

SHRINE BAND AND PATROLS FEATURE SATURDAY PARADE

A baggage car, *loaded* with scenery for the spectacular open-air shrine pageant, arrived in Medford today in readiness for the Hillah Temple spring ceremonial Saturday on the banks of Rogue river. Stage Director Lem C. Carter, of Ben All Temple, Sacramento, and his staff of 10 technicians...

Lem C. Carter.

ians and a sound expert with public address equipment, will arrive in this city Friday morning and immediately begin the task of setting up an elaborate setting at the Elks picnic grounds where the first open-air shrine ceremonial in southern Oregon history will be staged.

The baggage car includes scenery for a stage setting which will be 60 feet wide and 30 feet long with powerful flood lights and electrical facilities for beautiful lighting effects. Carter, who will supervise the erection of the elaborate stage, was formerly affiliated with a Hollywood studio and is considered one of the coast's most notable scenery designers.

While Hillah Temple's ceremonial will be held on the banks of Rogue river, 10 miles from Medford, this city will be given a glimpse of some of the gay festivities. At 3:00 p. m. Saturday, the Hillah band will entertain with a concert in the Medford city park with novelties supplied by the Hillah patrol and the drum corps. At 4:00 p. m. the shrine parade will form at the city park with band, patrol, drum corps, shriners and dignitaries of the order participating. The line of march will be north on Ivy street to Sixth street, east on Sixth to Riverside avenue, south on Riverside to Main and back to the park. Fred Erik will supervise the details of this parade.

The spring ceremonial here Saturday will be headed by Hillah's potentate, John E. Enders of this city with E. C. "Jerry" Jerome as general chairman of the several ceremonial committees.

MEDFORD DAIRIES, INC., IS ORGANIZED

Consolidation of the Medford Creamery and Meadowbrook Dairy under the name of Medford Dairies, Inc., was announced today by Gordon Warner.

The Medford Creamery was purchased from O. C. Boggs by H. C. Thompson, who has been with the Snyder Dairy & Produce Co. for the past ten or twelve years, Mr. Warner explained. Mr. Thompson, Mr. Warner and others effected the merger of the two companies.

Officers of the new company are H. C. Thompson, president; Wallace Crank, vice-president; Don B. Newbury, secretary; and Gordon Warner, treasurer.

Through the consolidation the new company becomes one of the largest dairy businesses in the county. Products will continue to be marketed under the separate names of the two merged companies, Mr. Warner said. Products handled are milk, cream, butter, cottage cheese and buttermilk. Ice cream will be added to the line soon, Mr. Warner related.

The Boggs herd has been one of the highest producing herds in the county. The new company will operate five trucks for quick city delivery service, Mr. Warner stated.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys. Many of those gnawing, aching, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking waste acids and poisons out of the blood. Most people pass about 3 pints a day of about 3 pints of waste. If the points of waste, kidney tubes and filter don't work well, poisons waste matter stays in the blood. This causes many of the ailments: backaches, rheumatic pains, headaches, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, loss of interest in life. Don't wait! Ask your druggist for Doan's Backache Kidney Pills, made especially by millions for over 40 years. They give you relief and help you pass 18 million of kidney tubes that out poisons waste from the blood. Get Doan's Pills.

GAYETY, DIGNITY MARK PLIGHTING OF ROYAL TROTH

(Continued from Page One.)

stayed by the former king's side after the December crisis in which he left his throne.

The bridal couple disappeared for a brief time and then returned to their company. The duchess had changed to another costume and the duke had doffed his cutaway for a blue serge suit.

Just five minutes after Monte country physician-mayor began the French legal ceremony in the chateau salon, Wallis Warfield was the Duchess of Windsor, wed to the man who laid aside a crown to share that moment with her.

That was 11:45 a. m. (5:45 a. m. E. S. T.). The next few minutes were spent in signing civil documents to comply with the French law.

