### American Legion Auxiliary

By Grace Holmes.

Today, September 17, is an important anniversary for all citizens of the United States of America as just 149 years ago the far-sighted originators of our constitution published this important document. Through all these years this important day has not been recognized generally, but the last two years the American Legion Auxiliary, together with other patriotic organizations, have resolved to bring before the people the importance of this great document that governs us.

It is remarkable that this constitution of ours has been able to govern us and take care of all problems that come with the growth of a nation with so little revision and amendments. It shows that such renowned men as John Hancock, Thomas Jefferson, Samuel Adams, John Adams, Benjamin Franklin had a most remarkable conception of the difficulties that would beset the new nation.

The American Legion Auxiliary is proud to pledge its whole-hearted support of our constitution and pledge anew to defend and perpetuate the ideals and principles of this great document on this, its 149th anniversary.
