braca today, planned to cap his campaign there with an address tonight in Lincoln.

A radio "debate" Saturday night between Senator Vandenberg (R-Mich.) and the recorded voice of President Roosevelt continued to produce repercussions.

Demand Broadcast The broadcast halted over part of the network after Columbia broadcasting officials learned Vandenberg's program consisted of recorded portions of Roosevelt utterances, followed by "replies" from the senator. The officials said the use of phonograph records on the air was against Columbia policy.

Last night the Republican national committee, declaring that "free speech" had been jeopardized, demanded that the program be rebroadcast. Denying any free speech issues were involved, Columbia refused the demand.
