

LEGION AUXILIARY TO SELL POPPIES FRIDAY, SATURDAY

Members of the American Legion Auxiliary of Medford post will be up bright and early Friday morning to start their annual sale of Memorial Poppies. A breakfast at Leonard's at 6:30 will precede the canvass of the city.

Headquarters will be established in the Allen hotel and booths will be placed at strategic spots in the business district for the sale of the little crepe paper flowers.

All money derived from the poppy sale is spent by the women in aiding needy veterans and in welfare work among the children of veterans in Oregon, according to Mrs. C. E. Kunn, chairman of the poppy committee.

A display depicting a "Flanders field" has been placed in the window of the Toggery and posters entered in the recently conducted contest are being shown in a window of the M. M. department store.

The poppies, it is pointed out by Mrs. W. H. Ellenburg, president of the Medford auxiliary, were adopted as the memorial flower of the organization at its first convention in Kansas City in October, 1921. Profits from the sale are pledged 10 percent to welfare work among veterans and their families.

The poppies are made by hand from crepe paper, by disabled veterans in more than 40 hospitals in 40 states. The workers receive pay for each poppy made, materials being furnished free by the auxiliary. More than \$100,000 is paid annually to needy and disabled veterans for making the flowers, many veterans thus realizing their sole income.

The sale will continue Friday and Saturday under the direction of Mrs. Kunn, assisted by a major portion of the auxiliary membership.

Among those who have already enrolled for aid in the sale are: Edna Overmyer, Waive Enders, Malale Dally, Lavera Garlock, Chloe Ellenburg, Rose Bunch, Ruth Freed, Ruth Parker, Myrtle Wright, Elizabeth Fluhrer, Lorena Leach, Georgia Holloway, Margaret Burton, Edythe Martin, Gladys York and Belva Alken.

Veterans Prepare Poppies

Disabled veterans in the Roseburg veterans' hospital are shown above preparing Memorial Poppies, sale of which will be conducted by members of the American Legion Auxiliary Friday and Saturday. Material for the poppies is furnished free by the Auxiliary and the men are paid for their work. All money derived from the sale of the paper flowers is used in rehabilitation efforts among the disabled ex-soldiers and in welfare efforts for their families.

Savages Know Best Diet Declares Dental Surgeon

INDIANAPOLIS, May 19.—(AP)—Primitive peoples, Dr. Weston Price believes, are "sturdier and enjoy generally better health" because of their inherent knowledge of a proper diet.

"They could teach modern people things we are discovering only gradually," the Cleveland, O., dental surgeon, a speaker here before the Indiana Dental Association convention, said. "But they hold us in contempt because we look upon them as savages."

Dr. Price described experiences among the 27 types of primitive races in the world he has visited.

"In some tribes, I found cereals higher in mineral content, particularly calcium, than known by us moderns. They know the science of diet and even the science of inoculation against disease and infection."

"They think of us as fools because of many of the things we do and our refusal to accept their advice."

He told of one tribe which sent natives living high in the mountains to lower areas for water hyacinth containing a high content of iodine for use in treatment of goiter. He said the tribe had been doing so far generations and added that modern science has recognized the value of iodine in combating goiter only in comparatively recent years.

"I found that even in the Indian tribes of the extreme north area," he continued, "the fact was recognized that potential mothers should receive a certain diet before they were even married."

He blamed absence of ancient customs for improper diet which has caused facial deformities through decay of teeth.

SAMPLE OF CINNABAR ADDED TO ALL-STATE DISPLAY AT CHAMBER

Third specimen to be received for its all-state friendship gem and mineral exhibit was put on display today by the Jackson County Chamber of Commerce.

It was a sample of cinnabar from Brewster county, Texas. A letter from the Texas planning board said "This specimen was procured from a test pit near the properties of the Chisno Mining company at Terlingua. The Terlingua district in Brewster county has been an important source of quicksilver for about 30 years."

"The quicksilver is distributed over a fairly wide area and the known east and west extension of the district is about 30 miles. The greatest north and south extension is at least 20 miles. At present there are five operating companies engaged in the production of quicksilver."

The chamber of commerce was today in receipt of additional promises of contributions to the all-state friendship exhibit. These came from the following governors, all of whom expressed their appreciation of being accorded honorary membership cards by the Southern Oregon Gem and Mineral society:

Harold G. Hoffman of New Jersey, George D. Aiken of Vermont, Henry Horner of Illinois, Herbert H. Lehman of New York and Roy E. Ayers of Montana.

Professor M. E. Coe, principal of the Jacksonville school, recently received notice that the Jacksonville institution has been admitted to membership in the Northwest Association of Secondary and Higher Schools.

The association is one of several formed to maintain high standards in schools and to accredit high schools and colleges. County Superintendent C. R. Bowman explained. Regular inspection by association officials of all member schools insures constant adherence to standards. Most schools in the county are members of this or other similar associations, Bowman said, and all maintain Oregon standards.

Membership requires a high standard of both teaching facilities and staff personnel. Most universities accept only graduates of high schools accredited by some association, Bowman pointed out.

