TWO BIG BARGAIN DAYS FRIDAY • SATURDAY

EVERY DAY IS BARGAIN DAY

When You Own An Electric Refrigerator

ADEQUATE refrigeration is just as necessary for health, sanitation, and convenience in the winter as in the summer. You will be many dollars ahead to buy your refrigerator this fall rather than wait until next spring. It actually costs less to own an electric refrigerator than to be without one. The food saving alone will pay the electric cost and further reduce your family budget—this is true winter or summer. See the new electric refrigerators at dealers anywhere. You will be agreeably surprised to know how little it costs to own and operate an electric refrigerator in your home.
