LAND BANK AIDS 197 FARMERS IN JACKSON COUNTY

In Jackson county, 197 loans were closed in the amount of \$452,350 by the Federal Land bank and the land bank commissioner, from May 1, 1933 through June 30, 1936, according to information received by Edgar Freed, state director for the national emergency council.

Of the loans in Jackson county, 66 for \$202,900 were made by the Federal Land bank and 131 totaling \$249,450 by the land bank commissioner.

Through the agency of the FCA in Oregon \$23,658,400 have been loaned during the same period. These loans included 3,268 of Federal Land bank loans for \$13,001,600, and 5,033 land bank commissioner loans in the amount of \$10,656,800.

In addition to refinancing loans through the farm credit administration, the farmers in Oregon were benefited also by a reduction in mortgage principal which amounted to \$3,210,200. Further savings resulting from lowered interest rates are estimated at \$618,000 annually.

In the period May 1, 1933, through June 30, 1936, 765,674 mortgage loans, totaling \$2,056,156,826 were made and \$1,391,373,603 was advanced in loans to cooperatives, while \$18,878,072 was loaned to cooperatives by the F. C. A. in the United States.

45 STUDENTS ENROLL AT TALENT HIGH FOR FALL TERM OPENING

TALENT, Sept. 18.—(Sp.)—Talent High school opened Monday with an enrollment of 45 students. This number is an increase over last year's final count of 40. Several new students, especially in the Freshman class, have come in from other districts. Only three of last year's under-graduates have not yet entered, possibly because of work during the fruit season.

The faculty has found that a greater variety of subjects is obtained by offering sequence subjects alternate years. For instance, in home economics, sewing was taught last year and cooking this year; shorthand I this year and shorthand II next year. As a result of this policy, the two-year schedule (1933-36 and 1936-37) includes: English I, II, III, and IV; algebra I and II; shorthand I and II; geometry; business arithmetic; typing I and II; business training; commercial geography; bookkeeping; world and American history; civics; social problems; biology; physics; general science; vocational guidance; cooking; sewing; manual training; and health and physical education.

Extra-curricular activities offered are athletics, glee club for boys and girls, orchestra, debate and dramatics.

This schedule provides for complete college entrance requirements according to University of Oregon and Oregon State college bulletins.

SHERIFF ACQUITTED IN PRISONER'S ESCAPE

SALEM, Sept. 18.—(AP)—Frank A. C. Burk won his case in the circuit court today when Judge Earl C. LaTourrette directed a verdict for the defendant on charges of negligence in permitting a prisoner to escape. Motions to quash the indictment as well as another charging him with voluntarily permitting a prisoner to escape followed and the cases were dismissed.

The trial was in its second day here.

SNOWFLAKE RECIPES

Snow Flake Crackers Better Than Morning Alarm

Crunchy-crisp Snow Flake crackers give the goodness to this unusual breakfast dish, the sort of thing that's better than any alarm clock in getting small boys, and large, out of bed these nippy mornings. Grand too for Sunday morning breakfast and even luncheon or a simple dinner. You'll like these.

Baked Eggs in Cracker Crumbs
Boil very fine a half dozen or more of Snow Flake crackers. Add 2 or 3 tablespoons melted butter, and stir in as so as to moisten the eggs thoroughly. Cover the bottom of a baking dish with these crumbs. Break eggs on top of these. Cover with a thin layer of crumbs. Season with pepper and dot with butter. No salt is needed because of the salt in the crackers. Bake in a moderate oven (350 degrees) until puffed and lightly browned and the eggs are set. Serve with crisp bacon.

Here's a Snow Flake Pie Crust That's Foolproof and Oh-So-Good

With a recipe like this no husband will ever say "Like mother used to make." It may even be better and ten chances to one, when she finds out how easy it is to make, thanks to these delicious Snow Flake crackers which the smart little house-maker always has on her cupboard shelf, or her order list, she'll be asking you for the recipe!

Snow Flake Deep Dish Apple Pie
Mix together:
3 cups cooking apples, peeled and sliced thin
1/2 teaspoon nutmeg
3/4 cup sugar
Pinch of salt

Put into a deep buttered baking dish. Cover with a mixture of 20 Snow Flake Crackers, rolled fine 1-3 cup softened butter. Spread in an even layer over the apples. Cover and bake in a hot oven (425 degrees) until the apples are tender, about 40 minutes. Uncover and brown lightly. Serve hot with cubes of cream cheese, and plenty of hot coffee.

Snow Flakes Make This Grand Vegetable Dish

Here's a dish that helps to answer the eternal problem of "What shall the next meal be?" You'll like these tomato custards made with Snow Flake crackers, to give them "body." They're good as a meat accompaniment or as the main part of the meal, along with vegetables.

