

26 MAIN SQUADS UNBEATEN, UNTIED IN FIRST 3 WEEKS

List Will Be Cut to 20 Next Saturday — Southwest in Reversal of Form — No Team Has Clean Record

By HENRY SUPER
(United Press Staff Correspondent.)
NEW YORK, Oct. 13.—(UP)—The 1936 gridiron season is only three weeks old and there are but 26 main teams undefeated and untied. At the end of the first week, that list is certain to be cut to 20.

The east holds sway over the undefeated, untied ranks with 10 teams which have clean records. The midwest has eight; the far west and south four each.

Southwest Records Smudged.
The amazing loss of form this year is in the southwest where there isn't one team with a perfect record. Last year, Southern Methodist and Texas Christian hammered down the stretch undefeated and B. M. U. halted the Christians and went on to roll up 12 straight victories before losing to Stanford in the Rose Bowl. Both already have lost one game each.

Twelve undefeated teams back their records against each other this Saturday, with four of those perfect clashes scheduled for the east and one each for the south and far west. They are: Duke - Georgia Tech; Southern California - Washington State; Army - Harvard; Duquesne - Pittsburgh; Manhattan-Holy Cross and Navy-Yale.

The undefeated, untied teams in the major class are Alabama, North Carolina, Fordham, Villanova, Indiana, Marquette, Michigan State, Minnesota, Northwestern, Notre Dame, Purdue, Santa Clara, St. Mary's and Princeton.

Every team in the perfect group has at least one game with another eleven on that list. Notre Dame and Navy have five still undefeated opponents on their schedule, including a game against each other. Others have from one to four perfect eleven on their program.

Nine Can Stay Perfect.
And figuring only an opposition against perfect teams, it is a mathematical certainty that no more than nine teams can end up the season without defeat or tie. Actually, however, the chances are that only two or three can survive the season with clean states.

In the far west it is possible for only two teams to come out on top with the odds heavy against each one of them turning the trick. In the east, the schedule is such that only three teams can possibly come through. And two of the south's four undefeated eleven can turn the trick.

ELKS TO INITIATE CLASS THURSDAY

A class of from 12 to 16 prospective Elks will ride the goat at the lodge temple Thursday night, with visitors present from the Bend, Klamath Falls, Ashland and Grants Pass lodges, it was announced today.

The Klamath Elks will bring the entertainment with them, and promise an evening of good fun. The program will be climaxed with a big feed in the temple basement, the dinner to be prepared by P. C. Biggam and George Howard.

Excited Ruler Walter Olmstead today asked that all Elks be present to welcome the visitors and the new candidates.

Lenny Raposo and 12 great artists at Merrick's next Tuesday night.

Six Reasons That Urge a "NO" vote on State Power Bill

(1) This bill puts the State of Oregon head over heels into the electric power business, sets up a commission of three men, without bond and with no required qualifications, to run this gigantic system.

(2) \$15,000,000 of tax-supported bonds can be sold, when authorized, to build this state-wide power system. By simple process of amending the bill \$54,000,000 of tax-supported bonds may later be authorized and sold. These bonds must be paid by taxes if the system is unsuccessful.

(3) How can a complete state power system be built for \$18,000,000 when the State Planning Board advisory committee on power estimated cost of TRANSMISSION SYSTEM ONLY to be \$20,470,000? (See committee's report of governor of Oregon, Dec. 20, 1935, page 13.)

(4) This bill contains no promise or assurance of lower electric rates. Rates may vary and be juggled at the commission's whim.

(5) Cities, counties, and the state will lose millions of taxes now paid by existing utilities, thus forcing higher taxes on remaining property.

(6) This 3-man power commission can buy any property or engage in any business "deemed necessary or convenient." Here is opportunity for vast political activity under control of a NEW STATE COMMISSION. (See Section 9, subsection 10).

The State Power Bill is Useless Without \$15,000,000 of New State Bonds. A Vote for the Bill Commits You to Vote Later for the Bonds

Against the State Power Bill

Oregon Tax Limitation Situation Explained

Editor's Note: This is the second of a series of articles on the tax situation in Oregon, written for this newspaper by Dr. James H. Gilbert, dean of the college of social science at the University of Oregon. Dr. Gilbert, who is also professor of economics at the University, is regarded as an authority on the tax situation in the state of Oregon and is frequently consulted by state officials and others.

Tax Limitation and Reduction Proposed Amended Strangely

By JAMES H. GILBERT
The tax limitation and reduction amendment gives evidence of being hastily prepared and ill considered. The state is rationed on a six-mill levy on a 50 percent valuation, this levy to be reduced gradually to a 4.8 mill levy in 1942.

The starting point for tax reduction in local governments in the 1935 levy which becomes the base for 1937 and subsequent years. After 1937 four percent of the 1935 millage is to be stricken off until the levy of 1942 is equal to 80 percent of the original base. These falling rates are to apply to a 50 percent valuation, regardless of the percentage of cash value represented by assessments of 1934.

