

TENNESSEAN GETS READY FOR FIRST MEAL IN 52 DAYS

STOOPING OAK, Tenn., May 1.—(AP)—A fruit-lar full of choice cut-up steak and a pot of greens boiled at the cabin home of Jackson Whitlow today while the emaciated religious foster prepared for his first "real meal" in 52 days.

He was ready to eat, but none could say how his weakened body would react to the food doctors have warned may prove fatal unless carefully taken.

Whitlow broke his fast yesterday morning by drinking a half-cup of what he said was grapejuice. The neighbors who brought it claimed it was elderberry wine.

The 45-year-old Cumberland mountain fur-trapper said he began the fast last March 10 "at the call of the Lord."

"My fast is over. My trial is ended. I know God is with me and I am not afraid," Whitlow said when he set his wife, Florence, to boiling the greens for "pot liquor" and cutting the juicy steak into bits for beef broth.

Happy, but weakly weak, Whitlow declared: "I received a sweet message from the Lord. He told me to abstain from water and drink a little wine for the stomach's sake. I understand that wine is the fruit of the vine and not a fermented or alcoholic beverage. I absolutely did not drink any wine, and will not."

REDWOOD EMPIRE ROADS NOW SAFE

SAN FRANCISCO, May 1.—(AP)—Highways in the Redwood Empire are entirely safe for pleasure traffic, the Redwood Empire association announced today.

Clyde Edmundson, general manager of the association, explained he made the announcement because of numerous inquiries as to the condition of the highways.

He stated one bridge had been "posted" by state highway officials against its use by trucks of more than 4,000 pounds gross weight, pending completion of a new bridge.

EXPERT CHEF TRIES NEW STOVE

Fernand Pointreux, executive chef of the College Inn, Chicago, prepares a tasty dish of spaghetti on the new Montgomery Ward kerosene range for La Verne Lupton of the chorus. This range burns a new type of fuel—a gas made from kerosene.

ACCUSED COUPLE SEEK 'LIE' TESTS

ROSEBURG, Ore., May 1.—(AP)—Mr. and Mrs. Leonard Hopkins, held here on charges of involuntary manslaughter in connection with the death of the former's four-year-old daughter, request that they be submitted to the test of the lie detector, with or without stipulation, Attorney Ray B. Compton, defense counsel, said today.

Claiming that he personally proposed the lie detector test, he declared today that District Attorney J. V. Long, who yesterday announced cancellation of the examination previously scheduled for today, had been asked to submit a form of stipulation when the agreement prepared by the defense was found not acceptable by the state. The district attorney announced Friday that the planned test had been cancelled because of the demands of the defense that no publicity attend the findings and that results should not be used in court unless favorable to the defense.

CORVALLIS BABY DIES IN FLAMES

CORVALLIS, May 1.—Tiny Carol Maxfield lost her life late yesterday at Burnt Woods when fire destroyed her parents' home.

The 2-month-old tot's mother, Mrs. Darrell Maxfield, and her aunt, Mrs. Lawrence Woolley, were severely burned.

The women saw flames shoot from the second story of the frame dwelling as they carried furniture to the highway in preparation for moving to a new home. The fire cut them off from the stairway. Heat and smoke drove them from a ladder placed against the infant's window on the second floor.

The origin of the fire could not be determined.

Medical Chief Passes
BOISE, IDAHO, May 1.—(AP)—Dr. Rinaldo E. Baker, 61, chief of the United States veterans' hospital medical staff here since 1914, died today.

COUNTY POLITICS HELD NEW CAUSE RELIEF DECLINE

PORTLAND, Ore., May 1.—(AP)—Walfred T. Shuholm, member of the state relief committee, placed a new interpretation on declining relief rolls when he suggested local politics may be denying assistance to needy ones.

"I do not suspect any individual county court," Shuholm said yesterday at the committee's monthly session, "but it does seem to me some counties are much lower than others in payments."

"I know that sometimes people who may not agree politically with public office holders might not be treated fairly."

Shuholm made the comment when the financial report revealed sharp declines in the number of persons applying for relief and the amount of money spent.

He opposed the committee's policy of not recognizing the Workers' Alliance as the representative of its own members on relief.

"I spend 80 per cent of my time on relief matters," said Chairman Jack Lullin. "I have gone out into the counties with the staff to look into various cases. If we find a wrong, we try to right it. If a man is hungry, he has to be fed. Feed him first and investigate later. If I'm wrong, I want this committee to say so."

Elmer Coudy, administrator, backed the chairman's sentiments and pointed to huge strides made in the last year. Larger payments have been made and more persons aided, he said.

Domestic Wool Quiet
BOSTON, May 1.—(AP-USA)—Domestic wools were quiet in Boston during the past week. Interest was confined mostly to pre-shearing contracts for western grown wools, offered at \$1.00 to 1.05 scoured basis for combing length wools in original bags and mostly 85 to 98 cents for original wools of short French combing and clothing lengths.

SEEK RECALL OF MARION JUDGE, 75

SALEM, May 1.—(AP)—A recall movement against John C. Stegmund, 75, Marion county judge, reached official status today when preliminary petitions were filed with the county clerk.

The judge was charged with insufficient qualifications for office because of age, temperament, lack of training to administer laws for the aged, dependents and minors and because of these asserted factors and his financial interests he was also described as unfit to preside over the probate and juvenile courts.

The petition was signed by three Salem residents and two citizens of Turner. Rumors of a recall movement have been heard here for some months. The judge has held the office since 1927, when he was appointed to fill a vacancy. He was re-elected twice and his present term runs to January, 1941.

Mill Strike Ends
SHERIDAN, Ore., May 1.—(AP)—Negotiation of a working agreement between the New Grande Ronde Lumber company, Valley Junction, and the Lumber and Sawmill Workers' union, was completed today, ending a month-old strike among 100 employees.

FARLEY INSPIRED KANSAS CENSORS

TOPEKA, Kas., May 1.—(AP)—A charge that Postmaster-General James A. Farley was to blame for censorship of films containing remarks against President Roosevelt's supreme court program was laid today with the people of Kansas by Senator Burton K. Wheeler, Montana Democrat.

Recently the state censor board ordered elimination of a short speech by Wheeler from a news reel concerning the court dispute, holding the remarks were immaterial.

Later, after protests by numerous persons, including the 1936 Republican presidential nominee, former Governor Alf M. Landon, the board re-examined the case and restored the speech.

PITTSBURGH, May 1.—(AP)—Patrolman Frank Brush found four-year-old Tommy Kline separated from

his mother in a downtown shopping crowd. He pondered the problem. Shortly afterward a throng collected suddenly. The mother came rushing to see what the excitement was.

School Chief Resigns
COQUILLE, Ore., May 1.—(AP)—P. W. Lane, superintendent of schools here for three years, submitted his resignation last night to directors to take effect July 1, so he may enter private business.
