Lake Creek Grange

At the next meeting of Lake Creek Grange, October 23, a representative of the Beaver Portland Cement Co. will again be present to analyze any soils the farmers care to bring samples of. Object of the analysis is to determine the amount of lime needed on the various types of soil. All farmers in the community are cordially invited to be present, and those who are not Grange members, wishing additional information on the manner of taking the soil samples will find any Granger glad to help.

An enjoyable meeting was held October 9.

Interesting numbers were given by Beth Zundel, Russ Moore, Helen Sidley, Nora Bradshaw, Dorothy Stanley, Julia Sidley, Myrtle Charley, Tom Stanley, Mary Moore, Julia Sidley, Myrtle Charley, Mabel Stanley, Russ Moore, and Mary Moore.

Delicious sandwiches prepared by Mabel Stanley and a lovely cake baked by Myrtle Charley furnished refreshments served by the H. E. C.

A penny drill netted a generous sum for the committee.

Due to the pear and tomato show being held the first of the month, Talent Grange postponed "booster" night to the next regular meeting, Thursday, October 13. All Grangers and their friends are invited to the open meeting. Dinner will be served at 7:30 p. m. with a play and dancing to follow Grange session.

Ladies of the Talent H. E. C. met at the home of Mrs. Ed Borg yesterday for an all day meeting. The day was spent preparing for the bazaar to be held later this fall.

You are cordially invited to an evening of games, singing, folk dances and marching tomorrow night, sponsored by the Grange Recreational club. No admission charge. Refreshments will be served.

All officers except one were present at the Grange meeting Friday.

The following committees reported: Henry Conger, for agriculture; Charley Meers, legislative; Chester Wendt, G. A. C. O. P.

Mattie Meehan, H. E. C. chairman, reported 13 members present at Emma Conger's at last meeting. Anna Wendt will entertain H. E. C. October 21.

Mrs. Earl, O. Niedermeier and Florence Gifford, who have all been in the hospital were reported convalescing at home.

The donkey baseball on Sunday was well attended. Half the proceeds was turned over to the P. T. A. for the use of the ball diamond.

Henry Conger and Myrtle Arnold were appointed a committee to make arrangements for a dance.

Refreshment committee for next meeting will be Anna Langley, Miss Marsh, Carl Niedermeier, Lulu Fisk and Calla Sanden.

Refreshments followed the business meeting, being served by Emma and Lew Conger, Riva Henspeter and George Wendt.

Lecture hour preceded the business meeting and was presented by Reva Henspeter as follows:

Gratitude for What!

There is a good deal of maudlin, misplaced sentiment written and said about gratitude to the man who pulled us out of the depression.

In this democratic country no president has caused or could cause a depression. Moreover, no president has the power to prevent its recovery; although it's possible for a president to hasten it. The last depression, as we all know, was the longest in history.

Gratitude, perhaps, for spending as much to run the government as all the presidents put together prior to Wilson. Expenditures from Washington to Wilson, \$24,821,845,000. Expenditures of F. Roosevelt's administration for 3 years, \$24,006,532,000. I quote from the last issue of the "Pathfinder": Nothing to be thankful for, rather the contrary.

Your Martian article No. 1, and others, pervert this idea of gratitude quite comically.

In your editorial in the issue of August 8th, you belittled Gov. Lan-

Second Stabilization Step. While the Franco-British-American accord did not establish fixed ratios between the three currencies, Morgenthau said he regarded it as a "second step" toward ultimate stabilization.

The first step was taken Sept. 25, when the same three nations made a "gentlemen's agreement" to co-operate in steadying the exchanges while France devalued her currency.

Morgenthau characterized the first understanding as a "complete success." He noted that seven other nations had followed France in devaluation in some cases simultaneously easing their tariffs and other trade restrictions.

The secretary said today's agreement would have virtually no direct effect on "the man in the street," because it will not influence the internal value of the dollar.

Two Groups Affected. Immediate results, he said, would be felt by only two groups: 1.—Professional currency speculators, who will no longer be able to influence the market by shifting gold from one country to another.

2.—Business men buying and selling abroad, who will be relieved of the risk of violent exchange fluctuations.

Price of gold today is \$35 per fine ounce, plus a 1/4 per cent handling charge. This price may be changed, if necessary, to protect the internal value of the dollar, but Morgenthau indicated that such a shift was considered highly improbable.

Gold prices may be changed, or the agreement terminated by any of the three nations on 24 hours' notice.

Today's arrangement removes gold still further from ordinary commercial transactions, government economists observed.

AMERICA'S NO. 1 TEST PILOT

LEE GEHLBACH

stands terrific strain in his meteoric power-dives and blinding pull-outs, as planes disintegrate in mid-sky!

THE TEST DIVE! Straight down from 4 miles up—motor roaring—struts screaming—Gehlbach tears earthward like a bullet flashing from a revolver. Anything can happen. A bump in the air—a tiny flaw, and the plane can fly to pieces as though dynamited while the pilot takes to his parachute. But Lee Gehlbach eats heartily and enjoys his food. Note the Camel cigarette in his hand—one of many he enjoys during and after meals.

"SMOKING CAMELS KEEPS MY DIGESTION TUNED UP AND RUNNING SMOOTH" — SAYS LEE

"CAMELS set me right!" Gehlbach says. "You know, chance is only 10% of my business. Keeping alert and in fine condition is the other 90%. I smoke Camels with my meals, and afterward, for digestion's sake. And when I say that Camels don't get on my nerves, it means a lot."

Good digestion and healthy nerves are important for everyone in this wide-awake era. So make Camel your cigarette. Enjoying Camels at mealtime and after speeds up the flow of digestive fluids—increases alkalinity—helps bring a sense of well-being. Smoke Camels—for digestion's sake—for their refreshing "lift." Camels set you right! And they do not get on your nerves.

COSTLIER TOBACCOS
