Richman, however, conceded that "our very trying experiences have made our nerves and tempers ragged."

The whole village turned out to help the fliers, who planned to wheel their plane to a smooth shore for inspection and possible repairs on the spot.

SPANIARDS DOOM ANCIENT ALCAZAR AND ALL INSIDE

(Continued from Page One.) leading beneath the Alcazar, each 100 yards long. A troop train of regular army soldiers was sent from Madrid to reinforce Toledo's militia garrison. These troops will storm the sides of the fortress as soon as the dynamite has done its work.

Over a two-mile area on the west and south sides of the Alcazar, all houses have been evacuated. Government artillery batteries northeast of the town which have shelled the Alcazar constantly for two months, were standing by ready to pour more shells into the ruins if the subterranean passages of the fortress are not destroyed by the blasts.

Bus loads of hand grenades and ammunition for rifles, machine guns and pistols have been moved into the city during the last few days for the final clean-up. No quarter will be given to the male defenders of the turreted fortress, once the home of Moorish and Castilian kings.

By the Associated Press A new and apparently serious split in the government defense of northern Spain opened up today while the militiamen of Madrid, on the central battleground, announced they had placed a mile-deep hole in the Fascist front.

Basque nationalists in the north, who previously had broken with anarchists because the latter fired first before it was taken by the Fascists, set up a virtually autonomous government and ousted the anarchists from all government posts in the territory still dominated by friends of the Madrid regime.

Government militiamen, 40,000 strong, also formed a new battle-line from Oriz to Reuil, west and south of fallen San Sebastian, while at Bilbao, still farther to the west, government firing squads blasted out the lives of 62 officers who attempted a revolt.

Government forces in central Spain, fighting desperately to stem the Fascist advance on Toledo and Madrid, claimed a mile-long advance in the Santa Olla sector, 24 miles from Toledo. New triumphs, also, were announced for the Madrid militiamen in Cordoba province.

In Madrid, United States diplomatic authorities set Tuesday as the final deadline for use of the American embassy for refugees. It then will be closed, with officials remaining in the capital in private residences.

Government anti-aircraft batteries dominating Maqueda and Santa Olla, on the Talavera front, today brought down several huge Fascist bombing planes, authorities announced, but failed to halt a vicious aerial bombardment of the two cities.

ORGANIZED LABOR WILL AID DEFENSE OF JOB INSURANCE

(Continued from Page One.) case. That court ruled the Washington act unconstitutional. The Medford plaintiffs brought the suit on two points, one that packing company employees would be exempt along with those in the agricultural industry, and that the state law was contrary to the Oregon constitution.

The case has not been set, nor the presiding judge assigned, the Oregon supreme court announced. Affidavits of prejudice were filed against Judge H. D. Norton of Medford.

POLLOCK ON TRIAL FOR DENTAL WORK

Ralph L. Pollock, former local resident, charged with practicing dentistry without a license was on trial today, before a jury of six, in Justice of the Peace William R. Coleman's court. The prosecution closed shortly before noon. The case was expected to go to the jury by mid-afternoon.

The testimony this morning tended to show that Pollock, a dental laboratory workman, had offered to repair a false teeth plate, when approached at Gold Hill last week, by a man posing as a vacationist. The com-

plaint alleges Pollock worked upon the jaw of the "vacationist." The complaint was signed by Dr. O. J. Johnson of Klamath Falls, a member of the state dental board. Attorney Edwin Hicks of this city, acted for the district attorney's office, as prosecutor at the expense and request of the state dental board. The case was transferred for hearing from the justice court to the circuit court room.