Underlying this strangely constructed measure is apparently the assumption that all our local governments are spending too much by 25 percent, and are to be pared down gradually to an 80 percent allowance. Just how the standard of extravagance was arrived at is not clear. Just why the reductions should be four percent a year and not 14 is also obscure.

Some governments may have been extravagant although in the popular mind public extravagance is always crudely exaggerated. City and county officials are generally responsible taxpayers and business men not prone to load unnecessary burdens on themselves and others. Despite some

ROOSEVELT HITS GOSPEL OF FEAR SPREAD BY FOES

(Continued from Page One.)
nity for education, he said: "We are coming through a great national crisis with flying colors."

"We have not lost our self-respect. We have not changed our form of government."

Turning to peace, the president said the United States had taken the lead among the nations of the world in "restoring economic peace which is so essential to military peace."

Example to World.
"We propose, of course," he added, "no interference with the affairs of other nations. We seek only by force of our own example to spread the gospel of peace in the world."

The president already had made three rear platform talks from his train last night in western Kansas.

The president said he did not believe "Kansas would have pulled through the difficult problems of the past four years as splendidly as it has, had it not been for federal co-operation and federal assistance in many fields of our endeavor."

"If you think we were wrong to give this assistance, then, to be logical, you must ask that in the days to come every state in the union shall set itself up as an individual entity for the solution of all the problems of all of its inhabitants, save possibly the maintenance of the army, the navy and the handling of our foreign affairs."

He repeated a previous statement that with "income increasing and expenditures declining, we shall be able to balance the budget and start paying down" on the public debt in a year or two.

Agriculture Aided.
"The farmers of the nation are a good example of what government can do," he said, "not only in direct help but in providing security for the

future. From a state of collapse in 1932, agriculture has not only been brought back to life, but has received the encouragement of government, which enables it to face the future with confidence."

The president devoted the remainder of his talk to an enumeration of the "three broad classifications" of New Deal "security" and what it has done to attain it:

1—Immediate and direct assistance including work for the unemployed, help for drought sufferers and assistance to youth.

2—Protection against "recognized abuses," such as kidnapping, safeguarding investors, regulation of stock exchanges and utility companies, bringing down electric rates and eliminating "unsafe" banking.

3—Reduction of "interest rates," "saving" of farms and homes from foreclosures, insurance of bank deposits, old age pensions, assistance to states, and loans to railroad.

GOVERNOR LANDON WARNS LABOR OF 'FALSE FRIENDS'

Samuel Gompers Praised by Candidate in Toledo Address — Opposed to Infringement Labor Rights

TOLEDO, Ohio, Oct. 13.—(AP)—Gov. Alf M. Landon, addressing Ohio's labor vote in this railroad center, said today that labor "has its false friends" who in other nations "have already betrayed the men and women who work."

Praising Samuel Gompers, organizer of the American Federation of Labor, for keeping "organized labor from being destroyed by its socialistic enemies," the Republican presidential nominee said "his wisdom kept organized labor from the great temptation to participate in party politics."

The Republican candidate's speech here closed his personal campaign for Ohio's 26 electoral votes.

Must Protect Rights
"I am absolutely opposed to any infringement on the rights of labor to organize and any curtailment of the right of freedom of assembly," the governor said.

"It is the government's duty to protect labor and the people in these rights."

"For one, am sorry to see the recent split in the ranks of labor and hope it will be speedily healed. The great gains made by labor through its organizations are in danger so long as this division exists. Here again unity is requisite for progress and achievement."

"Organized labor," the Kansan said, "in the fifty years of its experience, has made a distinct contribution to our American life. It has achieved progressive reforms for the welfare of working men and women through evolutionary rather than revolutionary processes."

Told To Look Abroad
The candidate told his audience to "look abroad."

"Trade unionism has been made a statutory crime in many nations. The working people have become serfs of the state. Only last week, in an European nation, hours of work in industry were increased 50 per cent, without wage adjustment, by the edict of a single man."

Concluding a twelve day Ohio drive, the nominee sped toward Detroit for the third major address of his lake states tour and conference with Henry Ford, Edsel Ford and other political and industrial leaders. He arrived in Detroit at 12:35 p. m. (E. S. T.)

His speech, to be nationally broadcast from Navin field tonight was expected to deal with "freedom of enterprise" in American business.

Relief Program Told
Presenting his relief program at Cleveland, Landon told a throng that overflowed the 15,000 capacity public auditorium:

"I am dedicated to the proposition that henceforth no American citizen will ever again be put in the position where he has to sell his vote for bread."

Landon said this was a "broad outline" of the Republican relief program: "Get ride of waste, extravagance

and politics in the administration of relief.

"The first step in building an intelligent system for handling relief is to find out the facts."

"The Republican party, as a major reform, proposes to return the administration of relief to the states. It will then be possible for the communities themselves to determine just what form the relief should take."

Must Continue Aid
"The federal government must continue to give financial aid through the states. We intend to establish a system of federal grants-in-aid to the states."

Landon said "politics" in relief under the new deal was "a national scandal," a "disgrace to the administration," and "a humiliation to the American people."

Again today at Sandusky, the nominee
