

### MAYORS 2 CITIES FLY EAST TO GAIN FEDERAL ACTION

(Continued from Page One.)  
McGrady, assistant secretary of labor, to have the federal government take control of the hiring halls pending further negotiations.

The wholesalers, warehousemen and distributors committee of the Industrial Association of San Francisco, charging that 60 industrial plants were closed because of the maritime strike and that the total would exceed 120 plants locally unless the dispute was settled, warned that maritime unions were "marching inland."

"Your turn may be next," they told business leaders. "Regardless of your present relations, to your employees or their loyalty to you, your business may be stopped in its tracks without warning, any day, any hour."  
"This is the march inland of the International Longshoremen's Association with the Warehousemen's union as the spearhead and backed by the Maritime Federation of the Pacific."

**Bridges Boasts**  
Assertedly quoting Harry Bridges, generally regarded as the second most powerful union figure in the nation, the committee of the Industrial Association credited him with saying, "After this strike (water-front) is over we will show them more of an inland march. I haven't heard any kicks from the boys in the front trenches of the inland march."  
"We expect help from the government. Labor put this government in office. We expect support and we are going to get it."

**Who's Running Portland?**  
PORTLAND, Nov. 14.—(AP)—"It's a crazy age," commented Governor Charles H. Martin on the strike situation.

The governor, in Portland to speak before a gathering of western Oregon citizens interested in a flood control program, said:  
"This is the first year in five years that the eastern Oregon wheat growers have had a chance to market their wheat profitably without government aid, and they can't ship a bushel of it."  
"The same with the Hood River apple growers."  
"Someone is trying to tell these apple growers how they must bring their apples in. They can bring them any way they see fit, as far as I'm concerned, but they can't ship 'em."

The right of truck drivers to haul apples into Portland was recently challenged by the teamster's union on the grounds they came under union status. Boxes of fruit are in storage here awaiting the first break in the maritime deadlock.  
The governor had something to say too, on recent reports that the unions would demand passage for persons entering the waterfront section.  
"Who is running this city?" he said. "How about the chief of police and the sheriff?"

### PLAN HIGH HONOR FOR SUFFRAGETTE

NEW YORK, Nov. 14.—(P)—The first woman voter in the United States—her ballot was counted and she was arrested for casting it—was nominated today for an honored place on the nation's mountain monument to its foremost heroes.

The face of Susan B. Anthony should be added to the revered company of Washington, Jefferson, Lincoln and Theodore Roosevelt, Sr., on the rock cliff face of Mt. Rushmore in South Dakota's Black Hills, declared a resolution presented to the biennial convention of the national women's party.

"Discrimination" which thus far has excluded a woman's profile from the lofty memorial, the committee report which embodied the proposal called for immediate action.

### CHESSMAN HEADS OLD OREGON DADS

EUGENE, Nov. 14.—(AP)—Merle R. Chessman, Astoria publisher, was elected president of the University of Oregon Dads' association today.

The association, went on record disapproving "hell week" in fraternities and agreed to investigate the merits of deferred pledging by living organizations.

### JAILED FOR NOTE THREAT TO F.D.R.

PHILADELPHIA, Nov. 14.—(AP)—A police magistrate held John A. Bartenback, 45, in \$5,000 bail today on a charge of sending threatening letters to President Roosevelt.

### PRESIDENT PAYS REVERENT TRIBUTE

Led by President Roosevelt, the nation's capital honored World War dead in solemn Armistice Day ceremonies at the tomb of the Unknown Soldier. Standing at attention before the tomb are (left to right) Gen. John J. Pershing, the President and Col. Edwin M. Watson, White House aide. (Associated Press Photo.)

### BRITISH-AMERICAN AIRWAYS DEFENSE OF PACIFIC URGED

SAN FRANCISCO.—(UP)—An aerial alliance between the United States, England and Australia for the defense of the Pacific is being advocated by Capt. C. E. Toovey of the Bank of Australia and former chief technical officer to the Handley-Page firm of British airplane manufacturers.

Toovey is on his way home to Australia after a year of consultation in England with officials of the British war office. He is a veteran of the Egyptian, Gallipoli and western front campaigns of the World War.

"World peace depends on peace in the Pacific," said Toovey, "and that depends in turn on the United States, England and Australia speeding up their air defense and aerial communications."  
"It is absolutely necessary that air communications be established between the United States, Australia and New Zealand. The future of the Pacific is in the hands of these nations, and it is time they get together for further defense of the Pacific."

"War in Europe is imminent at any time. America, Great Britain and Australia should combine in an English-speaking union to preserve the peace of the Pacific and let Europe take care of itself."

### ASHLAND NORMAL CAGE PROSPECTS GOOD THIS YEAR

ASHLAND, Nov. 14.—(Sp.)—Pointing toward one of the most successful basketball seasons in Southern Oregon Normal school's bright hoop history, nine returning lettermen and a score of newcomers reported to Coach Jean Eberhart at the opening of practice this week.

Opening practice sessions marked first official use of the new \$64,000 gymnasium, which was dedicated recently. The new practice facilities gave considerable impetus to championship predictions.

One of the best schedules in years, including many first class home games in the new building and an extended road trip during Christmas holidays, is being prepared by Eberhart. Tentative arrangements indicate that the SONS may meet four members of the Pacific coast conference—University of Oregon, Oregon State College, University of Idaho and the University of California at Los Angeles.

Several members of the northwest conference will also be played, but final scheduling awaits completion of the conference itinerary, expected at a meeting late this month.

Two games have definitely been lined up with San Diego State college at Ashland December 18 and 19. Other games will include Willamette, Linfield, Monmouth Normal, Eastern Oregon Normal and Multnomah club.