"Whim of Destiny" I watched Dr. Mercier, bedecked in his red, white and blue sash of office, self-consciously hand the papers to the Monte town crier, who stuck them in an old leather case and bicycled feverishly back to the town hall.

"By one of those whims of destiny," the mayor told the bridal couple, "it is under the blue sky and among the flowers of the garden of France, in the laughing valley of the Indre, that the most moving of all idylls has just unfolded itself."

"The illustrious wedding which innumerable hearts will celebrate in secret today had for its celebrant the mayor of a little town of Touraine. . . . In saluting in its name a prince who was the well-beloved sovereign of a friendly people, and she whom his highness has chosen from a noble country to whom we are attached with the same precious bonds—greatness and glory—permit him who has just received the mutual consent uniting your destinies to give you . . . the most sincere wishes for your happiness."

"The couple re-entered the turreted chateau from the terrace during the cocktail interim between services they went separately to the music room where I was seated with the other guests."

"My Authority of Consistence" The Rev. Mr. Jardine, his glasses on his nose, stood beside the hastily improvised altar—made up of borrowings from neighborhood churches—wearing his white surplice and waiting to read the service.

He performed the service without the authority of the church, which does not like marriages after divorce. He did it, he said, on the authority of his conscience alone.

Edward, accompanied by his best man, Major Edward Durley Metcalfe, came up the corridor from the dining room past before where we were seated.

He stood before the altar, in the center of which stood a two-foot golden cross. A moment later, Herman L. Rogers, steadfast American friend of the couple, escorted in the bride.

Soft notes came from the organ as Marcel Dupre played a wedding prelude. It made a peaceful setting of the scene.

Th Rev. Mr. Jardine immediately began reading the marriage ceremony. He took it from the Church of England's old book of prayer.

A Loud "I Will" Calling the duke by all his given names the vicar asked: "I do hereby solemnly declare that you are now in their due." "I will," the duke answered loudly. The minister then asked the duchess, calling her "Bessie Wallis," if she would "obey, serve, love and honor."

The bride, repeating after the parson, answered in steady, husky voice: " . . . And to obey until death do us part."

Windsor, also following the minister's reading, took the wedding ring of Welsh gold from the Rev. Mr. Jardine and slipped it on his bride's finger.

"With this ring I thee wed," Edward said, " . . . and with all my

SPORTSMEN HEAR DISCUSSION FOR NATIONAL ACTION

The need of preparing and vigorously supporting a co-ordinated national program for the conservation of natural resources was emphasized at a dinner meeting of sportsmen and conservationists at Hotel Medford last night. Close to 50 persons were present.

Prof. Irving E. Vining of Ashland, former member of the state game commission, sounded the keynote when he declared that to conserve the remaining natural resources of the nation local groups must combine to form a strong national federation, take a broader viewpoint of the problem and submerge their localized aspirations into a program of country-wide scope.

Professor Vining asserted that local organizations of sportsmen and conservationists have been working for years without apparently attaining their goal and the failure he attributed to lack of co-ordinated effort on a national scale. In such an arrangement, he stressed, the purely local as well as the state-wide and national problems can be solved.

Dr. William L. Finley, noted naturalist and vice-president of the General Wild Life Federation of America, told of the waste of natural resources and the lack of a comprehensive viewpoint regarding conservation.

Dr. Finley asserted that individual groups or industries look upon the natural resources only from their own point of view with the result that while the assets might be conserved in one phase they are wasted in others.

Explaining his statement, Dr. Finley said that, for example, the power industry was interested only in using streams to produce electricity, caring little about the other uses to which the rivers and creeks might be put. In like manner, he declared, agricultural interests are concerned only in the irrigation of the soil.

Dr. Finley pointed out that even the government fails sometimes in taking a broad viewpoint in conservation, although it spends millions little about the other uses to which the rivers and creeks might be put. In like manner, he declared, agricultural interests are concerned only in the irrigation of the soil.

45 FREE PUBLIC CAMPGROUNDS IN WOODS THIS YEAR

Forty-five free public campgrounds in the Rogue River national forest will be available to the vacationists this summer, headquarters here stated today.

