Oregon Residents Taking Prominent Part in Congress

Of interest to many here are events and social happenings in connection with the national D.A.R. congress held this month in Washington, D. C. Mrs. Boone G. Harding of this city, state regent, heads the Oregon delegation.

Mrs. Harding extended invitations to Oregon's congressional delegation and their wives to occupy the Oregon State box at various evening sessions of the congress. Mrs. Charles L. McNary, wife of the senator, senator, Senator and Mrs. Frederick N. Stotler, Representative James W. Mott and Mrs. Mott, Representative Walter M. Pierce and Mrs. Pierce and Representative Nan Honeyman were guests of Mrs. Harding.

Each state D.A.R. congress has constructed an official box for guests in Constitution hall, the row of boxes extending from either side of the platform in a horseshoe shaped circle. Each box seats six and is decorated with a large replica of the state insignia. Each state regent is the official hostess and has complete charge of her state's box during the week of April 19 each year.

Mrs. Charles L. McNary, Mrs. Frederick N. Stotler, Mrs. James W. Mott and Mrs. Walter M. Pierce, wives of senators and representatives from Oregon, were ranking guests at a luncheon given by the Oregon D.A.R. delegation at the Mayflower hotel. Mrs. Harding presided. Mrs. R. M. Evans, member of the local chapter now residing in the capitol and from whom news of the congress comes, was also a guest. Miss Mary Baker Galey of Ashland and Mrs. R. G. NEW CCC BUILDING BEING ERECTED AT FAIRGROUNDS HERE

A new motor repair shop and parking shed, replacing the motor transport building recently destroyed by fire, is being built at the Jackson county fairgrounds by the Medford CCC district.

The shop, with adjoining sheds, will cost about \$4850 to construct, according to Capt. H. J. Meiring, district quartermaster. The concrete foundation has already been laid for the repair shop, which will be 64 by 30 feet and will adjoin the lower motor transport building, known to fairgoers as the boys' and girls' club building.

The new building will be of galvanized iron construction, as will be the parking sheds which will be 20 feet wide and total 250 feet in length. The club building is also being remodeled and offices are being installed.

The old sheet metal paint shop which adjoined the destroyed motor transport building has been moved to the new location. All district motor transport work will be handled out of the new buildings.

A heating unit will be installed for the buildings and four wash racks, instead of the present two, will be installed. Mechanical work will be carried on in the new building, while the old club building will be used as storage space for equipment, a tire repair shop and offices.

The floor of the destroyed MTO building has been given a new concrete veneer and is being converted into a tennis court for the men of headquarters detachment.
