

RECOVERY CREDIT BELONGS TO F. R. ASSERTS DONAUGH

U. S. Attorney Tells Democratic Audience Hoover Policies Brought Greatest Danger to United States

Before a packed house at Democratic headquarters here last night, Carl C. Donaugh, United States attorney for the district of Oregon, pointed to the record for public welfare established by President Franklin D. Roosevelt, charging that the entire brunt of the recent depression should be charged to the Hoover-Republican administration, and adding that the entire credit for increased national income, decreased unemployment and lessening of the strain on national business could be credited to the Roosevelt administration alone.

"The basic principles of the constitution were never in greater danger from communism or dictatorship than through the policies pursued by the Hoover administration," he said. "Unemployment, soup kitchens, mortgage foreclosures, bank failures, bank holidays, stagnation of business, are the conditions that cause general despondency and a breakdown in moral stamina."

Banking Act Cited.
Donaugh spoke at length on the benefits of the banking act established under the Roosevelt regime. "Between 1921 and 1933 there were 11,467 bank failures in the United States," he said. "Deposits totaling \$5,500,000,000 were affected by this appalling tragedy. Millions saw their life savings swept away. With the enactment of the banking act, providing in part for the insurance of bank deposits up to \$5,000, conditions have been completely reversed. Since its enactment and under its operation during the past three years there have been but 61 failures, with deposits totaling less than \$18,000,000. In fact, the president announced a few days ago at Pittsburgh that there had not been a single national bank failure during the past year. This constitutes a record for the past 55 years. No piece of legislation has done more to bring money out of hiding, to restore confidence and business stability than the act creating the federal deposit insurance corporation.

Glanville Quoted.
"Here is what A. P. Glanville, chairman of the Bank of America, has to say: 'Due to the legislation of the last three and a half years our banks are now in a better position than at any time in the past to justify the confidence of the average man and woman who trust their savings to them. When the banking system was put to the test at the height of the depression, it was found that this confidence had vanished because the basis for its continuance no longer existed. Deposits shrank by millions. At the end, banks in unprecedented numbers were forced to close. President Roosevelt immediately grasped the situation and under his leadership two vital steps were taken, to be followed by others, to restore confidence, make banking operations safer, and give absolute assurance to depositors. Future generations in surveying the experience of the past and viewing the ruinous effects of lost bank deposits, may well wonder that the apparently wretched disregard for the safety of bank deposits so long existed.'"

of the policies which have brought about constructive progress under President Roosevelt."
All Democratic candidates for county offices were present at the meeting.

Coddling Cities Record.
Ralph Stephenson, candidate for the state legislature, made a few remarks, and James Stevens, also legislative candidate, declined to comment on his race. George Coddling, incumbent district attorney seeking reelection, cited his record, pointing out that when he took office only \$900 remained in the prohibition fund and that four years later he turned over \$10,000 to the county. He said that prior to his taking office the annual expenses were \$5,000, a sum which he has reduced to \$3,800.

Ralph Jennings, former sheriff seeking election as county commissioner, stated that he believed his record as an office holder and farmer qualified him for the position. Ralph Sweeney, seeking the county treasurer post, said he had been handling other people's money for 30 years and believed himself qualified. Clarence Pankey, county clerk candidate, listed his qualifications, as did L. H. Hansen of Ashland, candidate for county assessor.

Col. E. E. Kelly made a few remarks at the meeting, as did J. T. Summerville, U. S. marshal with headquarters in Portland, a former Medford resident.

able to give a word of praise along with his criticism of the editorial policy of the Tribune—almost an unheard-of thing these days, when partisan fault finding and ridicule is the slogan.

Disagrees With Marshall.
To the Editor:
I read the communication signed by Vern Marshall in which he asked you to haul in your horns and stop writing editorials favoring President Roosevelt. Well now, Mr. Editor, I think that is an extraordinary request for a man to make who already has been elected by a big majority, and anything you could say would not make a particle of difference anyhow and as long as you are telling the truth in your future editorials the same as you have in the past, I am in favor of your continuing writing them. It can't possibly do any harm as it is a foregone conclusion, according to the Literary Digest, that Landon is just as good as elected already, so say the Republicans.

Communications
Ouch! Likes the Lousy But—!
To the Editor:
I have just read Vern Marshall's letter in your editorial column, and, sketchedly, your editorial.
Like Mr. Marshall I have read the Tribune quite a while and really like the lousy paper. And I agree better than fifty per cent with Mr. Marshall. I have always liked the editorial comment of the Tribune but lately it has been one continuous pain in the neck.

Five years ago I watched Hoover trying to do something with a bulky Democratic Congress.
Four years ago I listened to all the vitriolic comment of Mr. Roosevelt and his pals, directed at Mr. Hoover. I voted for Hoover.
For the past three years I have been a pretty consistent believer in Roosevelt. Mr. Roosevelt's recent "silk hat" story just about ruined me.

Disagrees With Marshall.

