Below Freezing Temperatures Recorded in Northern Half of Country — Ice Sinks Tugboat in Erie

NEW YORK, Dec. 1.—(AP)—The east was swept today by a cold wave which tied up fresh water shipping, interfered with firemen, and caused general suffering.

Minimum temperatures in the northern half of the country, east of the Rockies, were everywhere below freezing. The warmest big city in the United States was Miami with a minimum of 72.

The cold was connected with a high pressure area, its center covering southern Quebec and northern Vermont. Barometric readings were high most of the way across the nation. There was little snow.

Cold spots reported included: Philadelphia, N. Y., 28 below zero; Saranac Lake, N. Y., 24 below; Kane, Pa., 21 below; Machias, N. Y., 20 below; and Canton, N. Y., 14 below.

Approximately 100 barges were caught by ice in the Erie canal. A tugboat sank there under ice pressure, adding to traffic difficulties in the steadily narrowing channel. The nine crewmen escaped.

The movement of 73 vessels from Lake Superior toward the south was impeded by ice and a possibility was reported that they might not get through at all. Seventeen other craft reached Lake Huron from Sault Ste. Marie when tugs plowed a path for them.

### REPUBLICS URGED TO SET EXAMPLE FOR OLD NATIONS

(Continued from Page One.)

lies to "strive even more strongly than in the past to prevent the creation of those conditions which give rise to war."

"Lack of social or political justice within the borders of any nation is always cause for concern," he said. "Through democratic processes we can strive to achieve for the Americas the highest possible standard of living conditions for all our people."

No War of Conquest.

"Men and women blessed with political freedom, willing to work and able to find work, rich enough to maintain their families and to educate their children, contented with their lot in life and on terms of friendship with their neighbors, will defend themselves to the utmost but will never consent to take up arms for a war of conquest."

In this connection, the chief executive denounced trade barriers, asserting "it is no accident" that the nations which have erected the highest are those which proclaim most loudly that they renounce war as an instrument of their policy.

"It is no accident," he added, "that because of these suicidal policies and the suffering attending them, many of their people have come to believe with despair that the price of war seems less than the price of peace."

Catastrophe Impends.

Mr. Roosevelt discussed his proposal for the American nations to stand "shoulder to shoulder" against aggression after asserting "this is no conference to form alliances, to divide the spoils of war to partition countries, to deal with human beings as though they were the pawns in a game of chance."

Picturing war abroad as a "catastrophe which impends," he said:

"In the determination to live at peace among ourselves we in the Americas make it at the same time clear that we stand shoulder to shoulder in our final deliberations that others who, driven by war madness or land hunger might seek to commit acts of aggression against us, will find a hemisphere wholly prepared to consult together for our mutual safety and our mutual good."

Peace in America, the president said, must be grounded in faith, but this faith "will not be complete if we fail to affirm our faith in God."

Contending that "plain people everywhere" want peace, the chief executive said:

"Truly, if the genius of mankind that has invented the weapons of death cannot discover the means of preserving peace, civilization as we know it lives in an evil day."

### The Grange

Talent Grange  
Even though turkey is the "piece de resistance" for the holiday meal, ladies of the Talent home economics club believe it appropriate for every occasion and are therefore serving a turkey dinner from 6:30 to 8 p. m. in the city hall at Talent December 3.

Dancing is to follow dinner with Silva's orchestra furnishing the music. The nominal dinner fee will also include dancing, with extra charges for those coming later.

The bazaar, to be held the same day, is scheduled to open at 2:30 o'clock in the afternoon.

A postal card with no city or state address was delivered promptly to a party at Piedmont, Ala. It was post-marked Terrell, Tex.

had advanced about seven miles, or as far as Villarreal, conquering the whole territory included in a triangle formed by Ubides, Mondrago and Villarreal.

A fierce battle, lasting for hours, took place just outside Villarreal. The Basques, preceded by a long line of grenadethrowers, drove insurgents out of their positions at the point of bayonets.

Another column charged up Mount Gorbea to the west, seized insurgent trenches and captured the source of Victoria's water supply.

Today the Basque artillery was shelling the Mondrago, or northwestern corner of the triangle, in preparation for an infantry assault. The road from Mondrago to Victoria was cut.

MADRID, Dec. 1.—(AP)—Capture of the strategic "Hospital Clinic" from insurgents in an all-morning battle in University City, was announced today by a reliable government source.

A violent government attack on the modern building, one of the major fascist strongholds in northwestern Madrid during the long siege of the city, began with heavy cannonading.

Then a great blast from government mines tore at the structure. Reports said it was half destroyed. Government infantrymen swarmed at the ruins and, in desperate fighting, officers said what remained of the building was wrenched from the defending insurgents.

after the president's return, it was understood.

Delegates from all the American states represented here, meantime, hailed the conference as bearing the "whole-hearted support of citizens of all western world republics."

They gave full credit for the conference proposal to President Roosevelt, who first suggested the meeting last February.

The United States' chief executive was to begin the sessions at 6 p. m. (4 p. m. E.S.T.) after the delegates were called to order by Carlos Saavedra Lamas, Argentine foreign minister.

To Be Guest of Honor  
After the opening conference ceremonies, Mr. Roosevelt was to be the guest of honor at a dinner given by President Justo Aguin of Argentina, followed by a reception for American officials and non-conference delegates.

Actual discussions at the international assembly will not begin until Thursday.

Among the prominent speakers at later sessions will be Cordell Hull, United States secretary of state, and Dr. Saavedra Lamas.

Outstanding among the projects to be considered is Secretary Hull's proposed neutrality treaty to bind the American nations in strict agreement not to assist belligerent nations in time of war.

The proposal would establish a permanent consultative committee made up of the foreign ministers of the western countries who would conduct their discussions by radio-telephone and cable to assure rapid action to prevent the outbreak of war involving any American nation.

### YES, THIS FOOD ENDS YOUR CONSTIPATION

Look out for those half-sick days, when you feel listless, headachy, out-of-sorts. Your trouble may be constipation. The real cause of common constipation is too little "bulk" in meals. Your system misses its regular exercise.

Get this needed "bulk" in a delicious cereal: Kellogg's ALL-BRAN. Within the body, its "bulk" absorbs moisture, forms a soft mass, gently sponges out the system.

Why keep on feeling bad when you can feel good? Millions of people use ALL-BRAN. Tests prove it's safe and effective. ALL-BRAN is guaranteed. Try it a week. If not satisfactory, your money will be refunded by the Kellogg Company.

Two tablespoonfuls daily are usually sufficient. Serve as a cereal, with milk or cream, or cook into recipes. Remember, ALL-BRAN also supplies vitamin B and iron.

Certainly you'd rather eat a food than take pills and drugs. Buy ALL-BRAN at your grocer's. Made by Kellogg in Battle Creek.
