

### MILLIONS RAISED TO BLOCK LABOR SPY PROBE, CLAIM

TAMPA, Fla., Nov. 21.—(AP)—The American Federation of Labor convention's legislative committee asserted tonight that "millions of dollars" would be available this winter to a lobby seeking to kill the senate investigation of strike-breaking and labor espionage.

The committee urged the convention, in its report, to demand an ample appropriation to continue the inquiry directed by Senator LaFollette (Prog.-Wis.).

"All the lobbies of the great anti-union financial forces and all their secret pressures are being mobilized to prevent the senate granting an appropriation to carry on the investigation," the report said.

"If our reports are as accurate as we believe them to be, the greatest and most adroit lobby that has ever operated in Washington is being organized to kill this astounding exposure."

"The LaFollette committee has made only a beginning, but what a beginning. It has dragged into the light the underworld that serves the biggest businesses—the spies and thugs whose profession is wrecking unions or even murdering workers."

### ROOSEVELT, JR., AND FIANCEE

This picture of Franklin D. Roosevelt, Jr., son of the President, and Miss Ethel DuPont was made at her home at Greenville, Del., after their engagement was announced by her parents, Mr. and Mrs. Eugene DuPont. They will marry next June following young Roosevelt's graduation from Harvard. (Associated Press Photo)

### GROWERS ADVISED TO HOLD BIRDS

ALBANY, Nov. 21.—(AP)—Growers in this district have been urged by turkey buyers not to dump birds on the Thanksgiving market but hold them for the Christmas period.

California markets already are congested, they said, leaving only Portland, Washington cities and remote Canadian points for possible sales.

It was feared that the price would be sharply depressed if too many birds were released for Thanksgiving.

### MORE BABES NEED FOR PROSPERITY

SALT LAKE CITY, Nov. 21.—(AP)—The vicar general of the Salt Lake Catholic diocese today charged "deliberate birth control" with discouraging economic advancement and asserted "the average mother should have three children" to insure prosperity of the western world.

"The population situation is serious," the Right Rev. D. G. Hunt told a group of civic leaders. "The population of America and western Europe is steadily declining. Deliberate birth control is the cause."

It is only a matter of time, he said, until South America, India, Asia and Africa push America and Europe aside as their people increase.

"Future prosperity is doomed," he said, "if present population trends toward decline continue."

### RUSSIA BALKS AT JAP FISH TREATY

MOSCOW, Nov. 21.—(AP)—A blunt warning to Japan that soviet Russia will not co-operate further in granting "vital" Japanese fishing concessions until the reported Japanese-German military pact is cancelled, was sent to the Japanese embassy here tonight.

The eleventh-hour development came just as Japanese diplomats were preparing to go to the soviet foreign office to sign the fishing agreement.

The new pact, fruit of a year's patient negotiations, would have extended for eight years the Japanese right to fish in soviet waters off eastern Siberia.

The great bulk of Japan's sea food is obtained from these waters, and Japanese officials repeatedly have said the concession was vital to Japanese interests.

### NAZIS DENY ANY PACT WITH JAPAN

(By the Associated Press)

Germany, continuing to deny knowledge of a German-Japanese pact aimed at Russia, admitted Saturday she was ready to act with Japan "in given situations."

Russia hit back at the reported anti-soviet alliance with a warning to Tokyo that Japan would not get further important fishing concessions from the U.S.S.R. unless the pact was cancelled.

Those eastern developments came as British diplomats sought to convince other nations that the Spanish civil war, with its threats to world peace, should be kept localized. Britain did not explain what she would do if one of her ships was attacked on the seas.

Germany, said a spokesman for the Berlin government, has much in common with Japan, and "it is quite conceivable Germany and Japan—opposed as both are to bolshevism—may in given situations decide to proceed jointly."

The first ocean fliers' school was organized by Colonel Lindbergh.

### LEGION TO BRING CHEER TO BANDON

TILLAMOOK, Nov. 21.—(AP)—The Tillamook American Legion post will play Santa Claus to children of Bandon.

Toys will be collected and distributed to children and books will be donated to the library of the fire-swept coastal community.

C. S. BUTTERFIELD  
Medford Building

### FLOOD IMPERILS CANADIAN TOWN

PRINCE RUPERT, B. C., Nov. 21.—(AP)—Serious flood conditions in the Bella Coola river valley, with one town isolated and many bridges washed away, was reported here today with the arrival of the steamer Cardena from Bella Coola, 200 miles south of here.

