JAMES BYBEE, 81, CALLED BY DEATH; NATIVE OF COUNTY

James William Walker Bybee, Jackson county native and prominent cattle rancher, died in a local hospital at 11:30 Saturday night after a brief illness. He was 81 years old.

Mr. Bybee was born near Jacksonville on October 28, 1856. He was the eldest son of William and Elizabeth Ann Walker Bybee, early settlers in the Rogue river valley. He spent his youth on the family farm near Jacksonville and attended school in Ashland and Salem.

Mr. Bybee lived practically his whole life in southern Oregon and helped materially in the development of this part of the state. He always stood ready to assist in any worthy enterprise and because of his sterling qualities he had a host of friends.

Mr. Bybee went to Alaska during the gold rush and spent eight years in the Arctic country.

He was a member of the Jacksonville Masonic lodge.

Mr. Bybee is survived by his brother, Frank Bybee, who operates a cattle ranch on the Jacksonville highway, and a sister, Mrs. Minnie Luy of Eagle Point. Another brother, Robert, died last February 8.

Funeral services will be held in the Perl chapel at 2 o'clock tomorrow afternoon. Dr. Sherman L. Divine, pastor of the First Presbyterian church, will officiate. Interment will take place in the Jacksonville cemetery and the Masonic lodge of Jacksonville will conduct a grave-side service.

Wall St. Report

NEW YORK, April 12.—(AP)—The sweeping government victory before the supreme court in the Wagner labor relations act cases today failed as an important stock market motivator.

Lower from the start, leading issues extended their declines fractions to around 3 points when the final decision upholding the New Deal was handed down. The dip was only momentary, however, and the list quickly righted itself.

U. S. Steel, one of the principal sufferers, cancelled its loss. Coppers converted minus signs into plus ones, and, at the close, quotations were no more than moderately mixed.

Transfers were in the neighborhood of 1,200,000 shares.

Carole Lombard In Musical Show Wins Craterian Audience

"Swing High, Swing Low," the dramatic romance with music which opened at the New Craterian theater last night for a three-day run is a brilliant love story masterfully directed and high-lighted by good music, dancing and gorgeous settings.

It is also a picture with many pleasant surprises for movie-goers. Beautiful Carole Lombard, who is co-starred with Fred MacMurray, sings and dances in the film for the first time revealing talents which are certain to lift her even to greater heights of popularity. MacMurray plays the trumpet, an instrument upon which he is just as adept as he is with the saxophone, and Charles Butterworth exhibits his talents as a pianist.

But even though it is well-garnished with music and glamor, "Swing High, Swing Low" is essentially a love story. It deals with a night club entertainer in Panama who falls in love with a happy-go-lucky adventurer, played by MacMurray. Through her insistence that he attend to business she develops him from a mediocre trumpeter to an international sensation.

Fame goes to the man's head and he forgets Miss Lombard. But he is made to realize that without her he can neither play nor work and he goes back to her begging forgiveness.

The role of "the other woman" in "Swing High, Swing Low" is portrayed by Dorothy Lamour. Miss Lamour sings several songs in the picture and leads a beautiful chorus of dancers.

There are three musical numbers in "Swing High, Swing Low" which are in the big hit class. These are "Panamania," sung and danced by Miss Lamour, and "I hear a Call to Arms" and "Then It Isn't Love," sung by Miss Lombard to the trumpet accompaniment by MacMurray.

Victor McLaglen In Powerful Rialto Hit

A powerful drama that rains blows of passions and emotions "Nancy Steele Is Missing," which opened yesterday at the Rialto theater, is unforgettably portrayed by the star of "The Informer," and an inspired cast.

Victor McLaglen, winner of the Motion Picture Academy's acting award for 1935, turns in one of the finest performances of his career in this taut, dramatic film, in which he is starred with two of the screen's outstanding players, Walter Connolly and Peter Lorre, Europe's one-man chamber of horrors. June Lang and Robert Kent are featured in the picture, adding a romantic note to the proceedings.

"They Wanted to Marry," a light, wistful comedy dealing with two young upstarts in love, plays as the added feature with "Nancy Steele Is Missing" at the Rialto until tomorrow night. Betty Furness and Gordon Jones co-star.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 85c.

FRIENDS AND FOES OF COURT PACKING GAIN SATISFACTION

(Continued from Page One.)

Senator Duffy (D-Wis), one of the group of senators uncommitted on the court bill, took the same view Connally did.

The court's decisions created a stir on capitol Hill unrivalled since the AAA and NRA decisions.

Comment:

Chairman Ashurst of the senate judiciary committee:

"Destiny Tolls Bell"

"Destiny is tolling her inviable bell."

