Wall St. Report, April 12.—(AP)—Stocks swung upward in today's market for general gains of fractions to 3 or more points. Steels led the jump from the start, with selected motors, electric equipments, farm implements, rubbers, chemicals and specialties gathering power in later dealings. Brokers attributed the come-back partly to relief of traders over the fact market received calmly the long-awaited supreme court decisions yesterday. Some buying stimulus was also apparently provided by business news. The pace was lively at times, but there were extremely slow intervals. Most of the issues finished around their best levels. Late profit selling pulled back many from their tops of the day. There was a small assortment of losers at the close. Transfers approximated 1,400,000 shares.