WEALTHY EX-TEACHER DIES OF STARVATION; SISTER NEARLY DEAD

VALLEJO, Calif., May 19.—(AP)—Authorities sought an explanation today of the reason 85-year-old Alice Murphy died, seemingly of starvation, although she and a 76-year-old sister, Sarah, shared a \$100,000 fortune.

Dr. Edward Mullaly, a private physician and neighbor of the two aged spinsters, told the police after an examination of Alice Murphy's body that slow starvation had caused her death.

A coroner's inquest was delayed pending the expected recovery of Sarah Murphy, whom police said they found unconscious in the Murphy house last Saturday at the same time her older sister's body was discovered. Doctors at the Vallejo hospital said she was starving.

Alice Murphy retired two years ago after teaching for 50 years in the Vallejo schools.

Police, who forced an entrance to the house to remove the older woman's body and take Sarah Murphy to the hospital, did not know until yesterday of the women's riches.

GRANTS PASS TRIO HURT IN SMASHUP

Karen Freeman, three-year-old daughter of Velma Meyfel Freeman of 809 L street, Grants Pass, was slightly injured yesterday afternoon when the Ford coupe driven by her mother crashed into a huge auto freight truck at the corner of Front and Fourth streets. The Freemans were on their way to the circus.

City police said the little girl received several cuts on the face, but was released from the hospital following treatment of the injuries.

Mrs. A. J. Parra of Grants Pass also was slightly injured in the crash, receiving foot injury. She was a passenger in the Freeman machine.

According to city police, the car driven by Mrs. Freeman hit the truck broadside, breaking the back spring of the truck and almost completely demolishing the Ford coupe. The truck was traveling east on Fourth street while Mrs. Freeman was moving north on Front street.

The truck was operated by R. P. Wandrey of 506 Clark street, Medford. Mrs. Freeman told city police she was talking to her little daughter and did not see the truck until she hit it.

J'VILLE SCHOOL RATES WITH BEST

Vallejo, Calif., May 19.—(AP)—Authorities sought an explanation today of the reason 85-year-old Alice Murphy died, seemingly of starvation, although she and a 76-year-old sister, Sarah, shared a \$100,000 fortune.

Dr. Edward Mullaly, a private physician and neighbor of the two aged spinsters, told the police after an examination of Alice Murphy's body that slow starvation had caused her death.

A coroner's inquest was delayed pending the expected recovery of Sarah Murphy, whom police said they found unconscious in the Murphy house last Saturday at the same time her older sister's body was discovered. Doctors at the Vallejo hospital said she was starving.

\$9.95 Value! SPRING, 99 COILS, Helical Tied. 7.88

ELLIOTT PONY ON LIST OF MISSING

Little Jimmy Elliott, 15-year old son of Dr. and Mrs. B. R. Elliott, was today still dependent over the disappearance of his pet pony, "Roney," lost, strayed or stolen from the Elliott home Saturday night.

The little horse, instead of being between 700 and 800 pounds, is one of two ponies belonging to Jimmy and Joan Elliott. The animals are usually kept at the Elliott ranch on the Central Point-Jacksonville road but were brought into town Saturday to perform in a home carnival.

Some time during the night Roney deserted her unfamiliar surroundings and set out for greener pastures. It is not believed that the animal was stolen.

Advertisements and police inquiries have so far failed to reveal the whereabouts of Jimmie's pet on the fourth day of her absence and the search was to be continued.

MRS. H. D. M'CLELLEN OF ROSEBURG DIES

Mrs. H. D. McClellen, for many years a resident of Roseburg Ore., died in Portland Sunday evening, May 16, and will be buried in Roseburg, Wednesday.

She leaves to mourn, the following relatives: A daughter, Mrs. Margaret Hoelling of Portland; two brothers, John Orth of Medford, Henry Orth of Fort Klamath, and two sisters, Mrs. James Felton of Fort Klamath and Mrs. James G. Cotchett of Melbourne, Australia, and several nieces and nephews.

APPLE MARKET FIRMS ON BUYING FOR EAST

PORTLAND, May 19.—(AP)—Extensive purchases for eastern markets gave the northwest apple market a firm tone this week, a market survey showed today.

A reduction in eastern shipments has eliminated serious competition for western fruit. Wineaps are bringing \$1.90 at shipping points for extra fancy and \$1.80 for fancy and several holders anticipate a higher trend.

To date Oregon has shipped 8,021 cars, or about 1000 more than a year ago. Washington loadings reached 27,392 compared with 26,672 last season.

TWO BOYS HELD ON AUTO THEFT CHARGE

Two youths who allegedly stole a 1934 Buick sedan in Guerneville, Cal., Friday or Saturday, were arrested by Ashland city police Monday evening, and brought to the county jail by state police, who say they will probably be returned to California to answer the charge.

They are William Lawrence Carson, 18, of Berkeley, Cal., and John Lisle McLean, 18, of Albany, Cal. State police say Carson formerly was enrolled in CCC Camp Belad.

The two allegedly stole the car owned by C. L. Hoffman of Guerneville while it was parked in front of a lodge hall, either Friday or Saturday, they are not sure which.
