NEGRO CONVICTS KILLED IN BREAK

HUNTSVILLE, Tex., June 2.—(AP)—Two fleeing negro convicts were killed, three recaptured, and a sixth escaped from the Davidson farm in Brazoria county last night, Texas prison officials were notified today.

The convicts used pistols stolen from arsenal guard's quarters. Rifle and shotgun fire from line guards felled two. None of the guards was wounded.

Guards opened fire as the escaping prisoners broke from their dormitory, where they had been feigning illness, prison officials said.

cities already have voted bond issues.

A promise to make relief funds available for building ponds and lakes to raise the water level of the so-called "dust bowl."

Although the administration had offered to supply relief labor for construction of "farm to market" roads, Chairman Cartwright (O., Okla.) of the house roads committee held out for setting aside \$150,000 for road construction under contracts led by state highway departments.

After the principal controversy was settled by rejection of the earmarking proposal, the house acted swiftly on a number of other proposed amendments.

The salary of Harry L. Hopkins as works progress administrator, from which \$2,000,000 had been tentatively cut, was restored to the present \$12,000 a year by a vote of 272 to 96.

Republicans, led by Rep. Bacon (R., N. Y.), urged that relief be turned back to the states, with federal grants of money to them, but that was rejected 266 to 78.

Amendments were adopted giving first preference on relief jobs to citizens and aliens with "first papers," and barring agricultural workers from relief while part-time private jobs are available.

A senate subcommittee, some members of which favor cutting \$500,000,000 from the relief fund, decided to start work immediately on the measure. It must be signed by the president before July 1 unless relief payments are to lapse.

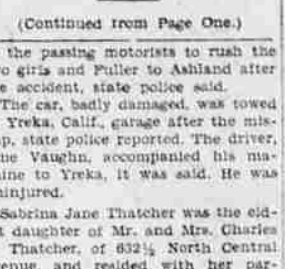

Senator Hatch (D., N. M.) asked an investigation of the entire relief problem, with a view to fixing a permanent program.

Against the demands of an economy bloc for cutting the relief fund stood the declaration of Senator La Follette (Prog., Wis.) that \$1,500,000,000 was "inadequate."

Liquor Employees Given Vacation

PORTLAND, June 2.—(AP)—Walter Winter, newly-appointed chief of the enforcement division of the state liquor control commission, said today that a study of the needs of the department had led to the extension of vacations to five employees whose names were not announced.

Whether the group will receive further employment has not been determined, although Winter denied that the group could be construed as a "shakedown."

"We are just looking into the situation to find out the weaknesses and eliminate them where we find them," said Winter.

The enforcement chief, who was formerly with the state police, said he was not ready to discuss his plans.

Arthur K. McMahan, chairman of the commission, declined to comment upon the action except to say that Winter had been placed in full charge of enforcement with instructions to "show results."
