

SOCIETY and CLUBS

By Janet Wray Smith

Mrs. Brown Is Shower Honoree

Honoring Mrs. George Brown, nee Miss Velda Smith, Mrs. Laura Schoppert and Mrs. Alvin Reinking arranged a shower at the Schoppert home last evening. Acting as joint hostesses, they invited several friends to honor Mrs. Brown, whose marriage was an event of September 15. Cards were played during the evening, with scoring honors going to Mrs. Maxine Clemens and Mrs. Brown. Among the many gifts presented to Mrs. Brown were crystal candelabra and centerpieces, a joint gift from all those present.

Notice

Press correspondents or publicity chairmen of all clubs, lodges, church circles and other organizations are requested to call the society editor at 76 during afternoon hours as soon as possible. Co-operation in this matter will be greatly appreciated.

Chicago Visitors At Brommer Home

Mr. and Mrs. Fred Korthauer, of Chicago, Ill., are among visitors in the city, having arrived on the Shasta this morning. They are the guests of Mr. and Mrs. Carl Brommer, Mrs. Brommer and Mrs. Korthauer being sisters.

THE MORE INACCESSIBLE LAKES IN THE Sky lakes and the Mountain lakes primitive area continue to provide good fly fishing during the evening. The more experienced anglers have been making good catches of steelhead and trout during the past week in the main Rogue river. The more inexperienced fishermen's catches, however, have been largely trout. Practically all fish have been taken on the spawning grounds using single eggs.

BEST HUNTING IS FOUND ON DIVIDE OF ROGUE-UMPUQA

The following recreational bulletin was issued today by the Rogue River national forest service:

"Hunting conditions remain only fair because of the hot, dry weather. The deer appear to be concentrated for the most part at the higher elevations in thickets around the edge of patches of snow brush.

"In the Applegate, the main part of those killed have been along the summit of the Siskiyou east of Dutchman peak and along the divide between Yale creek and the Little Applegate. Very few deer have been killed in the Butte Falls district. The edges of the timber fringes around the foot of Mt. McLoughlin and Cat Hill contain quite a few bucks, but they are very difficult to see. In the Rogue river district, a number of deer have been taken in the vicinity of Butler Butte on the Rogue-Umpqua divide. In fact, the entire divide has proved to be the more successful territory.

"The pleasure and enjoyment of a hunting and fishing trip does not end when the smorod or angler returns home, for there is nothing in the domestic world which will equal the venison steaks, the fried trout, the roast pheasant, goose or duck. You may or may not agree with those methods of cooking. Perhaps you have your own special way of preparing your fish and game for the table. But each one of you will agree that whatever the method is, it is preferable to having them scorched and burned by a forest fire. Even though they escape alive, such a fire destroys their food and shelter. Picture those results the next time you are tempted to smoke in an unsafe place or when you are extinguishing your cigarette.

"The more inaccessible lakes in the Sky lakes and the Mountain lakes primitive area continue to provide good fly fishing during the evening. The more experienced anglers have been making good catches of steelhead and trout during the past week in the main Rogue river. The more inexperienced fishermen's catches, however, have been largely trout. Practically all fish have been taken on the spawning grounds using single eggs.

"The mountain drives in the Rogue river and Butte Falls districts are now very colorful with the yellow and scarlet leaves of the vine maple, dogwoods and other hard woods.

"While it is rather early in the season to mention winter sports, the enthusiast will be interested in knowing that COO crews are preparing a 600-foot slide and shelter on the Ashland peak loop drive. This project is seven miles from Ashland on the head of Tolman creek."

Gold Policy Proves Aid In Recovery - Morgenthau

WASHINGTON, Sept. 25.—(AP)—In reply to his criticism that the New Deal's gold-buying policy was giving foreigners a whip hand over American economic conditions, Senator Arthur H. Vandenberg was told by Secretary Morgenthau today that the policy had contributed to recovery.

Vandenberg asked a series of questions regarding gold purchases and asserted that by enabling foreigners to build up big holdings of American securities they had brought "peril to our domestic situation."

He based his complaint on the ground that when gold streams into the United States, it is sold for dollars which are used to buy American securities. Should foreigners decide to liquidate the securities, change the dollars back into gold and take the

metal out of the country, the nation's economy would be dealt a depression blow he argued.

Replying, the treasury chief said that dollar revaluation under the gold policy stopped a downward sweep of prices and helped to initiate an upward movement, stimulated business activity, wiped out "some of the gross injustice between debtors and creditors created by sharply falling prices" and enabled exporters to regain their competitive position in foreign markets.

Vandenberg said that through the influx of gold foreigners now own about \$4,000,000,000 of American securities and other holdings "on instant call."

Morgenthau, however, said that the size of foreign holdings here "should be no cause for alarm."

Merchandise on Tax Roll Valued Higher in County

Classification of valuations in Jackson county for tax purposes, as prepared by the county assessor's office shows that merchandise, manufacturing and stationary engines, hotels and office equipment, and farm implements and autos had the largest gains.

The 1934 valuation was \$206,660; for 1935 it has been listed at \$171,100. Hotel and office equipment increased \$74,040, from 114,410 in 1934 to \$138,850 for 1935.

Slight decreases in number and valuations of horses, mules, sheep, goats, stock cattle, dairy cows and dogs their owners desired taxed are also noted. Poultry, swine, bee hives and commercial foves gained.

Comparative figures on farm animals and small stock are:

	1935	1934	1935	1934
Horses, mules	3,145	\$118,900	3,200	\$116,030
Cattle	15,471	261,790	17,174	287,130
Dairy cows	7,099
