

### 500 PROTESTANT PASTORS JAILED UNDER NAZI RULE

BERLIN, June 18.—(P)—More than 500 pastors of the Protestant confessional synod have been arrested under Nazi rule, the Rev. Martin Niemöller, militant leader of Protestant opposition to government domination of the church, charged today.

Most of the clergymen, Herr Niemöller said, were arrested soon after the Nazis came to power in 1933. Ultimately almost all were released until a new wave of arrests began recently.

There were between 20 and 30 in the most recent group of arrested clergymen, said Herr Niemöller.

Last night Herr Niemöller addressed a tremendous congregation in a residential suburb. He had to repeat his sermon to a second audience.

The only untoward incident occurred when a woman arose and walked out, commenting tartly: "Shame on such inciting speeches." Only occupants of pews near her heard the remark, however.

Herr Niemöller, mincing no words, declared the Protestant church never would be fitted into a political framework.

After listing more oppositional pastors he said had been arrested, expelled, or forbidden their pulpits, and charging the offices of the Prussian Council of Brethren had been sealed up by the authorities, paralyzing its labors, the pastor declared:

"The elections are the reverse of free. Only the enemies of the church have a free hand. If the object is that the church is to be fitted into a political framework, the answer can only be: 'No!'"

"For then the evangelical church would be left under the guidance of those whom Christ called 'false shepherds and hirelings.' Any reorganization of the church only can be effected from the standpoint that God alone is Lord of the church."

Presumably the outspoken pastor has not yet joined his colleagues in governmental disfavor because of the tactical reasons and his widespread popularity.

A single inch of rain weighs 118 tons on a acre or 72,900 tons a square mile.

### Meteorological Report

June 18, 1937.  
Forecasts.  
Medford and vicinity: Occasional rain tonight, Saturday showers; little change in temperature.  
Oregon: Occasional rain tonight, Saturday showers; little change in temperature; fresh and strong southerly wind off coast.

Local Data.  
Temperature a year ago today:  
Highest, 77; lowest, 42.  
Total monthly precipitation, 1.47 inches. Excess for the month, 1.90 inch.

Total precipitation since September 1, 1936, 16.31 inches. Deficiency for the season, 0.91 inch.  
Relative humidity at 5 p. m. yesterday, 46%; 5 a. m. today 95%.  
Sunrise tomorrow, 4:35 a. m.  
Sunset tomorrow, 7:49 p. m.

### GOLDEN JUBILEE MEET OF OREGON PUBLISHERS OPEN

LA GRANDE, Ore., June 18.—(P)—Under cloudy skies and dampened by occasional light showers, the golden jubilee convention of the Oregon Newspaper Publishers' association held its first general session here this morning in the welcoming address by Ernest R. Ringo, LaGrande city manager, and addresses by Dean Eric W. Allen, school of journalism, University of Oregon; George Putnam, Salem Capital Journal, and Elmo Scott Watson, editor of the Publishers Auxiliary of Chicago.

Registration indicated one of the largest attendances on record, with every incoming train bringing more delegates and their guests.

At noon past-presidents of the Oregon Press association and the Oregon State Editorial association were guests of honor at a luncheon, and the afternoon was scheduled to see a convention golf tournament at the LaGrande Country club—weather permitting.

Dean Allen dipped into the history of newspaper life in Oregon during the last half a century, speaking particularly of the founding of the newspaper association. Three editors, at the boom resort town of Yaquina City on vacation in 1887, conceived the idea and on August 12, 1887, the state press association came into being with a membership of 15 newspapers.

The founders were J. R. N. Bell, Roseburg Review; Martin L. Pipes, Corvallis Leader; and Coll VanCleave, Yaquina Post. Four of the original daily members are still publishing—despite some changes in names and mergers. They are the Albany Herald, Baker City Democrat, Corvallis Gazette and the Roseburg Review. The McMinnville Reporter, then a daily, was the beginning of the present weekly there.

Dean Allen said that of 79 newspapers in existence in the year 1879 in Oregon, only 29 are still in evidence.

### AMELIA'S FLIGHT TO SIAM DELAYED

AKYAB, Burma, June 18.—(AP)—Amelia Earhart started another leg of her world flight here today after a flight from Calcutta, but bad weather forced her to return to Akyab.

She first landed her twin motored monoplane at 12:34 p. m. after a 400-mile flight across the Bay of Bengal and took off immediately in an effort to reach Bangkok, Siam. She was back in Akyab within two hours.

### LIGHTING CAVES PLAN HANGS FIRE

PORTLAND, June 18.—(UP)—A report by Acting Secretary of the Interior Charles West blows hot and cold on a \$20,000 project for improvement of lighting in the Oregon Caves, the Journal said.

West first said the best way to obtain the money is to increase the appropriation for protection of national monuments by the necessary amount, adding that the interior department had long recognized the desirability of the project introduced by Senator McNary (R., Ore.).

West's report, however, went on to say this means of financing the project would be contrary to the administration's program.

Sen. McNary said today he would proceed with West's suggestion.

### UNION ROW OVER BEER DELIVERIES IN PORTLAND DUE

PORTLAND, June 18.—(AP)—The Teamsters' Union, already embroiled in a dispute with the I.L.A. for control of Meier & Frank company warehousemen, was prepared today to enforce the dictum of Dave Beck, coast head of the union, that drivers should refuse to handle beer not bearing the white label of the teamsters' organization.

