This is what a Portland chamber of commerce delegation heard here yesterday as it surveyed the fields and products of the Klamath basin and talked with its people.

Bumper crops and high prices have made the Klamath country's position an attractive one, the Portlanders were told. Not only were they told, but they saw for themselves when they inspected potatoes, barley, small seeds, hay and livestock outputs.

The troupe, on a good will swing through the southern sections of the state, went to Lakeview today.

AND THEN SHE THINKS: I wonder how many times I've said that to my grocery clerk. Ever since I started housekeeping. And I can't remember Mother's ever ordering any other coffee either. . . no wonder. It's so good, always the same.

SHE ORDERS FROM HER GROCER: "...and, send me a can of Hills Bros. Coffee, please."

Fifty-eight years ago Hills Bros. Coffee became the favorite of those who wanted the finest in coffee. And through these years . . . Hills Bros. have maintained the tradition of superb quality and unvarying goodness. That is why Hills Bros. Coffee is always preferred by those who have learned that the enjoyment received from every delicious cup never varies.

GOOD COFFEE DESERVES CARE IN BREWING—The Correct Grind of Hills Bros. Coffee is a standard set by a knowledge of coffee acquired through more than half a century of roasting and packing coffee. The Correct Grind is as fine as coffee should be ground. Finer grinding sacrifices flavor and aroma, as well as keeping qualities after the can is opened. Hills Bros. Coffee should not be reground. The Correct Grind is guaranteed to produce the finest-tasting beverage in any type of coffee-maker. Directions for making coffee by the method you use will be sent on request.
