Editorial Correspondence

SAN FRANCISCO, Calif., June 2.—The Fiesta is over but the melody lingers on. Judging by what one hears in the newspaper offices the Oregon delegation made a big hit down here, particularly Governor Martin.

The era of good feeling, regarding Oregon even extends to Mayor Joe Carson of Portland. The mayor came in for a goodly amount of paning when he refused to attend the Fiesta unless the bug control at the California border was abandoned.

The ebullient Joe relented however, and by finally attending the jamboree showed he could take it, and his good sportsmanship removed any ill feeling that may have existed.

We can testify to that for on the trip down, last Sunday, the uniformed factotum who passed us through the quarantine had all the urbanity and grace of a floor walker, greeting the store's best customer.

Arthur Caylor, the capable news commentator, today paid this compliment to Portland's mayor:

Apparently the high, tremulous wall put up by Mr. Joseph Carson, the outraged mayor of Portland, has turned California's border micro-bunters into a set of personality boys.

So, from the standpoint of Oregon the Golden Gate Fiesta was a great success.

After prowling around the strike stricken areas several hours, we have decided there is more to the hotel walk-out than meets the eye.

Personal Health Service

By William Brady, M. D.

Signed letters pertaining to personal health and hygiene, not to disease diagnosis or treatment, will be answered by Dr. Brady if a stamped self-addressed envelope is enclosed.

Thousands of persons, even newspaper men, now know that the great majority of morons are good citizens.

It is slowly percolating through to the consciousness of the wisecrack mind that the presence of a dangerous proportion of carbon monoxide gas in the air gives no warning but overcomes the victim and renders him powerless to move or to attempt to escape before he loses consciousness and ceases breathing.

Comment on the Day's News

By FRANK JENKINS

ON SATURDAY, loyalist Spanish warplanes bomb a German battleship lying in a rebel Spanish port, killing 24 German sailors and wounding 82 more.

ON MONDAY, in retaliation, German warships bombard and virtually destroy the loyalist Spanish port of Almeria.

NORMALLY, these would be ACTS OF WAR. But the Spanish situation isn't normal. For months, dictator-ruled Germany and dictator-ruled Italy have been backing the Spanish rebels.

For that matter, medical literature in America is sadly degenerated. Nineteenths of it (books and current periodicals) is rubbish and mostly defunct stuff at that.

Flight 'o Time

Medford and Jackson County history from the files of the Mail Tribune 10 and 20 years ago.

TEN YEARS AGO TODAY June 3, 1927 (It was Friday) Hans Holmer, local boy, head of class at West Point.

Aviator Chamberlain, with passenger, to fly Atlantic in an effort to beat Colonel Lindbergh, now en route home on a cruiser.

A year ago tomorrow the weather started on a rummage that gave the city and valley the warmest weather in history, with sizzling temperatures during the national guard encampment. The encampment will be held at Clatsop this year.

Marshall Dana of the Oregon Journal to make graduating class address tonight.

A. S. Roenbaum is named general agent of the Southern Pacific.

TWENTY YEARS AGO TODAY June 3, 1917 (It was Sunday) C. E. Gates receives wire that 80 Ford's have been shipped for valley customers.

May was a frostless month, with rainfall below normal.

First call for draft army to be for 625,000 men.

British fail to take Lens in savage thrust.

Registration under draft law to start tomorrow. Prison awaits draft dodgers, is warning.

News Behind The News

need are raw materials, gold, international balance, credit, etc., and they know very well they will not find these in Spain.

The only asset possessed by Italy or Germany which is causing any fear around British or French GHQ's is their air forces.

Military experts outside the air service still say no ground was gained in Spain by airplanes, that they were merely proved to be the eyes and propagandists of the armed forces.

That is, they terrorize the populace and can be used against troops in many instances. But many still remember that conscription could not, or at least was not, tried in London until the Zeppelins started bombing the city.

However, on the sea or land, France and England seem to have little reason to be apprehensive. The French fortifications are rated by most military authorities as being well-nigh impregnable.

For that reason, it is hard to guess what these bombings and bombardments, which in any ordinary state of affairs would be undoubted acts of war, may mean in the way of results.

It all depends on what the parties to this strange situation REALLY WANT—especially the aggressive parties.

It is so much of a secret, even the TVA does not know that Mr. Roosevelt has been doing a little private investigating of that organization on his own account.

Their checking showed the TVA grade of personnel was high and efficient, and working fairly well, but the schism between opposing factions is keeping the organization from reaching the degree of efficiency which is desired.

It is so much of a secret, even the TVA does not know that Mr. Roosevelt has been doing a little private investigating of that organization on his own account.

Ye Smudge Pot

The First Lady of the Land holds "fitness, not sex, should be considered in appointment of supreme court justice."

A number of Oregon towns report a dearth of candidates in school elections—happy circumstance that will not prevail in the 1938 primary free-for-all.

Foresters and park rangers have started their annual task of removing tourist lindenleaf, who think they are "bums" flies, from ledges of precipitous cliffs, and the slippery sides of mighty peaks.

Dizzy Dean, ace pitcher of the St. Louis Cardinals, has been indefinitely suspended from diamond activity, for talking too much, by a high mogul of baseball.

REGARDING THE HEAT. "It's hot comparative, this thing we hold."

Intolerable today, Next season's snow is hiding in the cloud bank like a fold.

As the sun rolls laughing through the sky

The stars wink back in merriment. Man's curse

Lay on the long, hard winter; let him try

To find which of the two is really worse.

The great inverted dome of blue-while fire

Quivers intense and silent, but shot through

With arrow shafts of breeze, while the entire

Range of torture hours are but a few.

Compared to all the long and golden days

The harvest autumn and the bluish of spring

Is but the dipping in the lowered days

Of Nature's ever-active beatings.

But Man—poor, stupid beast—has much to learn!

Heat is the school as needed as the rest.
