

PASS TWINS GET FINED FOR FIGHT UPON NATAL DAY

Everett K. McTimmonds and Ernest R. McTimmonds, twin brothers of Grants Pass today were confronted with payment of \$14.50 to justice of the peace court here as they observed their 22nd birthday.

The twins were fined \$5 each and \$4.50 costs by Judge William R. Coleman yesterday afternoon on a charge of disorderly conduct, to which they pleaded guilty. They were given until June 12 to pay.

They were arrested early Sunday morning near a north Medford night spot for fighting. One of the twins started a fight with a third person who had fled by the time state police arrived and found the brothers fighting between themselves. The court was told.

Kenneth J. Leavitt, 28, of 16 South Newtown street was fined \$5 and \$50 costs for violating the ban speed rule. He was accused of driving 62 miles an hour on North Riverside avenue between Jackson and Austin streets around midnight Saturday. He pleaded guilty and said he did not realize he was going so fast.

Arnold R. Stevenson, 27, of Portland pleaded guilty to non-possession of an operator's license and was fined \$1 and costs, being given until June 21 to pay. He was arrested Saturday night and held in jail until his hearing. He said he was on his way to Brentwood, Cal., where he has employment.

BALDOCK REFUTES STRIKE STORY ON GOLD BEACH ROAD

SALEM, June 8.—(AP)—R. H. Baldock, state highway engineer, said today that a crew of men on a state highway project near Gold Beach, who quit in protest over the discharge of a fellow employe, had not worked two shifts.

"We had two crews working on that job," said Baldock. "Each worked 40 hours a week, 7 hours a day. Each crew was composed of eight men. Now we are using only one crew and that crew is working 40 hours a week, 7 hours a day."

Baldock explained that two crews had been working on the project because it is customary each spring for the department to increase the number of crews on certain projects so that damage caused by winter weather can be repaired.

"That damage has been repaired and the crew on the project is now reduced to normal size," said Baldock.

Information from Marshfield had been to the effect that the discharged crew had worked two shifts but Baldock said this apparently was confused with the fact that two crews were each working one shift a day.

DENTAL SOCIETY ELECTS DR. COE

The Southern Oregon Dental society met last night with a banquet and after-dinner meeting. The retiring officers were: President, Dr. B. R. Elliott; vice-president, Dr. G. C. Findlay; and secretary, Dr. Chas. P. Johnson.

The new officers elected were: President, Dr. Robert Coe; vice-president, Dr. Marcus B. Woods; and secretary, Dr. James Johnson.

Dr. Elliott, as counselor representing this area at the state executive meetings held from time to time in Portland, gave a report on the recent meetings.

A goodly number expressed their intention to attend the state meetings to be held June 24, 25 and 26 at Astoria. Dr. Wood of Ashland and Dr. Finley of Roseburg were appointed.

The next meeting will be held early in the fall.

Mineral Society on Trip Travel 100 Mi.

Reported as the most successful field trip undertaken so far by the Southern Oregon Gem and Mineral society last week's excursion covered approximately 100 miles around the valley.

The 40 members and friends present drove first to the old Barron mine near Mt. Grizzly and thence to Litchia park in Ashland where lunch was served. Afternoon hours were taken up by an investigation of the Shorty Hove mine on Wagner creek and a fossil hunt in that vicinity.

A large number of fine specimens are reported to have been collected, and will probably be displayed sometime this week in a chamber of commerce window.

SCOTTY PLANS NEW SPEED DASH

Walter "Death Valley" Scott, picturesque desert character, is planning to charter a transport plane to attempt to beat his famous 1935 record railroad ride to Chicago. The plane, with Pilot La Mar Nelson at the controls, was flown from Los Angeles to Death Valley for Scotty's inspection and to give him his first plane ride.

FINAL PLANS FOR ANNUAL PICNIC OF ELKS COMPLETED

Final plans for the staging of the annual Elk picnic at the picnic grounds on Rogue river next Sunday are being completed. It was announced today by O. O. Alenderfer, general chairman.

Invitations have been mailed out to all Elk ladies welcoming them to the use of the temple while their husbands are enroute at the picnic, and P. C. Bigham, chairman of the entertainment committee for the picnic, says he has completed arrangements for feeding the expected huge turnout. Hot meals will be the main dish, Bigham said.

In addition to the fight card, which will feature the cream of CCG clubs, a softball game between Clatsop captained by Bill Bowerman and Vernie Shaugle will take place. The game will start shortly after noon. The picnic grounds have been cleaned up and put in readiness for the annual event, and signs will be placed at intersections along the Crater Lake highway to guide the picnickers to the grounds.

THURSDAY MEET OF IEU POSTPONED

Postponement of the open meeting scheduled by local organization of the Medford Corporation for Thursday to discuss plans of the Industrial Employees Union, Inc., was announced today by F. S. Ford, field director of IEU.

