Thirty-first Year (Twenty Pages—Two Sections) MEDFORD, OREGON, FRIDAY, NOVEMBER 13, 1936. No. 196.

# HUTTON CO. CITED IN STOCK JUGGLING

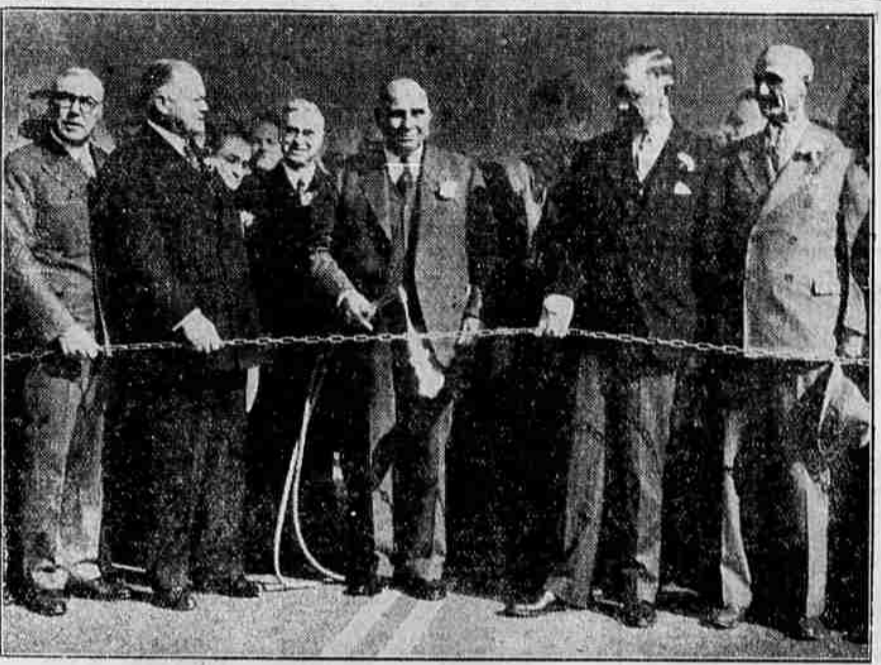

**News Behind The News**  
By Paul Mallon  
(Copyright, 1936, by Paul Mallon)  
WASHINGTON, Nov. 13.—Citizens, particularly business men, would do well to get out their ear muffs. A blizzard of Washington rumors is on. It is heavier and thicker than four years ago, and probably will prove just as wet in the end.  
You hear on colossal authority, for instance, that President Roosevelt is going to revive the old AAA, that he favors the Johnson plan of NRA, that he favors the Richberg plan of NRA, that he favors a constitutional amendment for both NRA and AAA, that he is going to throw out the cabinet, that he is going to renege his old commodity dollar theory, and so on.  
The simple fact behind these rumors is that, while Mr. Roosevelt has been delivered from his enemies by the election, he is yet to be rescued from his friends.  
Out of the 25,000,000 people who voted for Mr. Roosevelt, about 24,999,999 apparently consider the election result as a personal vindication and a mandate for some pet method of reform they have in mind. And each of the thousands of politicians who worked for his election will whisper to you in private that Mr. Roosevelt is going to do whatever they happen to want him to do.  
The warning which the president gave in a press conference the other day was not a customary custom. His advice against predicting the future course of government was apparently sincere, for the obvious reason that he has not made up his mind what he is going to do. That is, his purposes regarding NRA, AAA, etc., are well known, but his methods have not been selected, even in general outline.  
The show makers, of course, are busy attempting to influence his decision.  
The president's working technique now is the same as during the early days of his administration. He accepts recommendations and orders studies by half a dozen different advisers on the same topic.  
For example, on NRA, everyone knows he wants to accomplish limit-

