"All Lemke needs," the Detroit priest who organized the National Union for Social Justice, said, is 6 cent of the electoral vote to throw the election into the house of representatives.
"The constitution requires a candidate for president must receive more than 50 per cent of the electoral votes to win," he said.
"Well, all the straw polls show Governor Landon and President Roosevelt are so close that neither has as much as 50 per cent, so it appears quite probable that Lemke can get enough votes to throw the election into the house and put us into a position to bargain."

LAST VESTIGE OF NOME FIRE GONE
NOME, Alaska, Sept. 19.—(P)—Nome, a gold mining town on the northern shores of the Bearing sea at the edge of America's frontier, today had wiped out the last of the scars of the fire which two years ago reduced the business district to ashes.
Merchants yesterday observed the second anniversary of the blaze and told of the progress of the town, which has seen a 15 per cent population increase since the night of Sept. 17, 1934.
Today wide, straight streets pass through the residential and business districts, compared with the narrow alleys that existed before the fire.
There are now adequate housing facilities, instead of the shortage of the last two winters caused by the blaze.
More than 50 new homes and several apartment houses have been constructed in this town of less than 2,000 people.

LAUREL ST. HOME FLAME DAMAGED

Fire did considerable damage yesterday afternoon to the small frame dwelling behind the Laurel Street grocery on Laurel street between 10th and 11th streets. The roof and attic were burned and some furniture was destroyed. The roof of a barn behind the house also was burned. Cause was attributed to a spark from the chimney.
Damage was estimated from \$400 to \$500. The property is owned by John White and was occupied by Mr. and Mrs. Robert Taylor. Mrs. Taylor was at home at the time. The fire was discovered by a neighbor.
The fire department's chemical crew was called to assist when an ammonia pipe broke yesterday afternoon in the Economy meat market on East Main street. The firemen put on gas masks and shut off the ammonia plant. Repairs were then made.
Smoke pouring out of a hole in a heater pipe at 205 West Main street yesterday afternoon caused the sounding of a call for the chemical crew. The crew cleared out the smoke which interrupted a rummage sale.

BERLIN REPORTS STALIN VERY ILL

BERLIN, Sept. 19.—(AP)—The Berlin Tageblatt, in its issue dated tomorrow, asserts that Joseph Stalin of Russia is critically ill and will be succeeded by Klement E. Voroshilov, commissar of war and marine.
The story under a Berlin date and giving no indication of its source, says Stalin is suffering from hardening of the cardiac artery.
Stalin's asserted serious illness, the paper states, has resulted in "struggle for his succession going on in inner Kremlin circles."
"Although the present war commissar, Voroshilov, often found himself in opposition to Stalin, especially over influence of Stalin's present policy on the army, it can be assumed Voroshilov will step into Stalin's place."
The predicted succession, the paper says, will result in radical changes of the present government.

COAST MARITIME LABOR SITUATION NEAR SHOWDOWN

SAN FRANCISCO, Sept. 19.—(AP)—The Pacific coast maritime situation worked toward a showdown tonight with the announcement that the International Longshoremen's association had overwhelmingly rejected an employer proposal to arbitrate differences over a proposed new working agreement.
Northern shipping points reported unusual maritime activity which the Seattle Times attributed to fears of a disruption in service when old working agreements expire September 30.
The longshoremen's decision came while the marine firm group, another coast maritime union group, disagreed with the organized employers on a vital point in their negotiations for a new working contract.
Dewey Bennett, secretary of the local I. L. A. in Seattle, who announced the longshoremen's decision, said they had voted 96 per cent against arbitration.
Thomas G. Plant, spokesman for the employers, expressed regret that the longshoremen had rejected "the approved American way of settling disputes by arbitration."
In New York, Harry Bridges, coast district president of the I. L. A., asserted longshoremen of the Atlantic coast, the gulf area and the great lakes area would support western stevedores in the event of a break with employers.
Bridges' statement came after a pay increase had been announced for eastern longshoremen, bringing their wages to \$1 an hour regular and \$1.50 an hour for overtime work.
Coast longshoremen, now receiving 90 cents and \$1.40, have asked for the same wages as have been granted to the eastern stevedores.

KLAMATH OFFICER IN RECALL FIGHT

KLAMATH FALLS, Sept. 19.—(P)—A recall move aimed at Roy Taber, Klamath county commissioner, was launched here today by R. C. Hoskinson, Hometown carpenter.
Hoskinson, who said he was acting as representative of a group of voters, charged incompetence and abuse of power in office. He stated Taber used his position to promote purchase of county supplies from a company in which Taber is a stockholder.
Hoskinson filed a copy of the recall petition and said he hoped to have it filled out in time for voter action in November.
Taber was elected in 1934 and his term as commissioner has more than two years to run.

LEGION AIMS FOR UNIVERSAL DRAFT IN CASE OF WAR

CLEVELAND, Sept. 19.—(AP)—National Commander Ray Murphy, in his annual report made public tonight, urged mobilization of the whole strength of the American Legion to prevent another war involving the United States, and cited legislative gains made by the organization.
Expressing deep satisfaction over the payment of the adjusted compensation certificates of world veterans, Murphy said the legislation effecting that payment was only part of the legislative program gained by the legion.
"Complete success," his report said, "attended our efforts with respect to the program for an adequate national defense, liberalization of the law providing for the care of widows and orphans of World War veterans, and great advance was made in the legion's 15-year fight for a universal service act."
"It must not be thought that our legislative work is done and that we can rest on laurels hardly won."
"First and most important is the enactment of a law providing for universal service in time of war—a law that will make dollars fight on exactly the same footing and equality with men, so far as that is possible."
"The time has now arrived to throw the full strength of the legion and all support that can be enlisted behind the measure and to fight on
