OVERHEAD IN WPA KEPT TO MINIMUM

WASHINGTON, Oct. 13.—(P)—Harry L. Hopkins, works progress administrator, said today that WPA administrative costs from the agency's inception through August totaled \$72,313,997, or 4.1 percent of the total cost for all purposes.

Hopkins reported there were 34,939 persons employed in the WPA administrative branch on August 31. The WPA administrator said the figures on administrative costs did not include those for the central office in Washington, but with these added the total percentage for administration would amount to 4.5 percent, he said.

Hopkins said that in Oregon the total WPA costs to date for all purposes was \$11,776,428; that administrative costs totaled \$714,263 or 6.1 percent, and that the number of administrative employees, as of August 31, was 303.

GATHERING OF ISRAEL IN PALESTINE SEEN AS 'SECOND COMING' SIGN

Fred M. Weatherford, pastor-evangelist of the Nazarene church, spoke Sunday night on "The Jew and the Second Coming of Christ." In the third sermon of a series pertaining to the second coming of Christ.

"The Jewish people hold a distinct position in the Bible records," the pastor said. "It might be said that Israel constitutes the people of the Bible. It may also be said that they represent the people of the Holy Land. Read Deut. 11:13-17 and the same book, chapter 30.

"Let it be remembered that the Bible for the most part was written by an inspired Jewish hand. The Jewish race represented God's custodian of His word until Christ established the Christian church.

"Since 1922 an epoch that marked the surrender of Jerusalem from the hand of the bloody Turk, as well as all of Palestine to the mandate of Great Britain, Jewish influx to Palestine has been marked by a steady stream, almost without cessation. In April of this year there were three thousand and eighty Jews returned to Palestine. This month's record together with May, June and July brought the number up to eleven thousand. This record making epoch is nothing short of a divine fiat.

"Seeing that the gathering of Israel to their own land is taking place so rapidly, the great movements of national history divinely pivot to this unmistakably plain indicator that the coming of Christ draws nigh.

"Isaiah makes the statement in one of his far-seeing proclamations. 'It shall come to pass in that day that the Lord shall set His hand the second time to recover the remnant of His people... and shall assemble the outcasts of Israel, and gather together the dispersed of Judah from the four corners of the earth. Isa. 11:11-12.

"The intense persecution of the Jews coupled with what has taken place in Palestine and what is being manifest among the nations, shows without doubt that the great political and national events are culminating in the predicted end-time drama."