Comment of the Day's News

By FRANK JENKINS

MOVIE players, making a society picture gang up on the director and force him to fire a group of society girls who had taken jobs as extras.

GOOD enough!
If you're going to be a society gal, BE a society gal and go to pink teas (if there are such things as pink teas) and get your picture in the Sunday supplements and pick out an eligible young fellow with rich parents and put the bee on him. But don't try to monopolize ALL the spotlight.

THERE'S an old saying to the effect that you can't have your cake and eat it, too. Anyway you SHOULDN'T. So more power to the militant extras down there.

AN INVENTION that clears away fog is reported to have proved completely successful in a series of tests conducted by army engineers at San Francisco.

LANDING in a fog is aviation's greatest hazard. Planes can follow a radio beam. Indeed, they have done so, clear across the ocean. Flying blind, with

only instruments to guide them, they can find the airport for which they are heading. But they can't land safely unless they can see the ground under them.

(Continued from Page One.)

The truth is these two countries dare not let their money go freely up against the money of the world. Their gold weakness permits them to adjust their currencies to the dollar only artificially and theoretically.

Barnstormers with Governor Landon continue to complain about personal friction within the top organization. What one eminent Landon authority said about it weeks ago still holds true, namely: "There are 20,000 ants on the log and each one thinks he is guiding the log."

There are lots of little stories—one adviser pocketed some speech recommendations of other advisers and kept them from the candidate, the superior manner of one foremost adviser has discouraged his helpers, etc.

The Democrats seem to be better at figures than the Republicans. Not only have they been able to calculate the debt increase at \$8,000,000,000 instead of \$14,000,000,000, as carried on the treasury statement, but they can prove from the Digest poll that Mr. Roosevelt will win.

Here is the way one of the workers around headquarters did it rather logically with the Digest results of a recent week:
Landon's straw total—438,601.
Total Hoover vote from '32 polled so far—362,955.
Landon's straw gain—75,646.
Roosevelt's straw total—292,824.
Total Roosevelt '32 straw vote polled so far—290,675.
Roosevelt's straw loss—8,151.
Now if you take the indicated ratio of Landon's gain over the Hoover straw vote and apply it to the 15,816,000 actual votes which Hoover polled in the 1932 election, you will compute the total indicated Landon vote as 19,616,000.

lead of 3,165,952 for Roosevelt out of a straw poll which shows him to be losing 2 to 1, and no one can object to the logic of the deduction. And so on, far, far into the night.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys
Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about a pint a day or about 3 pounds of waste.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, lumbago, leg pains, loss of pep and energy, getting up night, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Under the Civil Works Administration, operated from January 10, 1934, there were 1895 projects in Oregon involving the expenditure of federal funds of \$6,454,123, 80 per cent in actual wages and 20 percent for materials. Under the Public Works Administration, \$100,000,000 in round numbers has been expended in the state, representing 39 schools, 28 water supplies, 13 sewage disposal plants, not to speak of the five coast bridges, the state capitol, Bonneville dam and others. These projects have given employment to some 100,000 men and have indirectly affected 30,000 persons.

Under the Works Progress Administration the first project was started in the state on September 12, 1935. There have been as high as 695 projects in operation at one time with 22,673 workers. Under the Home Owners Loan Corporation 9,400 home owners were able to save their homes from foreclosure. These loans totaled \$18,500,000. No act of any administration will have more lasting benefit than the Civilian Conservation Corps. Thus far, 1,500,000 young men have enrolled. They are receiving an education, are aiding in protecting our vast natural resources, and instead of remaining idle are being made into fine citizens.

No Credit to G. O. P.
"Whatever may be advocated by the Republican leadership, the fact remains that none of the beneficial acts to which I have referred were sponsored or advocated by Republican leadership and the credit for their enactment and progress made rightfully belongs to the Roosevelt administration and to the administration alone. The issue of the present campaign is clear cut. It means either a return to the so-called Republican free enterprise which brought about the conditions prior to 1933 or it means a continuance

VOTE FOR RED LION

THE GASOLINE WITH A RECORD OF 301 Performance MARKS

EXCERPT FROM AN ADDRESS MADE BY RED LION AT MILEAGEVILLE

Despite the claims of my carbon-slinging opponents to the contrary, with pardonable modesty, I tell you I'm the only candidate that has the unqualified endorsements of such organizations as the Thrifty Throttle Thumpers Club! (tremendous applause) My entire being is steeped in the tradition of practical, workable economy. I've devoted days, weeks, months, years to the gruelling business of Record Breaking gasoline performance... all towards the goal of becoming a boon to motordom, the most gifted and powerful guardian of the motorists' purse strings you've ever known. Here is but a part of my unimpeachable, flawless record:

1. Two years a victor at Indianapolis.
2. Winner of the National Championship.
3. Averages 22 miles per gallon in Gilmore-Yosemite Run.
4. Holder of 301 official power and mileage records.
5. Keynote for the average motorist.

Just try and find one other gasoline candidate who can approach it!
