Lovely Screen Stars in Sunday Film

Four of the screen's most charming and feminine stars—Janet Gaynor, Loreta Young, Simone Simon and Constance Bennett—are shown together in "Ladies in Love", coming Sunday to the Craterian theatre. The male leads are taken by Don Ameche, Paul Lukas, Tyrone Power, Jr., Alan Mowbray and J. Edward Bromberg.

A bitter-sweet romance of four lonesome, lovely girls, and their adventures in search of love, forms the plot of the story. These four wise girls—Janet, Loreta, Constance and Simone—living by their wits, trusting their charms to make their dreams come true, supply a fascinating answer to the romantic question—how can a girl get married until she's asked?

All do not succeed in their love affairs. To two comes happiness to the other two, heart-break. But all, in some measure, succeed in making their dreams of real romance come true.

Roxy Romance

"And So They Were Married", a delightful comedy-romance featuring Melvyn Douglas, Mary Astor, Edith Fellows and Jackie Moran, will be the main attraction at the Roxy theatre today and tomorrow.

The screen play is based on the well known novel by Sarah Addington called "Bless Their Hearts". Others in the cast are Donald Meek and Douglas Scott.

Boris Karloff Coming to Rialto

Boris Karloff plays the lead in "The Man Who Lived Again," which plays on the double bill program with "The Sea Spoilers" starring John Wayne, slated for the Rialto theatre tomorrow and Saturday.

"The Man Who Lived Again" tells the weird story of a crazed scientist who experiments with human bodies trying to discover the hidden secret of love. The part should offer Karloff the sort of material for which he has become world famous and according to advance reports his portrayal does as much. Anna Lee and Frank Cellier have important parts in the cast.

"The Sea Spoilers" presents the rough and ready John Wayne in a new setting, entirely different from his usual type of western thriller. In this picture he plays the role of a handsome young officer of the U. S. Coast Guard who is sent to Alaska to investigate fur smugglers. He finds lots of trouble but finds romance too, so the marriage he makes in the end repays him for his trouble a thousandfold.

In Magua Role

Bruce Cabot portrays the part of Magua, renegade redskin, in "The Last of the Mohicans", opening a three day run at the Craterian theatre today. The sinister characterization is said to be one of Cabot's best.

HELP KIDNEYS PASS 3 LBS. A DAY

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 3 pints a day or about 3 pounds of waste. Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backache, rheumatic pains, lumbago, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

RHEUMATIC SUFFERERS

Here is an HONEST message for you! Here are some plain, simple facts for those who suffer with the pain of rheumatism and arthritis agony.

If you are sick, get at the CAUSE of your pain. Don't spend your time—don't waste any more of your money—on some quick remedy, some false cure-all. For, as those of you who have tried those things know, once the temporary stimulation has worn away, you find that the CAUSE of your trouble goes right on.

Don't be misled by patent remedies that only try to COVER UP the cause. If you are ill, start right now setting at the cause.

The Secret of R.U.C.

Eighteen years ago, during the World War, an Army doctor saw for himself the misery caused by rheumatic pain. He saw arms and legs maimed, just as surely as if they had been struck by shells. He realized that this disease crippled more people than ALL THE WARS of history. He devoted himself to reaching the

CAUSE of the pain. And finally—so his great joy—he found a formula that WORKED—Williams R.U.C. Compound. Uric acid forms sharp, tiny crystals inside the muscles of a rheumatic victim. Whenever one moves, these deposits press into the raw flesh. And this formula reaches the painful deposits from the INSIDE—through the blood stream!

Thousands Find Relief

The results from this discovery are more than any scientist dared hope. Literally THOUSANDS of men and women report quick, amazing relief—some of them bedridden and crippled with pain.