The absence of W. D. Smith, general organizer, who was called to central California, necessitated the postponement. A new date for the session will be set early next, Ford said.

Employees of all lumber producing plants and employes of other industries of Medford were invited to the Thursday meeting by the Medford Corporation organization, which has accepted the blanket agreement covering all agreements of the I. E. U., Inc. Purpose of the open meeting was to familiarize other industrial employes with the plans of the Industrial Employees Union, with headquarters in Portland.

DR. BOYER GIVES POOR HEALTH AS REASON FOR MOVE

(Continued from page One.)

encountered and what he has accomplished. He indicated that it was with the hope that some method of still avoiding the retirement that he urged delay in accepting the resignation.

President Boyer's later statement to the board, thanking the members for their consideration, however, indicated no intention of reconsideration.

Exactly 16 months ago Dr. Boyer was formally inducted into office as the sixth president of the university at public inaugural ceremonies at Eugene.

Adopt Budget

Chief business of the meeting aside from the resignation was the adoption of budgets for the coming fiscal year. This task, ordinarily done in April, was deferred this year pending the taking effect of the law supplementing the millage income for support of the institutions.

As adopted the operating budgets are essentially on the same level as last year. In order to maintain that level it was necessary for the board to postpone salary and restoration of staff members to July 1 rather than starting them March 1 as was the case with other state departments.

Comparative budgets for the entire system show, without the amount set aside for salary restoration, a total of \$2,623,850.24 for 1937-38, as against \$2,567,107.02 last year. The increase is largely in increased instructional costs due to rising registra-

(Continued from Page One.)

ing about \$4,000 a week and was reported to have an estate of nearly \$1,000,000, largely in insurance and annuities.

She lived with her mother, whose maiden name she had taken for the screen and who usually addressed her as "Baby." Her real name was Harlean Carpenter.

The Kansas City actress' ill health dates back to February, when she was stricken with influenza returning from the president's ball at Washington in company with Robert Taylor. In April she was in the hospital to have impacted wisdom teeth removed.

At Washington, Miss Harlow had publicly kissed a senator, Bob Reynolds of North Carolina, and made 22 personal appearances in one day.

The seriousness of her illness last week seemed closely guarded by all except her mother, who stayed up night after night, too worried to sleep. Miss Harlow's studio had around a million dollars invested in her latest co-starring picture with Clark Gable and it lacked only a few scenes, in which she was needed, to be ready for exhibition.

Happy-go-lucky friend to hundreds of film workers, Miss Harlow had few intimates, beyond her mother and Powell, her charities were unpublicized but generous.

Ever since Christmas she had worn a huge star sapphire ring on the third finger—of her right hand. It was a gift from Powell.

trations and increased allowances for plant upkeep.

Restore Salaries
In making the salary restoration the board made two significant moves in the extremes of the salary brackets. First it used approximately \$1,500 in establishing minimum salary scales for the lower bracket, professor and assistant professor throughout the system. Next it declined to restore the full amount of the presidential salaries of U. of O. and O. A. C. to what would have been approximately \$8900, and instead fixed them at \$7500. Under the termination schedule the two presidents have been receiving \$6500 each.

"Although the 1937 legislature restored the millage to the 1929 base, funds are still inadequate to care for increased enrollments and increased costs of operation," reported Chairman E. C. Sammons of the finance committee. He said this is caused by

the fact that millage funds must now be used for functions formerly supported by special appropriations.

To Raise Fees
As a result, he said, it will be necessary to raise fees slightly for the coming year, a schedule of such raises being approved by the board. The principal changes are an increase of \$2.50 per term in the laboratory and course fees at the state college and university and \$2 at the normal schools; the levying of a \$5 matriculation fee for all new students at the college and university and \$2 at the normals; and an increase of \$15 per term in the medical school fees. Board and room charges were also upped from \$1 to \$2 per month to meet rising costs. All these charges had been materially lowered during the depression years, it was pointed out, hence the changes are in effect a return to approximately former levels.

MASONIC LODGE AT J'VILLE 82 YR. OLD

In celebration of its 82nd anniversary, Warren Lodge No. 10, A. F. and A. M., will hold a dinner at the Masonic hall in Jacksonville tomorrow night at 6:30 o'clock, with a large attendance expected.

Fifty-year emblems will be presented to three brethren. They are Ben Beekman, Robert A. Miller and A. H. Mengley, all of Portland.

Presentations will be made by R. W. McNeil of Ashland, deputy grand master of this district.

Dredging Asked
WASHINGTON, June 8.—(P)—Senator Charles McNary of Oregon asked

the war department to approve dredging of a seven-foot channel and ship turning basin in the Columbia river at Hood River, Ore.
