

WIND-FANNED FIRE LEAPS TO TIMBER; CREWS EXHAUSTED

CCC men from Camps Applegate and South Fork are on the fire lines. Most of the CCC men arrived here recently from Texas and this is their first experience at forest firefighting. They were said to be near exhaustion this morning. Plans were made to send in reserves.

The telephone line burned out extended between Trail and Union Creek.

The wind last night whipped the fire into a fury, headquarters here were told. The wind died down at 8:30 this morning but increased velocity again this evening was feared. Extremely low humidity was instrumental in the rapid spread of the blaze. Numerous spot fires broke out during the night.

The fire was discovered at 1 o'clock Wednesday afternoon. It was attributed to the careless tossing of a lighted cigar or cigarette stub into the grass along the highway.

The Cracovienne is the national dance of the Polish peasantry around Cracow.

of the South Fork and Applegate CCC camps.

Forty-two fallers were drafted from nearby logging camps to help chop down snags. The fire started on the edge of the old Woodruff Meadows burn of several years ago and the area was thick with heavy underbrush and snags, making control difficult. Since yesterday the blaze has spread to green timber.

Smart New Styling, More Power and Comfort Feature Four Lines of Buick Cars for 1937

MORE POWER, greater comfort and smart new styling feature the new 1937 cars announced by the Buick Motor Company. Shown above is the new Series 60 Century five passenger sedan with built-in trunk. It is one of four new lines of Buick cars and is powered by a 130-horsepower, valve-in-head, straight eight engine. Wheelbase of this model is 126 inches.

NATIONAL FOREST PRIMITIVE AREAS TO BE INCREASED

(Continued from Page One.)

in tent or under the stars. He must portage his own canoe and build his own campfire.

For those willing to brave the hardships, rich rewards may await, rangers say. The fishing is expected to be the best found anywhere, and the unmarned beauty of the forest in its natural state will furnish scenery not to be found elsewhere.

PORTLAND, Ore., Oct. 23.—(AP)—The proposal to create a primitive area along the Rogue river is still

under advisement by the Oregon state planning board and no action will be taken until a thorough study has been made. V. B. Stanbery, executive secretary of the board, said today.

His comment followed word from Washington that regional foresters have been asked to survey their regions with a view to selecting tracts of not less than 100,000 acres to preserve in their natural beauty.

Stanbery said the board had reached no conclusion concerning the Rogue proposal but had discussed the project at recent meetings. He described the problems in the proposal as "complex" but said it was hoped to reach some conclusion with the aid of other agencies in gathering data.

Will Tell Governor
The executive secretary did not comment on the possible action regarding the primitive area program.

He said any recommendation concerning the matter would be made to the governor and that thereafter it would be up to the state.

Asked to comment on the rule which bars roads through so-called primitive areas, Stanbery said "that is one of the problems to be considered" relative to Rogue river.

(Several steps toward obtaining a road from Gold Beach to Grants Pass, through the Rogue river country, have been taken.)

Stanbery said it was still to be determined whether it would be better to develop resources through construction of a road or to maintain the land in its natural state.

HIBERNIA CHIEFS PUT IN QUANDARY

PORTLAND, Oct. 23.—(AP)—Officials of the Hibernia Securities company were still in a quandary today as to methods of liquidating the remaining assets of the firm.

An attempt to procure an opinion from stockholders yesterday proved futile when 1500 tried to crowd into an auditorium holding 300. Before action could be taken on a motion to adjourn to larger quarters, someone suggested that stockholders be provided with printed lists of assets and liabilities before a vote was taken. A chorus of "yeas" ended the session.

Officials wished to determine whether stockholders wanted the assets disposed of in bulk or their sale continued in part as markets opened.

Mother Convicted Of Killing Freed

NEW YORK, Oct. 23.—(AP)—Elizabeth Smith, 18-year-old, unwed mother convicted of killing her newborn son by throwing him off the roof of a Bronx apartment house, was given a suspended sentence today by Judge Harry Stackell.

She was convicted of second degree manslaughter. Judge Stackell placed her under probation for three years. The girl's defense was that she did not know what she was doing at the time of the killing. A plea of temporary insanity was offered.

mistaken her room for that of his wife and almost had climbed into the bed.

The bedroom scene, she said, was interrupted by the arrival of Mrs. Luckenbach, who had heard her scream. Luckenbach had been drinking, Mrs. Childs testified.

Jones, adding to the "mistake" explanation, said Mrs. Childs told him next day "there was nothing to it." "She was laughing about it, and thought it was a fine joke," the inventor of the now famed monkey gland cocktail said.

"Clara remarked that Mr. Luckenbach entered her room after she retired, but said he was looking for his wife and had entered the wrong boudoir."

Attorneys were uncertain when they will finish with the personal habits of the principals and get down to the real business of the suit

—the determination of whether Luckenbach can afford to pay \$1,000 every month to his fourth wife, and whether he should pay if he can afford it.

CLIPPER BLAZES TRAIL ACROSS PACIFIC OCEAN

HONG KONG, Oct. 23.—(AP)—A modern American Clipper ship blazed a new trail of travel today as a giant Pan-American Airways plane landed in Hong Kong harbor to be the first commercial airplane to span completely the Pacific ocean.

The Clipper will remain here until Saturday, then proceed to Shanghai on an American-operated China National Aviation corporation plane.

This will complete the first San Francisco-Shanghai commercial span of the Pacific.

ON DISPLAY at all Buick Showrooms

FOUR WONDROUS NEW REASONS WHY: "It's Buick again!"

SENSATIONAL is the fervor with which the American public has taken to its heart the brilliant motor cars offered by Buick this year.

Indeed, the sweeping success of the 1936 Buick program flatly challenged us and our great parent General Motors to a momentous decision.

Should we continue this amazingly popular line of cars into next year, perhaps the prudent thing to do—or should we dare broad improvement upon their spectacular excellence?

We felt there was only one right answer to that question, the bold and progressive answer—and that's why insiders now forecasting 1937 are already saying: "It's Buick again!"

That's why on top of \$15,000,000 recently spent re-tooling and re-equipping Buick's great plant, we appropriated and are now spending \$14,500,000 more.

That's why every car in the 1937 Buick line—the SPECIAL, the CENTURY, the ROADMASTER and the LIMITED—has more beauty for dazzling style, more power for breath-taking action, more room for full-family comfort, more downright "road-command" for safety and pleasure. See them.

YOU'VE GOT WHAT IT TAKES!

You can afford the new Buick. It's easy to buy and thrifty to own. With all its quality, its phenomenal performance and stunning style, prices start as low as \$1048 and up.

General Motors terms to suit your liking. Safety glass included, accessories extra. Prices subject to change without notice.
