

NAZIS RENOVATING SERVICE CARAVANS FOR NEW SEASON

BERLIN—(UP) Germany's two up-to-date automobile caravans have returned to the "round house" for overhauling.

The primary function of these two highway motor trains, with their huge kitchens, beds, workshops, loud speakers and so on, is two-fold: to serve the multitudes which assemble at national functions of the state and Nazi party, and relief work at disasters.

The trains, as described by the German official news agency, travel as complementary sections. The "Deutschland" houses the technical department in its 38 cars, which are to be increased in number to 80. It carries 50 miles of rubber cable and 180 miles of electric wiring. The train has facilities for supplying emergency electric light to 25,000 homes at one time.

Five hundred loudspeakers are designed to bring the words of the Fuehrer to the ears of 2,000,000 persons simultaneously—the main purpose of the system," comments the German official news agency.

The "Deutschland" can accommodate 180 beds. It carries a central power plant in one of its cars, cabinet and iron workshops, water and fuel tanks, laboratories, radio and film equipment in others. The unit, which serves as the office of the train's director has a movable stage which can be raised through the top of the car to a height of 21 feet. The train's speed is 40 miles an hour.

The second motor caravan, the "Bayern," comprises 100 separate units. This section carries the kitchen. So vast are its facilities, according to the German news service, its soup kettles served 350,000 meals in a single day at the National party day in Nurnberg last year. The kitchen is being equipped to provide three meals a day to 250,000 persons. The train last served at the harvest thanksgiving festival, at Buckeberg in the fall of 1935. After a strenuous season they returned to home base, Munich, where overhauling and renovating began.

For Meals Around The Clock

All-bran muffins and jam make an interesting addition to meals around the clock. Serve them for breakfast with scrambled eggs and bacon or with a hot soup and salad for luncheon.

CEREAL can be an inexpensive ally in helping the housewife plan interesting and appealing menus. Many women look upon cereal merely as a breakfast food that should be served with cream or milk. They forget that this same cereal may be used as a prime ingredient in the preparation of delicious quick breads, cookies, rolls, in combination with vegetables, in puddings and cakes.

Just take that old standby all-bran, for example, if you want further proof that cereal can be pleasantly and inexpensively incorporated in many intriguing round-the-clock menus. All-bran biscuits, muffins or rolls, not to mention the amazing variety of quick loaf breads offer a pleasant change from the usual toast or sliced bread for breakfast, luncheon and dinner menus. This same cereal is splendid in place of nuts in all kinds of cookies and in puddings and even certain types of candy like brittle.

You will find the use of all-bran in cooking also an ideal way in which to give necessary bulk to foods that

LAWS TO GOVERN USE OF TRAILERS HELD URGENT NEED

COLORADO SPRINGS, Colo.—(UP) Solution of the "trailer problem" lies in immediate enactment of stringent state laws regulating auto trailers, according to A. T. McLaughlin, cottage camp operator of the Pike's Peak region.

McLaughlin, who has returned from a 7,000-mile trip on which he visited 150 trailer cities, declared conditions developed by the so-called trailer problem are "terrible."

"Fifty percent of those making use of trailer houses," he said, "are persons, largely with home-made trailers, who are gyping about, finding work that in many instances should go to local residents."

"They camp along the road, on vacant property and at camp grounds not equipped for such camping." Municipal campgrounds for trailers will not solve the problem, McLaughlin said. It would cost a city of the size of Colorado Springs \$5,000 a year to maintain such a camp ground, it is said, and then the results would not be profitable to the community.

"The other 50 percent of the persons using trailer houses," McLaughlin said, "are out for a good time. Many of them have de luxe vehicles. They are not running away from taxes or trying to sidestep expenses. They are willing and able to pay for the conveniences they have."

"But you can depend on it, travelers of this class are not going to camp at the same campground with a lot of families, possibly more or less on relief, whose trailers are filled with children, dogs and even goats, and which families, in many instances, have no pride either in neatness or sanitation."

McLaughlin said he encountered many vacationers on his trip who were endeavoring to sell their trailers, some at a great loss, because of "unpleasant conditions."

"It is astonishing," he said, "to what confusion and unsatisfactory condition this trailer house travel has gone. And it can all be regulated so that it would work perfectly if only the state, the forest service and the municipalities would cooperate."

"But regulations must be made at once if this mode of travel is to turn out satisfactorily."

Stock Show Rain LA GRANDE, Ore., June 11.—(AP)—Showers during the afternoon kept the crowd at low mark at the Eastern Oregon livestock show at Union yesterday—the opening day, but 4-H club members' enthusiasm was not dampened a bit.

The chermojos, a South American fruit with a custard-like center, has been called the "vegetable ice cream."

Oregon's All-Stars of 1957?

LARRY HAWLEY BROWN PAUL BENJAMIN MARIMAN WILLIAM PADIE NORMAN MERRILL

Many future athletes are getting a grand start on this extra-fine milk from Oregon cows

If your young hopeful has been put on evaporated milk feedings, be sure to ask your doctor about this brand made from Oregon's own excellent pasture milk—Borden's Irradiated Evaporated Milk. Made right here in the heart of the richest dairy lands, it supplies your baby with the finest milk in the country—in a form that is easy

for him to digest, and so safe! Doctors are all familiar with this fine brand—and the high standards that go into its making. Remember, too, that Borden's Evaporated Milk is irradiated—with an extra supply of health Vitamin D for your baby! Ask for Borden's when you buy Irradiated Evaporated Milk. At all grocers.

Borden's IRRADIATED EVAPORATED Milk

* PRODUCED AND MADE IN THE NORTHWEST *

Makes your Cooking Extra-Good!

Pimento Sauce

2 tablespoons butter or 1/4 teaspoon dry mustard, 1/4 teaspoon salt, 1/2 cup Borden's Evaporated Milk, 1/2 cup water, 1/2 cup dried pimientos.

Melt butter in double boiler. Add flour and seasonings. Blend thoroughly. Add gradually Borden's Evaporated Milk and water, stirring constantly until mixture thickens. Cover and cook 10 minutes longer in double boiler, stirring occasionally. Add dried pimientos. Makes 1 cup.