## EXPULSION FROM EXCHANGE LOOMS FOR BIG BROKER

**Shares of Atlas Tack Corporation Boosted From \$9.50 to \$30.23 Through Manipulation, Is Claim**  
WASHINGTON, Nov. 13.—(AP)—The securities commission today charged the New York stock exchange firm of W. E. Hutton and Co., its 11 members and H. H. Michels with manipulating stock, and ordered them to appear December 7 to show cause why they should not be expelled from 14 stock exchanges.  
The firm, as well as Michels, was accused of manipulating stock of the Atlas Tack corporation, which resulted in boosting the stock from \$9.50 to \$30.23 per share.  
Partners named in the order were James M. Hutton, James M. Hutton, Jr., John Christie Duncan, Charles N. Foster, Joseph A. Hall, Carroll V. Geran, George C. Riley, W. E. Hutton, and C. Kenneth Smith, and Joseph A. W. Iglehart.  
Michels is a partner of the firm of William Cavalier and Co., which is now a member of the New York Stock Exchange, the New York Curb Exchange, and other exchanges. The firm was not mentioned in the order.

## As Greatest Bridge Placed In Use

There was a double ceremony of cutting chain barriers when the \$77,000,000 San Francisco-Oakland Bay bridge, the world's largest, was opened for traffic yesterday. At top is shown Governor Frank F. Merriam of California cutting the chain on the San Francisco side with a torch. With the governor are, left to right, Charles H. Parrell, chief bridge engineer; former President Herbert Hoover; Mayor William J. McCracken of Oakland; Gov. Merriam; C. B. Henderson, a director of the REC; and Sen. William G. McAdoo. Below is shown the first rush of traffic as the great bridge was opened to use. Thousands traversed its eight and a quarter miles of length in autos and others walked part of the way, although ordinarily pedestrians will not be permitted on it. (A. P. Photos by air mail to Mail Tribune.)

## SINCLAIR SLATED FOR ASSASSIN IF ELECTED, CLAIM

SAN FRANCISCO, Nov. 13.—(AP)—Union Sinclair disclosed today that President Roosevelt assigned Los Angeles secret service men to Los Angeles to protect him because of an assassination threat when he was the Democratic nominee for governor in 1934.  
Here for a Congress of Western Writers, Sinclair said information he received indicated he would have been assassinated within a few minutes after election returns were in had he defeated Gov. Frank Merriam, the Republican candidate.  
"I was to have been shot down in the radio studio where I was to have made my speech of acceptance and thank the voters," Sinclair said.  
"The actual killing was to have been done by a wealthy California business man," Sinclair said. "This man had made his will and settled all his worldly affairs in preparation for the deed."  
Sinclair said he was not disturbed by the threat.  
He said a second plot to break up the EPIC movement was revealed to him by New York friends who appealed to President Roosevelt to aid in checking it.  
"The president notified secret service men who put the Chicago and New York gangsters on a train and sent them east."  
"I was to be crucified—made the Pascal lamb in sacrifice—to those who opposed the EPIC (End Poverty in California) and the production for use movements," Sinclair stated. "But if the EPIC is revived, even though I am now through with politics, I again will lead it if requested."

## CAR HEATER BLAMED FOR LOSS OF A TOE

PORTLAND, Ore., Nov. 13.—(AP)—J. C. McNulty of Eugene, alleging he became numb from exhaust gas and subsequently received a burned foot on a car heater and lost a toe, filed suit in federal court here for \$75,000 as an aftermath of an auto ride with Hans Zingler, Singer sewing machine representative at Eugene. The Singer company was named as defendant.

## SIDE GLANCES by TRIBUNE REPORTERS

Admiral Erisk went pooh-poohing this Friday the 13th stuff, saying it's one of the luckiest days on tap in the navy, but issuing a warning against ever going aboard a ship that had a cock-eyed cook or one which had been built without sticking a coin under the mast.  
Joe Gagnon, sawmill tycoon and upstanding Presbyterian, bustled and thrashed when John Peier told him his signature looked like that of a Dutchman, even if it couldn't be read.  
Ben Goodhall, landscape architect at Camp Prescott, strolling about with a worried expression trying to find a Spanish instructor so he can take lessons and catch up with the lingo tossed by newsmen at the camp.