Returning veterans include Bob Hardy and Neil Winkle, centers; Bill Hoxie, Darrell Leavens and Pat Patterson, forwards; and Cliff ("Chief") McLean, Howard Scroggins, Arga Ager and Clyde Dickinson, guards. Only Mordell ("Monk") Walton, last year's captain, has failed to return.

### JUST 'WEE' TRACE OF RAIN IN CITY

It rained in Medford last night but probably no one but the weather man knew it.

The meteorologist on duty at the weather bureau reported he counted three drops of precipitation between 7:15 and 7:30 and the rainfall was recorded as a "trace." It was the first rainfall since November 1 when 0.1 of an inch was recorded. There was no rainfall at all in October excepting a trace on the 3rd and the 31st.

Official forecast was for cloudy and unsettled weather today, cloudy tomorrow, little change in temperature. Meteorological data indicated that a few additional drops were a probability during the night.

### Girl Who Balked At Kiss In Auto Gets No Damages

WORCESTER, Mass., Nov. 14.—(AP)—Miss Dorothy Bellows, who refused to give her escort a kiss while motoring in Wheelright, Mass., failed today to recover damages for injuries she suffered when the car struck a tree.

The kiss refusal and a poke in the ribs which she gave John Mucha of Hardwick, Mass., were contributing causes of the accident, Auditor Wilfred B. Felga said in his report filed in superior court.

Miss Bellows, who asked \$1000 damages, said Mucha lost control of the car.

### 5-TIME LOSER IS HELD AS BANDIT

SPOKANE, Nov. 14.—(AP)—Charged with participation in the Almira post-office robbery, Earl T. Adams, 30, was brought here today from Cincinnati, Ohio, where he was arrested a week ago.

He is one of three men charged with the crime. Postal Inspector Paisley said Adams was a "five-time loser" on prison sentences and was the leader of the trio.

Jack Holt, another of the trio, pleaded guilty yesterday in federal court here. Judge J. Stanley Webster deferred sentence.

### ORDER PROBE OF MISSION OUTRAGE

PEIPING, Nov. 14.—(AP)—The United States embassy ordered an investigation today of the death of an American missionary in north China and a survey of reported fighting in the area allegedly invaded by Japanese troops.

Advices to the embassy stated Karl Herzhart Olsen, a missionary from Gully, Minn., died at Kapan early today after infection, by Japanese troops, from his home where he had been ill of smallpox.

Japanese military authorities, the embassy was informed, had taken over Olsen's mission chapel and refused to permit him to conduct services there.

### PEACE OFFER TO UNIONS SPURNED

TAMPA, Fla., Nov. 14.—(AP)—American Federation of Labor leaders spurned today a proposal by George L. Berry, President Roosevelt's coordinator for industrial recovery, to end their war with John L. Lewis by arbitration.

Berry, also president of the printing pressmen's union, and other labor leaders long have insisted upon arbitration to settle disputes with employers and suggested it should be used to stop this internal row.

William Green, federation president, replied that Berry's proposal "probably would not be acceptable to either side," and that his executive council already had suggested the only satisfactory peace plan.

### PORTLAND VOTE TO SEN. M'NARY SLIM

PORTLAND, Nov. 14.—(AP)—Official tabulation of Multnomah county's votes gave Senator Charles McNary a 1081 lead over his defeated democratic rival, Mayor Willis E. Mahoney, of Klamath Falls.

The tally set the senator's total at 78,497 and Mahoney's at 72,416.

### LICENSES TO WED JUVENILES ROILS

VANCOUVER, B. C., Nov. 14.—(AP)—A "scandalous situation" exists at Bellingham in regard to issuance of marriage licenses to Canadian juveniles, Judge Helen Gregor MacGill of the juvenile court said here today.

Judge MacGill recently wrote to G. W. Hamilton, attorney-general for Washington, protesting against issuance of a marriage license at Bellingham to a girl, 16, ward of the juvenile court, and a youth less than 21 years of age.

Judge MacGill said she considered the letter written by the state attorney-general to County Auditor C. C. Baughman "very satisfactory."

California is the only state in the union containing areas of substantial size that lie below sea level.

### NOVELIST'S WIFE ADMITS BURNING NOTE OF SUICIDE

LOS ANGELES, Nov. 14.—(UP)—Brunette Ruth W. Morris, wife of novelist Gouverneur Morris admitted today that after the body of handsome Reid Russell was found sprawled in a gay lawn swing on her palatial beach estate she burned a note he had written her.

She collapsed today during questioning by district attorney investigators who re-opened the case, originally closed with the cause of death given as "suicide," at the insistence of the youth's mother, Mrs. Victoria Russell.

The mother said her son would not take his own life. She insisted he was in love "with a married woman."

Mrs. Morris, a woman of svelte appearance, who will give her age only as "somebody in the thirties," said the note was another suicide threat.

Investigators made public a letter Morris, creator of luscious heroine and paradoxical mystery, wrote to the dead youth's mother after the funeral. It told of the final days young Russell had spent as the Morris house guest and concluded:  
"He had promised to go straight home to you. Instead he comes back

here and makes a lot of grief and ghostly trouble for us.  
"The grief we would have felt in any case. But we have done nothing to deserve the notoriety and the endless blunderings and stupid intrusions upon our privacy by the police and the press."  
Russell's body was found sprawled on the gayly colored swing of the palatial Morris estate on September 23. There was a single bullet hole in his head.

Airmail service between Vancouver and Winnipeg on a proposed trans-Canada airway is expected by January 1, 1937.

Alaska contains a number of volcanoes that have been active in the last century.

Crimson honey is made by bees from cactus in the Territory of Hawaii.