Of the 45 improved campgrounds, 15 are to be further expanded this season while 16 new ones are to be constructed during the summer, headquarters said. Among the campgrounds especially suited for large parties are those at Beaver Sulphur Springs, Fish Lake and Lake of the Woods.

The camps range in stages of development from those with simple provisions for mountaineers who prefer to "rough it," and those with a slightly higher order of facilities for hunters and fishermen, to those with still more of modern comforts for motorist campers. Some of the camps have provisions for trailer houses.

Typical motorist campground provides piped water, individual parking places and camp sites with outdoor stoves, tables, benches and shelters. Sanitary facilities and community kitchens, supplementing the camper's own cooking and tent equipment, are among the accommodations.

"These informal camps are possibly the distinctive contribution of the national forests to state recreational life," the statement from headquarters said. "They become the base of operations for thousands who seek the forests and mountains each year for relaxation and recreation. They aid in family picnics and camping trips, furnishing relaxation in delightful surroundings, with fishing, swimming, boating and hiking on the side. Their principal charm seems to be their informality and the opportunity they afford to rub elbows with nature."

The 20 national forests of Oregon and Washington have more than 1400 of the improved campgrounds, 789 being in the 13 forests in Oregon and 622 in the seven in Washington. Last year more than 1,500,000 persons utilized the national forest campgrounds in the two states, records show. All the facilities are free to the public.

HOOD RIVER, June 3.—(AP)—The Cooper's spur road, connecting the Mount Hood loop highway with the snow line at Cloud Cap Inn and Tilly Jane forest camp is open to traffic.

THE DALLES, June 3.—(AP)—Conferences with state labor officials brought plans for formation of union locals by clerks, culinary workers, teamsters, auto mechanics, painters and building trades employes here.

More Activity, Less Crime PORTLAND, June 3.—(AP)—The population of federal prisons is increasing, but because of increased activity of officers rather than more crime,

O. S. C. Grad to Iowa HOOD RIVER, June 3.—(AP)—Robert W. Beal, son of Mr. and Mrs. Isaac Beal of Parkdale, who majored in chemical engineering at Oregon State college, has been named on the faculty of Iowa State college at Ames, Iowa.

Closing time for Too Late to Clarity Ads is 1:30 p. m.

NO NOISE..NO WEAR

Even after long use

SERVEL ELECTROLUX

HAS NO MOVING PARTS

That's why you enjoy:

- PERMANENT SILENCE
- NO MOVING PARTS TO WEAR
- LASTING EFFICIENCY
- CONTINUED LOW OPERATING COST
- CONSTANT COLD
- SAVINGS THAT PAY FOR IT

plus . . .

- Modern Convenience
- Streamlined Beauty
- Extra Roominess
- Greater Ice Cube Capacity

SAVINGS PAY FOR THE GAS REFRIGERATOR

THRIFTY families everywhere are choosing Servel Electrolux, the modern refrigerator. * Fundamentally different from all other refrigerators, Electrolux exclusive advantages will save you money year after year. Even after long service you will enjoy the same silent operation—the same low running cost—the same freedom from repairs. * Get the facts on this 1937 Gas Refrigerator. See the beautiful new models in our display.

WHY NOT Pay Cash for your next Automobile?

Available to any individual having a steady income and satisfactory credit record

- LOWEST FINANCING COSTS
- SMALLER MONTHLY PAYMENTS
- INSURANCE PLACED LOCALLY with your own agent or broker
- ESTABLISHED BANK CREDIT

"Under this plan you are prepared to write your personal check or present a cashier's check for payment in full when you select a new automobile or any used car that is less than three years old. The borrower supplies one-third of the cost of his or her automobile purchase price. This may be in cash or by the trade-in value of another automobile. We supply the balance needed to make possible a cash deal. Moderate interest on your loan and insurance on your car are the only costs. There are no extra charges. Investigate this Plan before you buy a car.