Bella Coola, a town of 800 population situated at the mouth of the river of the same name, was saved from flooding by dynamiting a bridge just above the town which was damming the water.

Other bridges in the river's upper reaches were carried away by the rushing river torrents and there was no communication between Bella Coola and Hagensborg, a town of 250 people situated 10 miles up the valley from Bella Coola.

### NAZIS DISPARAGE AMERICAN TANKS

BERLIN, Nov. 21.—(AP)—The fighting qualities of United States war tanks was disparaged today in an article in the Millner Wochenblatt, German weekly newspaper.

Heinz Bach, author of the article declared American engineers seem "ambitious" to repeat the mistakes of European engineers while builders abroad borrow the good ideas of American armored-car construction.

"Faced with war, there is not the slightest doubt," Bach said, "that the United States could and would produce tanks and armored cars of the highest efficiency."

But, he added, extremely few existing types of heavy or light tanks and armored cars impress the European soldier as capable of standing the test of modern war requirements.

### SEEK NEW CLUES IN YOUTH'S DEATH

LOS ANGELES, Nov. 21.—(UP)—The mystery of Reid Russell's death on Novelist Gouverneur Morris' estate at Manhattan Beach appeared to be petering out tonight.

With the handsome young accountant's body re-interred in its grave, an examination having only tending to confirm his previous suicide theory, the district attorney's office turned to his financial affairs.

Captain Clyde Sumner asked a county grand jury subpoena to examine his bank records to search for a possible suicide motive.

Russell was found in a lawn swing shot through the head and a gun in one hand. His mother, Mrs. Victoria Russell, disagreed with the original suicide verdict and demanded reopening of the case.

### AUTO DEATH TOLL IN PORTLAND, 70

PORTLAND, Nov. 21.—(AP)—The 70th traffic death of the police year and the 12th for the month of November was recorded in Portland when T. F. McInerney was fatally injured as he attempted to cross an intersection.

The 70-year-old victim died soon after reaching the hospital.

Two other traffic deaths occurred in the state yesterday.

Maurice Baker, 25, died of injuries received in an accident Thursday on the west Pacific highway near here. Alexander Minns, 72, succumbed to injuries from a crash on November 17 just outside the city limits.

London had its first professional baseball league this summer.

### GENERAL DENIES HE SLEW FIANCEE

LOUISVILLE, Ky., Nov. 21.—(AP)—Declaring he "loved her too much," Brig. Gen. Henry H. Denhardt today denied from a jail cell that he fired the shot that killed his slender, brunette fiancee, Verna Taylor, the night of Nov. 6.

Denhardt, a veteran of three wars was held without bail pending grand jury action on a charge that he murdered the girl on a country road.

### NATURAL GAS HIT IDAHO DRILLING

NEW PLYMOUTH, Idaho, Nov. 21.—(UP)—Arthur Britchard, Tacoma, said tonight that drillers had brought in a natural gas well ten miles north of New Plymouth.

Britchard, one of a group of Seattle and Tacoma men reportedly backing the drilling here, refused to make any statement as to whether or not the well was also producing oil.

John Glass, Payette, Idaho, who has been in charge of drilling for the group for several years, also refused comment.

Commenting on insistent rumors of an oil gusher, J. W. Gwinn, secretary of the Idaho Mining association, said that no report of such a gusher had reached his organization.

When oil is found in the Arctic it occurs almost on the surface.

**HAM is a HABIT**

with them . . . .

MANY families go on eating the same round of familiar foods week after week, year after year. Of course, they get some variety—fresh fruits and vegetables in season—special side dishes now and then—a new cracker or cereal or relish or something like that.

But, it's all too easy, unless you watch out—to wonder what to have for dinner tonight and then fall back on habit by serving the same old things cooked the same old way.

It may take a little thought to get out of the rut—but really not too much. If you want to treat your family right, watch this newspaper for hints on new things to eat and new ways to fix the old favorites. For example, there are more than fifty different ways of serving ham.

And don't miss the advertisements. You'll find them full of news—about good foods at special prices, about new kinds of foods, about new ways to cook and serve. . . . It's so easy, after all, once you make up your mind to set a better table.