## ROOSEVELT INSPECTS HOUSING DEVELOPMENT

WASHINGTON, Nov. 13.—(AP)—A trip by President Roosevelt today to look over a \$9,000,000 suburban housing development at nearby Greenbelt, Md., was interrupted here as more than a mere routine inspection journey.  
Informed sources believed it might help determine the status of such projects in future unemployment relief programs.

## INA CLAIRE AWARDED MEDAL FOR DICTION

CHICAGO, Nov. 13.—(AP)—Ina Claire's short upper lip curled into a smile as she accepted today a medal for her diction.  
That was because the blonde actress, after 24 years in the theater, possessed the annual gold medal for good diction on the stage, awarded by the American Academy of Arts and Letters yesterday.  
"The Chinese seaport of Pakhol was opened to foreign trade in 1876."

## KING ORDERS Grog FOR ALL IN FLEET

PORTLAND, Eng., Nov. 13.—(AP)—Amid lusty cheers, King Edward today finished his inspection of the British home fleet by ordering the signal: "Splice the main brace!"  
"Serve a tot of rum to all hands."  
The King had royal weather for his final day of visiting the huge grey waterdogs of the sea, massed here in Portland harbor.

## LOCAL LINE TRUCK FIRST OVER SPAIN

A gleaming new motor truck and trailer, one of the Oregon-California Past Freight units operating between this city and San Francisco, was the first commercial unit of its kind to pass over the new San Francisco-Oakland bridge that opened to traffic yesterday. It was learned here last night.  
Miss Mildred Gritsch, daughter of Mr. and Mrs. Frank Gritsch of 333 South Ivy street, telephoned from San Francisco last night to tell her family about the unusual honor.  
Miss Gritsch works in the San Francisco office of the firm and her father is the Medford manager.  
The truck was a brand new one, as was the trailer. The two units having been delivered from the eastern factory just in time for the opening ceremonies. The truck was driven by Frank Bishop of San Francisco. Miss Gritsch said that all day yesterday cars were going over the bridge at the rate of 200 a minute.

## BABY'S BODY DISCOVERED IN DEAD LETTER OFFICE

SAN FRANCISCO, Nov. 13.—(AP)—The body of a baby believed to be about a week old, was found in a package opened by clerks of the San Francisco dead letter office today.  
The package was addressed to "Frances Munger, St. Mercie Hospital, San Francisco" and the return address was given as "2145 Maiden, Oakland, Calif."  
There is no such an address, and there is no St. Mercie hospital here. The postoffice department first delivered the package to the St. Mary's hospital here November 11 but it was sent to the dead letter office when it was learned there was no "Frances Munger" at the hospital.  
Postal clerks noticed an odor and opened the package today.  
Frank Spence, postal inspector assigned to the case, turned the package over to the police department. Dr. Sherman Leland, autopsy surgeon for the coroner's office said he would conduct an autopsy.  
The body, the sex of which had not been determined because of its condition, was wrapped in clothes and later in paper.  
Later, Dr. Leland said the body was that of a boy. He said an autopsy probably would determine whether the boy was dead at birth.  
Postal inspectors put the blurred return address under a magnifying glass and said the address was not Oakland, Calif., but that the package probably originated somewhere in Illinois.

## FRANKENSTEIN'S MONSTER

PORTLAND, Ore., Nov. 13.—(AP)—Overturning of a gravel truck near Hermiston sent Joseph Keefe and Robert Hiller to the hospital at Walla Walla for treatment of injuries. Both received broken legs. The boys were from the CCC camp near here.

## Truckmen Injured

HEPPNER, Ore., Nov. 13.—(AP)—Overturning of a gravel truck near Hermiston sent Joseph Keefe and Robert Hiller to the hospital at Walla Walla for treatment of injuries. Both received broken legs. The boys were from the CCC camp near here.

## COURTS ABOLISHED BY MUSSOLINI FOR NEW LEGAL SETUP

ROME, Nov. 13.—(AP)—Premier Mussolini has decided to abolish existing Italian courts of law, substituting the legal profession, official sources disclosed today.  
Attorneys described the project as "one of the most important changes in 20th century jurisprudence."  
A committee of eminent lawyers and officials from the ministry of justice is working out the details to replace the courts with the state boards, authoritative quarters asserted.  
The committee's report is expected to be finished soon, when it will be handed to the ministry of justice for action.  
Abolition is also planned for the special tribunal for defense of the state. This court was established ten years ago after an 18-year old youth attempted to assassinate the Italian premier at Bologna in 1926.  
It was first instituted for five years and then renewed for another five.  
The court, created to protect the life of Il Duce and government officials, condemned half a dozen men to death on charges of conspiracy.

