

First Annual All-School Fair Opens in High School Gym Tonight

PUBLIC INVITED TO VIEW DISPLAYS OF STUDENT EFFORTS

Booths Arranged in Big Gymnasium for Comprehensive Exhibit of Work; Continues to Friday Night

Medford's first annual all-school fair will open at 8 o'clock tonight in the senior high school gymnasium. It will continue tomorrow afternoon and evening. Admission is free and the public is invited.

All the schools of the city will participate in this fair. Object of the fair is to give the public a chance to see some of the work being done by the various departments of the school system. Since discontinuance of the county fair several years ago there has been no opportunity for a general display of school work.

The big gymnasium has been converted into a show room and a bandstand has been erected for evening concerts by school bands under the direction of Wilson Watt.

Central committee in charge of the fair is composed of Leland Minter, Paul Menegat and Miss Louise Bassford of the school faculties.

A special feature of the fair will be the booths arranged and decorated by the Future Craftsmen, apprentice boys. As nearly as practicable each student will attempt to show by demonstration the type of work he is being trained to do.

Boys of the high school trades class may be seen at work at wood lathes and benches and there will be a display of practical problems worked out in the shop.

Other high school exhibits will be made by the art, foods, clothing, science, geology, biology and commerce departments. Note books, papers and special assignments will be displayed by the English, history, French, commercial and mathematics classes.

Junior high school will have exhibits from all departments, including industrial arts and mechanical drawing, foods and clothing, art, home planning, science, geography, history and English.

The grade schools will give a special exhibit of work done by children in the "leisure arts" classes which are open to pupils who are exempt from some subjects because of unusual proficiency.

There will be numerous other exhibits by all the schools. A candy and ice cream concession will be operated to help pay the expenses of the fair.

Mr. Berger Answers George.
To the Editor:
Once more please permit me space to reply to Mr. Iverson.

Well, George, I hardly know how to start or how to finish this reply, for this complete change is a surprise to me for I have been taught that a man's word is as good as his bond. You accepted by challenge fair and square and since this debate is not in any way connected with the Townsend clubs I fall to see where it is any of their business. But it does make a good excuse for a fellow to crawl out. That is O. K. with me. I will be there and those who have courage to listen and those with a head of their own will hear my side of the story.

You say you can make a monkey out of me. Then why don't you do it? I have not objected to being worked over, but you never will by cutting. Now let me tell you some thing big boy, it takes a real veterinary to make a monkey out of me and don't get an idea in your little head that because you may have thrown a little bull on the street corner you are a full-fledged veterinary. I don't have to make a monkey out of you for you are doing a good job of it yourself.

This was supposed to have been a debate and not a monkey making party and I don't see where you get such an idea in your little head. I will stand my ground with you any old day and don't you worry about me holding my own. Just come on like a man and meet me as you agreed to.

Say, I would rather take a good trouncing than show my yellow feather. I am serious about this matter and I have a message for the people of Oregon. We are in a depression and we have a fight on hand and we should stand by each other instead of fighting and trying to make

monkeys of each other. Is that all you care about the welfare of your fellow man?

I am in this to fight to a finish and I had as soon fight one as the other who may get in the way of putting a recovery measure over to provide employment for the young and security for the aged. What is good for you is good for me, then why not come out like a man and get it off our chests?

Have been in the Townsend movement longer than you have and have organized more clubs than most any man in the state up till the time I quit speaking or until Townsend became drunk with his own ideas.

To the Editor:
Readers of the daily news who take more than passing interest in the incredible happenings recorded occasionally, can doubtless recall the account not so long ago of the lady who left five thousand dollars for the care of her parrot after her demise. And among items of a similar nature, the story of the maiden lady who willed fifteen thousand for the care and maintenance of her most beloved cat.

Then there was the extremely wealthy lady who left the staggering sum of eighty-five thousand dollars to provide every comfort for her dog, a bitch, including the ministrations of a trained nurse during its life.

However, the bitch died in a couple of years or so, and the nurse laid claim to the money. But by some astute detective work a pup was discovered who was proven to be a son of the bitch and naturally the heir to the fortune. This court case turned out to be a corker, as it took three learned judges (count 'em) nearly a week to render this most important decision.

And now we get the account in the Southern Oregon Miner of April 27th of a Peralan cat by the name of Ginger, residing in Los Angeles, together with his photograph and a short description of its owners, who has just won fifty thousand dollars on a horse race.

We have no means of knowing how many of our country's cats are betting on horse races or gambling in the stock markets, as unless a cat like Ginger makes a big winning no mention of their activities would be made.

We would like to have a five-four decision by our supreme court at once as to whether it is constitutional for the dogs, cats, parrots (and for all we know, canary birds, monkeys and alligators) to keep large sums of money in the banks and bet on horse races, lotteries and take up the time of the courts by their lawsuits, when there are millions of people right now who are hard put to it to obtain even the barest necessities of life. What a paradox!

Eden Precinct

EDEN PRECINCT, May 6.—(Spl.)—It is getting to be no special news to report the sale of a tract of land near Phoenix or Talent as so many of the new home-seekers are finding out about the productiveness of this land. This time it is Louie Colvert who last week sold to the county the acres lying on the east side of the highway. The main feature of this buy was for the inexhaustible supply of road building materials, rock, sand and gravel. There is also a lot of good land in the tract.

Here's Speedy Relief For Tender, Aching, Swollen Feet

Your feet may be so swollen and inflamed that you think you can't go another step. Your shoes may feel as if they are cutting right into the flesh. You feel sick all over with the pain and torture; you'd give anything to get relief.

Two or three applications of Moore's Emerald Oil and in fifteen minutes the pain and soreness disappears. A few more applications at regular intervals and the swelling reduces.

And as for Soft Corns and Callouses a few applications each night at bedtime and they just seem to shrivel right up and scale off. No matter how discouraged you have been, if you have not tried Emerald Oil then you have something to learn, and best of all any offensive odor is gone for good. Jarmin's, Inc.
