

GEORGIA VOTING DRY LAW REPEAL

ATLANTA, June 8.—(AP)—Georgia voters today on 26 constitutional amendments and repeal of the state's 22-year-old prohibition law, closing an off-year political battle between Governor E. D. Rivers and former Governor Eugene Talma.

Talma urged defeat of the "new deal" amendments and retention of the prohibition law. Rivers stumped the state on behalf of the amendments, vital to his Rooseveltian program in Georgia, but remained aloof from the repeal question.

Georgia's dry law was upheld in 1935 by a majority of about 200 votes.

MISSING BRITISH SOCIETY BEAUTY FEARED ABDUCTED

LONDON, June 8.—(AP)—Fears that blond "Didi" Batty may have been abducted were raised today after her fiance disclosed he had received a note threatening to "remove" the missing society beauty.

High officials of Scotland yard took personal charge of the far flung search and issued instructions to watch every port and air field of the country.

The fiance, Michael Aquith, son of the Hon. Herbert and Lady Cynthia Aquith, was expected to interrupt his final examination for an Oxford degree to come to London and confer with Yard officials.

The message was received by Young Aquith, whose father is heir presumptive to the Earl of Oxford and Aquith, before the disappearance of the former photographer's model.

June 1 from the London home of her childhood friend, Viscountess Long.

The letter mysteriously warned Aquith: "Unless you take better care of Miss Batty she will be removed."

The letter was handed over to Scotland Yard experts for study. She had been staying with her friend for the coronation festivities.

After her guest's disappearance, Lady Long disclosed that "Didi" had been attacked on coronation night, May 12, by an unknown man who slashed her forehead with a razor.

The unexplained attack was unreported earlier. Lady Long said, because Miss Batty protested that if it were made public, it would be repeated.

Relatives were understood to believe the girl, who had ambitions for a movie career, might have been suffering either from nervous breakdown brought on by worry over the letters or from amnesia.

QUIET PREVAILS ON LABOR FRONT; SEEK OWN PEACE

President Passes Plea to Madame Perkins—73,000 Steel Workers Idle

WASHINGTON, June 8.—(AP)—The senate received today a house-approved measure to extend the public works administration for another two years.

Senate leaders decided to handle the proposal as an amendment to the \$1,600,000,000 work-relief bill, rather than as a separate measure, the relief hearings are nearing completion.

Under present law, PWA would expire on June 30, after four years of existence as an agency to make loans

YOUNGSTOWN, O., June 8.—(AP)—Hopes temporarily stalled for White House intervention in a seven-state steel strike, the CIO steel workers' organizing committee turned today to fight an injunction suit while watching maneuvers for a joint peace conference and efforts to reopen a picketed plant.

(By the Associated Press)

Quiet prevailed over the nation's industrial fields today as mediators sought to bring opposing factions to the conference table.

Mayor Daniel A. Knaggs of Monroe, Mich., said he would ask Gov. Frank Murphy for state police if necessary to permit reopening of the Newtown Steel Co., a subsidiary of Republic Steel. He said a straw vote showed the majority wished to return to work and that the plant would reopen tomorrow despite picketing.

While an estimated 73,000 steel workers remained idle in seven states, the Republic company planned new moves against the Committee for Industrial Organization affiliates.

Republic officers shunted Pullman cars onto a plant siding in South Chicago to house non-striking workers after Mayor Edward J. Kelly said the company was violating city health and housing ordinances. The South Chicago plant was the scene of a recent bloody riot which brought death to seven and injuries to many others.

In Pittsburgh, striking employees of the H. J. Heinz plant voted to select either an American Federation of Labor affiliate or a company organization as their collective bargaining agent.

Lansing, Mich., returned to normal after a "labor-holiday" demonstration by the United Automobile Workers in protest against the arrest of eight pickets.