## SIX FASCIST PLANES FALL IN 'DOG FIGHT' STAGED OVER MADRID

By the Associated Press.  
Six fascist war planes were shot down today in a spectacular aerial dog fight over Madrid, and Gen. Jose Miaja, chief of the socialist defense junta, said the Spanish capital was "prepared to withstand years of siege."  
Undaunted by the lost battle, however, other fascist planes returned during the afternoon to bomb a Madrid barracks and a long line of fortifications.  
Simultaneously, French communist demands for last-minute intervention in Spain to succor the embattled socialist defenders of Madrid led to new threats of a rift in Premier Leon Blum's government.  
Moderate supporters of Blum's popular front regime warned they would bolt if he yielded to the communist demands.  
On two other fronts, the involved situation took on a darker hue.  
In Vienna, a blunt tri-power statement of Austro-Hungarian "right to return" supported by Italy, stirred uneasiness in Rumania.  
An impression grew in diplomatic circles that Italy and Germany, in the newly-patched Italo-German accord, had resolved to divide south-eastern Europe into spheres of influence for economic and some political exploitation.  
In London, a fierce verbal duel between Dino Grandi, Italian ambassador, and Molevitch Kagan, Russian delegate to the international neutrality committee, stirred heated discussion of Italo-Soviet diplomatic relations was imminent.

## Boy Who Serves As Alarm Clock Not Appreciated

WASHINGTON, Nov. 13.—(AP)—Reuben Darby, who furnishes a deluxe awakening service to fellow students at the University of Maryland, admits he has yet to find a satisfied customer.  
Reuben goes to bed at 7 p. m., and gets up at 2 a. m. After a couple of hours of studying, he makes the rounds, closing his customers' windows, and turning on the steam heat.  
"At seven o'clock comes the tough job, though," he says. "They don't like to be waked up. I usually have to wrestle with them."  
Reuben goes around later and makes the beds. His rates are "10 cents per week per room." Reuben is a freshman from Baltimore.

## SEEK AUTO DRIVER WITNESS IN DEATH OF MOTORCYCLIST

The sheriff and district attorney's office are today seeking the driver of an auto, believed to be a Chevrolet coupe bearing an Oregon license, as an important witness in the motorcycle accident which resulted in fatal injury to Walter E. Van Rhee at Eagle Point, and serious injuries to Glenn Brown, driver of the motorcycle on which Van Rhee was a passenger. Both underwent amputation of their right legs.  
The men were injured when they crashed into the rear fender of an auto driven by Mrs. Lovick Waymack, county jail matron, on Cingede hill near Eagle Point on the Crater Lake highway.  
The driver sought was in one of the two autos passed by Mrs. Waymack near the brow of Cingede hill.

## JACKSON COUNTY FARM INCOME NINE MILLION COUNTY AGENT CLAIMS

The Jackson county farm income is 30 per cent higher than last year and will total approximately \$9,000,000 this year, according to the annual estimate of County Agent Robert G. Fowler, on the basis of present prices.  
His report shows fruit and dairy products as leading revenue producers. The fruit income, principally peaches, is placed at \$4,825,000, which  
(Continued on Page Five)

## FRENCH DEPUTIES SWING FISTS DURING SESSION

PARIS, Nov. 13.—(AP)—Swinging fists of leftists and rightist deputies stopped a stormy session of the chamber of deputies today.  
The trouble began during a debate over the world war record of Minister of the Interior Roger Salengro.  
When the session was resumed tonight, the chamber voted 427 to 103 to condemn the campaign against Salengro. It was one of the biggest majorities ever given the Blum government in the chamber.