"Do you think we ought to have a liberal court now?" Ashurst was asked on leaving a White House conference.

"We can't have too much of a good thing," the Arizona senator replied with a smile.

Informed Associate Justice Roberts had written the majority opinion in the Associated Press five-to-four decision, Ashurst said:

"Inconsistency will save the United States yet."

Speaker Bankhead: "I am very happy to hear they have confirmed for another time the judgment of congress that its acts are constitutional."

Representative Lemke (R-ND): "I feel the decision is a credit to the supreme court and shows that the court as a whole is more liberal and has blocked the will of the people less than either the executive or legislative branches of our government."

Pettengill Gratified

Representative Pettengill (D-Ind): "I am gratified that the supreme court has upheld the act in the case (the Associated Press case) which seems clearly to involve the power of congress with reference to interstate commerce."

Representative Walter (D-P.): "The decision of the supreme court will be hailed by those of us who have been so deeply interested in the amicable settlement of differences between capital and labor as a step toward the plan which will eliminate those sharp conflicts that have caused grave apprehension."

Senator Robinson, Democratic leader, expressing himself as "highly gratified" over the decisions, said with reference to the Associated Press case:

"I never felt the liberty of the press, within the meaning in the constitution, was fairly involved in the case in which it was raised."

McNary Sees Hint to F. R.

Senator McNary (R-Ore), minority leader: "In view of the recent liberal attitude of the court the president ought to withdraw his bill."

Senator Copeland (D-NY): "The decisions blow this court business out of the water. They demonstrate the president's plan is quite unnecessary. It never surprises me that the court does its duty when the congress does its duty. It shows conclusively there has been no trouble about the court, the trouble has been with the legislation."

Senator Borah (R-Idaho): "I haven't read the decision, but I assume it was based on the proposition that the parties were engaged in interstate commerce, that manufacturing is an incident to interstate commerce. I am not sure I agree with them on the Associated Press case."

Senator Wagner (D-NY), author of the law, withheld comment until he had studied the decisions, except to say that they were "a great victory for the people of America."

WAGES IN ENGLAND ARE GIVEN BOOST BY ARMS BUILDING

LONDON (UP)—Wage earners in industries all over the United Kingdom will benefit directly and substantially from the government's rearmament program.

During the next three or four years the total yield in wages from naval construction alone should be nearly $500,000,000. According to official estimates, 85 per cent of the cost of a warship is paid out in wages.

The 1936 naval program will cost nearly $250,000,000. This will be spread over at least three years. The cost of the 1937 program will be about $225,000,000.

Owing to the great size and complexity of modern warships, there is scarcely an industry which does not provide some item of the equipment.

Since the royal dockyards have a great deal of work in hand or on order, it is probable that all seven cruisers of the 1937 program, together with two aircraft carriers, will be built by contract. Other admiralty contracts impending are nine destroyers of the 1936 program, a large number of destroyers and submarines to be provided for in the navy estimates for the current year, and numerous sloops and auxiliary craft.

When all ships of the 1936-37 programs have been ordered, the total naval construction in hand will approach 500,000 tons.

By the end of the year every shipyard in the United Kingdom qualified to undertake naval work will be well employed, several working to full capacity. It may even be found necessary to revert to the war-time policy of awarding admiralty contracts to firms which have not previously built naval tonnage.

So far the steel shortage has not affected the progress of naval work, though it is threatening to delay mercantile construction.

The labor outlook, however, is causing some anxiety. Until more skilled men enter the market it will not be possible to utilize more than 60 per cent of the shipbuilding berths now available.

PLANE SCHEDULES TO BE CUT HERE FOR SHORT TIME

(Continued from Page One.)

nicipal airport is neither long nor wide enough to accommodate the new big air liners safely. It was indicated that the big ships would call here as soon as the airport measured up to company requirements, though there was no official statement on which to base any such expectation.

Development of the airport to meet this very situation has been underway for some time as a WPA project. The runway has been excavated for a length of 5400 feet and a width of 200 feet but the drainage and graveling have not yet been completed, it was stated by Fred W. Scheffel, city superintendent.

About 75 men are now employed at the airport on drainage of the runway but gravel cannot be purchased by WPA funds until a sufficient amount of money has been accumulated for materials, Mr. Scheffel related. Funds used for materials and equipment must bear a certain ratio to the money expended on labor under WPA regulations, he explained.

Under these regulations very little machinery has been available to hasten the airport work, Mr. Scheffel pointed out. He added, however, that a tractor is to be rented this week for work on the project.

"We are doing all we can and progressing as rapidly as possible under the limitations we face," Mr. Scheffel asserted.