Tomato Custards With Cheese Sauce
Use two cups of tomato juice simmered for 20 minutes with a large slice of onion, a bay leaf, 2 whole cloves, 6 whole black peppers (peppercorns), 2 teaspoons sugar and a dash of celery salt or some chopped celery. Strain. Add 1-3 cup Snow Flake cracker crumbs and 2 eggs slightly beaten. Bake in buttered custard cups until firm, placing them in a pan of water to bake, in a moderate oven, for about 20 minutes. Serve with a cheese sauce made by adding 3/4 cup of a nippy cheese.

Good Coffee! It means so much and costs so little. Why not enjoy the best. Find the rich flavor that lies in a cup of Schilling Coffee.

grated, to a medium white sauce. Season with a dash of paprika and a fourth teaspoon of prepared mustard.

Suggestions Are Offered Hostess For Home Tables

With the approach of a busy autumn season of home entertaining and regular family meal planning, housewives of Medford are sure to welcome the suggestions presented in a new series of messages appearing regularly in the Mail Tribune.

These are sponsored by the makers of oven-fresh Snow Flake crackers and are addressed to the Perfect Hostess, which means every modern-minded woman who wants her table to reflect quality and discrimination. The keynote of successful meals is always an interesting topic. This particular group of hints will appear on our Friday food pages every Friday.

POLITICS SEEN IN PAY BOOST DELAY

PITTSBURGH, Sept. 18.—(AP)—Philip Murray, chairman of the steel workers' organizing committee, predicted today the United States Steel corporation will grant a wage increase, but is withholding the announcement as "part of a general scheme of big business to defeat the re-election of President Roosevelt."

He made the assertion in a reply to B. P. Fairless, president of the U. S. Steel's Carnegie-Illinois corporation. Fairless notified his 90,000 employees last week there would be no wage boost because, he said, earnings and past-due dividends made such a step unwise at this time.

"Aware of the fact a wage increase would aid recovery already set in motion by the new deal policies of the Roosevelt administration, steel is withholding an increase for political reasons," Murray said.

CANADIAN PILOTS FOUND IN NORTH WILDERNESS

WINNIPEG, Man., Sept. 18.—(AP)—Two royal Canadian air force pilots, who were forced down a month ago today in the wilderness of northern Canada, prepared today for a trip back to civilization.

The men, Flight Lieut. Sheldon Coleman and Aircraftman J. Porty, were reported found by a searching party last night in a message to Squadron Leader R. S. Grandy here.

WIFE OF PAWNEE BILL DIES OF AUTO INJURY

PAWNEE, Okla., Sept. 18.—(AP)—Mrs. May Lillie, 65, wife of Major Gordon W. Lillie (Pawnee Bill), frontiersman and showman, died today of injuries received in an automobile accident Sunday night. Her husband, 78, himself injured in the accident which caused her death, was at her bedside.

AUSTRALIA AIDS AUTO INDUSTRY WITH SUBSIDIES

CANBERRA (UP)—Australia is adopting a definite policy of making itself self-sufficient in the production of all the automobiles it may need. Government subsidies on the

manufacture of parts will be the principal means adopted.

According to Sir Henry Gullett, who is in charge of the government's trade treaties, Australia is already manufacturing 80 percent of the many types of complete cars now sold on the Australian market.

Sir Henry expressed his conviction in the Australian house of representatives that not only the engine and the chassis, but all accessories, such as radiator cores, gear boxes, and gasoline tanks that are now imported can be produced in the commonwealth efficiently and economically.

To provide funds for subsidizing local motor industries, Sir Henry announced that the government proposed to impose an additional duty

of about \$25 on each imported chassis that will be used in building up a local industry of the same thing.

The government proposes to pay a bounty on each local unit produced as follows: \$150 for 1938; \$150 for 1939; \$40 for 1940 and \$18 for 1941.

It is believed that after that the industry will become not only self-supporting but profitable.

It also is expected that the production will begin with 3,000 chassis in 1938; 15,000 in 1939; 30,000 in 1940 and 40,000 in 1941.

In this manner, Sir Henry announced, Australia hopes to free itself entirely from the necessity of importing automobiles and thus reduce its unfavorable trade balance immensely.

CATERPILLAR TRACTOR MAKES LARGER PROFIT

CHICAGO, Sept. 18.—(AP)—Caterpillar Tractor Co., today reported August net profit of \$851,656 against \$502,336 a year ago. Net sales totaled \$4,712,789 against \$3,071,653.

For the eight months ending August 31 net profit totaled \$6,200,807 against \$3,862,039, equal to \$3.29 a share against \$2.05. Net sales totaled \$37,519,433 compared with \$24,844,545.

Net profit figures were before deduction of any amount which may

become due for surtaxes on undistributed earnings, B. C. Heacock, president, said.

ADRIAN, Mich.—(UP)—Spontaneous combustion in new-mown hay destroyed three barns in the vicinity of Adrian and Milan.