## SOURDOUGH SEEKS MATE BUT SKIPS FRIDAY 13TH

Friday the 13th! To some it holds terrors, to some it forebodes bad luck, to some it indicates happy events. To Bob Edmonds, 60-year old Alaska sourdough it means bad luck and nothing else.  
On Friday the 13th he "took a knee-ape." On another Friday the 13th, he had a finger chopped off. How he didn't say. And now, again on Friday the 13th, he is stranded in Medford, practically broke and unable to find the man he's looking for to return with him to Wrangell Island to spend the winter fishing.  
"I want a man about 40, good health, no wife or kids. He's gotta have some money—enough to get us both back to Wrangell, buy material and build a boat for fishing. You can make from 30 to 300 bucks a week fishing up there and the fishing season is nine months long. It's warmer there than it is here in Medford," he added, buckling his overcoat a bit more tightly around himself.  
He wants a man to go with him, one who is not afraid of work and can finance the trip, but he'll take a woman if he has to, he admitted.  
A woman about 40, with no fam-

## METAL WORKERS SEEK EXPULSION LEWIS COHORTS

TAMPA, Fla., Nov. 13.—(AP)—The American Federation of Labor's metal trades department instructed the president, John P. Frey, today to introduce a resolution in the federation's convention next week calling for expulsion of John L. Lewis' ten rebel unions.  
A second resolution, the department directed Frey to introduce a general convention resolution next week calling for an A. F. of L. boycott on all goods produced by the rebel unions.

## Will Ask Federation of Labor to Oust Ten Rebel Unions — Boycott On Goods Produced by Rebels, Aim

TAMPA, Fla., Nov. 13.—(AP)—William Green, president of the American Federation of Labor, forecast today complete failure of John L. Lewis' drive to bring all workers in each big industry into one big union.  
Addressing the federation's building trades department convention, Green said:  
"We're going to organize the unorganized of America and we're going to organize them into the American Federation of Labor."  
"When experiments motivated by vaporous idealism are completed by some who have invaded the field independently—when they admit their through—the A. F. of L. will step in and do the job."  
Green's only prediction as to what the federation's general convention would do about the Lewis rebellion against the traditional craft form of organization, was that "the world will know where we stand when we get through."  
A member of Lewis' United Mine Workers, Green said he knew the miners' "deep in their hearts love the American Federation of Labor."  
"However," he added, "we're going to deal with this issue not by emotion but by the judgment of our hard heads."  
Green was applauded when he said the Knights of Labor, the Debs movement and the International Workers of the World, each in turn, had tried to destroy the A. F. of L. without success.

## MILLARD ASKS \$930 FOR ALLEGED DAMAGE FROM ROCK BARRAGE

Suit for \$930 damages, \$465 general and \$465 exemplary, was filed late yesterday in circuit court by D. E. Millard against Ford Potter for an alleged rock throwing episode at the Millard home at Shady Cove October 27 last.  
Millard alleges that Potter maliciously threw rocks through four windows of the living room, "demolishing" a \$875 violin, damaging a marble-top piano to the extent of \$50 and requiring it to be sent to the factory for repairs, "knocking" the finish of  
(Continued on Page Five)

## POPE TALKS FOR HOUR TO MISSIONARY UNION

VATICAN CITY, Nov. 13.—(AP)—Pope Pius XI spoke for a solid hour today to 300 representatives of the Priests' Missionary Union, dispelling rumors that the state of his health is serious.  
Witnesses said the holy father made the speech with but slight and natural evidences of weariness toward the close, and that there was no change in his tread in walking into and away from the benediction hall.

## First Taxi Makes Trip on New Span Through Mistake

SAN FRANCISCO, Nov. 13.—(AP)—Lawrence McDermid of San Francisco yesterday unwittingly and unintentionally became the first person to drive a taxicab across the transbay bridge.  
McDermid took a passenger to an address near the San Francisco bridge approach. He found himself in the midst of thousands of bridge-bound automobiles. Police and highway patrol officers would not let him turn out of the line. He was required to drive over the bridge, after paying a 65-cent toll, and then, after paying another 65-cent toll, made the return trip.  
His taxi stand was only six blocks from the address to which he delivered his fare.
