uttered on the White House steps after President Roosevelt's return last week, or was trying to negotiate a compromise without committing the chief executive.

Opposition leaders and many others were convinced the latter theory was correct. Robinson kept away from the capitol yesterday after the committee voted 10 to 8 against the bill.

Congressional interest in the judiciary situation was divided almost equally between speculation over the administration's position and candidates for the vacancy on the supreme court created by the retirement of Justice Van Devanter.

Many sponsors expressed the view Senator Robinson would be appointed. Senator Pittman (D-Nev) openly advocated it.

Among other names mentioned was that of Robert H. Jackson, assistant attorney general, who said he did not wish to be considered.

Mr. Roosevelt told his press conference he had not yet considered a successor. Asked if the retirement would effect the court bill, he said there was no news.

WORKMAN'S SUIT HEARD BY COURT

The suit of Albert C. Clement against the State Industrial Accident Commission, started this morning before a circuit court jury.

Clement seeks compensation for injuries, allegedly received while employed at the Pine Cone Inn on the North Pacific highway.

The complaint sets forth that on December 2, 1935 he was pushing a wheelbarrow loaded with wood, in the gravelled Pine Cone yard when a piece of gravel caught in the wheel, causing the barrow to stop suddenly.

Clement sets forth that at the time of the accident he was receiving \$2 per day and board.

Attorney J. F. Flegel represents the accident commission and Attorney Otto Frohnmayer is counsel for Clement.

WATCH TICKS ON IN INTERIOR OF BOSSY

DECORAH, Ia., May 19.—(P)—When a farmhand lost a dollar watch in the hay-loft of a barn, Leon Johnson had no idea it would cost the life of his cow.

The animal swallowed the watch while eating hay. The cow's digestive tract rebelled against the metallic diet, but the timepiece was still ticking off the seconds with regularity when Johnson recovered it.

Medford Couple Planning Hospital Wedding May 23

Traditional hospital solemnity will be temporarily banished next Sunday when Ruth Holmes and Walter Crank, both of this city, take their marriage vows within the benign walls of St. Luke's hospital in Spokane, Wash.

The bride-to-be has spent the greater part of the past year at St. Luke's recovering from injuries sustained in a motor accident and will be married in the presence of friends among the hospital staff and others from out of town.

Rev. Henry Van Winkle of the Central Christian church in Spokane will perform the ceremony and Mr. and Mrs. Richard Cannon of Cusick, Wash., will attend the couple. Bride and groom will be at home to their friends here at 25 Portland avenue after June 1. Mr. Crank left for Spokane today.

Unusual setting of the wedding has aroused much interest in the Spokane section and press representatives plan to witness the ceremony. A large crowd of friends and acquaintances are also expected to attend the service.

and his duchesse-to-be will leave the chateau to spend almost a month traveling before they reach Wasserklober castle, at Noetsch, Austria about July 1, the spokesman predicted.

Lease Haunted Castle

The gray castle on Austria's southern frontier, commanding an Alpine view into Yugoslavia and Italy, has been leased by the duke from his friend, Count Paul Muenster, despite the fact neighboring peasants say the ancient halls are haunted.

Noetsch legends say a 16th century lady Bluebeard, one Anna Neumann whose six husbands died under mysterious circumstances, still haunts the castle.

Today Edward practiced on his waiting bachelors, playing the wedding march he composed during his Austrian exile.

A new guest, Mrs. Constance Coolidge of Boston and Paris, arrived at the Chateau de Candé for a short stay.

State's Attorney Maurice Carcasson of Tours removed the last remaining obstacles to the marriage today. As representative of the French ministry of justice, he granted the duke's wedding application, including permission to dispense with posting banns and a special authorization for a civil ceremony at the Chateau de Candé.

essed that she attempted to "get rid of the children" so she would have more room in her shabby, East Side apartment in which to entertain her sweetheart, George Christodulus, 29-year-old Greek restaurant worker.

In one of her three alleged confessions, police said, Mrs. Tieran accused Christodulus of helping her in the crime, charging he struck both of the small victims with an axe and that she then cut their throats.

Later, in her third statement, she cleared Christodulus of any connection with the slaying.

District Attorney L. Barron Hill said the widowed mother begged for permission to see her son, Jimmy, now recovering from a slash in the neck allegedly inflicted by her own hands.

But, Hill said she told him, she was

Build with LUMBER.. A Lifetime of security at amazingly little cost. Thousands of American families are today realizing their hopes for better homes. There is nothing like lumber for solid comfort in house building. It is durable, easy to handle and inexpensive. When the Union Pacific was under construction seventy years ago, lumber was scarce in mid-continent America. Methods of logging were tedious and wasteful. Transportation was difficult. Today, modern methods of logging and lumber manufacture, coupled with fast, dependable railroad transportation, make the choicest lumber available in all markets of America at amazingly low prices. In a frame house of average size the cost of the lumber is only about 15% of the total construction expense—and this includes freight charges to average destinations. Union Pacific has played a leading part in development of the lumber industry. Steadily through the years, it has bettered its schedules, improved its equipment, to facilitate fast, low cost, dependable delivery of this important commodity. It has recently added 4,500 specially designed cars to its lumber fleet. Progressive steps in pace with a progressive industry. For better homes—at minimum cost—consult your local lumber dealer.
