Mrs. Harding Is Honor Guest At Capital Affairs

Among social events arranged during this month's national congress of Daughters of the American Revolution in Washington, D. C., was a tea at which Mrs. Charles L. McNary, wife of Senator McNary, was honored in honor of Mrs. Boone G. Harding of this city, state regent.

Oregon members of the D. A. R. were invited to the McNary apartment on Connecticut avenue. Mrs. McNary also invited the wives of several congressmen from California and friends in army and navy circles to meet the Oregon women.

Mrs. James W. Mott, wife of Representative Mott and Mrs. Spofford, wife of Commander Spofford, assisted at the tea table. Mrs. Harding and Mrs. R. M. Evans were Crater Lake chapter members present.

Also entertaining in honor of Mrs. Harding and the Oregon members was Mrs. Frederick Stelwer, wife of Senator Stelwer, who invited guests for tea at her home on Orchard street. Assisting the hostess were Mrs. James T. Jardine, former resident of Corvallis and Mrs. Ralph T. McElvenny, daughter of Senator and Mrs. Stelwer.

Congress having adjourned for the week-end, Senator Stelwer reached home in time to greet his Oregon friends and to wish them a pleasant journey home.

Ancient Motifs Finding Favor

Results of recent explorations of ancient civilizations in southwest United States and Mexico are being reflected in new fashion trends. Geometric patterns uncovered in ancient ruins, stripes lifted from the looms of Guatemalan weavers and large flowers plucked from the desert are the inspirations for numerous new print patterns.

The soft plunking of guitars and the clicking of castanets suggest graceful flared skirts, deep oval décolletages and romantic lace trimmings on the hem and at the neck. Accessories, too, tend to "go south-west."

Sombreros—launched last year at the Texas centennial—are being adapted more widely by the better milliners, and more native straw appear in their natural state.

Silver and turquoise jewelry promise to find favor. Makeup, experts say, will tend to be much darker. Darker shades of powder will be used to lend authenticity to that "browned-to-a-turn-but-not-to-a-crisp" look. Lipstick will be brighter and darker. Eyeshadow, especially in shades of green and blue, will be used both in the daytime and the evening. Rouge, however, will be used somewhat less.

KERR TO TRAVEL AT OWN EXPENSE

CORVALLIS, April 28.—(P)—Dr. W. J. Kerr, chancellor emeritus of the higher education system, turned down the board's offer of a two and a half months sabbatical leave with pay to study foreign market conditions.

The former chancellor said although he planned a European trip to observe trade affairs in his capacity as director of production and marketing research, the tour will also be in the nature of a vacation. He will pay his own expenses.

The board approved Dr. Kerr's leave of absence without his request along with one for H. E. Inlow, who has been transferred from the presidency of Eastern Oregon Normal school at La Grande to the general extension service as professor of history and head of the department of normal school extension.

BASQUES CONSIDER DESERTING BILBAO

HENDAYE, Franco-Spanish border, April 28.—(AP)—The Basque government began today to consider the evacuation of all women and children from Bilbao, as three prongs of insurgent troops converged on the city in a virtually unopposed march to the sea.

The population of the besieged basque capital was fearful it soon might suffer the same fate as Guernica, historic shrine of Basque independence, where 800 civilians were killed in insurgent aerial attacks two days ago.

The provincial council at Santander, 47 miles west of Bilbao, offered a haven for all women and children. The food situation was reported only "fairly good" despite the reported arrival of another food vessel through the insurgent sea gauntlet.

Accounts of the swift, virtually unopposed advance of Gen. Emilio Mola's insurgent forces were withheld from the Bilbao populace to prevent panic and internal disorders.

In the 75 years from 1869 to 1934, Colorado produced coal worth \$785,000,000. This was \$40,000,000 more than the value of gold produced in the state during the same period.

To check the exodus of agricultural workers to cities in Argentina, the ministry of agriculture plans to promote widespread use of radio receiving sets on farms and ranches there.

COUNTY IS OVERRULED IN GORE SUIT MOTION; TIME FOR REPLY SET

(Continued from Page One.)

laborated for the measure's passage. The pending suit contends that the agreement to reimburse on a one per cent basis, was a "compromise agreement" with the 1926 county court.

Jackson county, in its motion, asked if the purported agreement was verbal or written, and, if written, to present a copy. It was also contended the second suit is a reiteration of the first action.