A. E. Kennedy of the local brewery workers' union, was quoted in a dispatch from Seattle as serving notice on Beck the order would be resisted here.

Portland drivers did not expect a test of the issue until next week when the present supply of "outside" beer, bearing the red label of the brewery union, becomes exhausted.

All northwest beer now bears the white teamster label with the exception of a single company operating in Walla Walla and Tacoma.

Overtures by the I.L.A. brought the Meier & Frank controversy no nearer settlement here Thursday. Bert Shelton, business agent for the longshore warehousemen's union, announcing that the teamsters had rejected an offer for an agreement similar to that entered into by the two unions in Seattle, resulting in the reopening of five warehouses.

The maritime federation, in convention here, received a reply Thursday to a protest wired to Washington, against alleged quizzing of delegates by immigration officials regarding Harry Bridges, an Australian, chief of the west coast longshoremen.

I. F. Wilson, deputy commissioner of the immigration service, wired the group he would investigate the charges.

### TRUCKMEN'S CHIEF AGAIN PROTESTS STATE VEHICLES

PORTLAND, June 18.—(P)—An open letter to Governor Charles H. Martin from State Representative Jack Wagner, renewed the protest he voiced at a recent meeting of the state highway commission to the use of state-owned trucks on the Wolf creek and Wilson river WPA projects.

Wagner, secretary of the Oregon Truckmen's association, contended that the practice was a violation of the spirit and the letter of the relief act as conceived by congress and President Roosevelt.

He asked the governor for a statement of whether he favors "mechanizing federal projects and turning the money over to a few" or allowing the "forgotten man" to earn some sort of an existence—through WPA employment.

He asserted that the highway commission was disregarding a law preventing them from entering the highway construction field in competition with private industry.

### OREGON MAY GET FLOOD FUND RISE

WASHINGTON, June 18.—(AP)—Senator Frederick Steiwer said today that if a flood control fund of \$60,000,000 instead of half that amount is approved Oregon can expect about \$1,750,000 for authorized projects, for which local cooperation has been assured.

Pioneers End Meet  
PORTLAND, June 18.—(AP)—The Oregon Pioneer association concluded its 60th annual reunion here last night with the election of A. J. McDaniels, Portland, as president.

Cut Ferry Rates  
PORTLAND, June 18.—(AP)—A tentative plan whereby ferry rates across the Columbia river at Astoria would be reduced from \$1 to 75 cents per car took form at a conference here last night of members of the

highway commission, city and ferry officials from Astoria and Lacey V. Murrow, Washington director of highways.

During the Russian revolution more than 1,080,000,000 acres of land belonging to landowners were acquired by the peasantry.

### SENIOR ENDEAVOR OPENS CAMPAIGN

The Senior Endeavor of the Church of Christ is starting a campaign for new members. They are planning a series of very interesting meetings for the summer. They are also planning an overnight trip to Dead Indian Soda Springs, to be held on July 24 and 25. Everyone from the high school age on up is cordially invited.

The Endeavorers are working very hard to keep the attendance up and add new members. Students and Endeavorers from other nearby towns are welcome to visit any of these meetings. Their presence would be very much appreciated.

### THINK NATIONAL DEBT HITS PEAK

WASHINGTON, June 18.—(UP)—Administration officials believed tonight that the national debt had reached its ultimate peak at \$36,633,907,802 and that henceforth it would begin leveling off.

The debt, which reached the all-time high on June 15, was equivalent to an indebtedness of \$283.41 for every man, woman and child in the country as compared to the wartime peak of \$250.18 and the pre-war figure of only \$12.35.

Attainment of the \$36,633,907,802 level represented an overnight increase of \$1,352,033,220. This was due to the \$852,000,000 treasury financing program completed on June 15 and to the setting up of \$500,000,000 in special government obligations to the credit of the government life insurance fund.

### BOY HOOKS BASS BIGGER THAN SELF

AVALON, Catalina Island, June 18.—(AP)—The arms of 11-year-old Douglas Bombard are not long enough to show how big was the sea bass he caught, for what the tuna club here reports is a world light tackle record.

The sea bass weighed 60 pounds and was 58 inches long, while Douglas is 57 1/2 inches tall. He hooked the fish from a speedboat, using a flying fish as bait.

### RAIL PASS GIVES CLUE TO BIGAMY

LOS ANGELES, June 18.—(AP)—Mrs. Russell D. James found when she attempted to renew a railroad pass that another woman of the same name had already obtained it. She testified at a hearing on charges of bigamy against her husband.

She charged that her husband, who was ordered held for trial in superior court, had sent her on a protracted visit with relatives at Salem, Ore., last year and married Mrs. Bertie Ferguson of Santa Ana, Calif., during her absence.

The alleged second Mrs. James, in

### SOVIET AVIATORS HEAD FOR 'FRISCO

EDMONTON, Alta., June 18.—(P)—Soviet aviators took off from Moscow at 2 p. m. Greenwich time, this morning on a non-stop flight to San Francisco, Major J. E. Genet, officer in charge of the Royal Canadian corps of signals station in Edmonton, said he had been informed.

Major Genet said he had been notified of the Russian flyers' takeoff by both Director Patterson of the dominion meteorological bureau in Toronto and the Soviet agent in Seattle.

The signal corps official said his station had not made any contact with the aviators yet.

### STATEWIDE HUNT BOY REQUESTED

PORTLAND, June 18.—(AP)—Detective Archie Leonard, in charge of the police missing persons bureau here, said parents of Donald Nelson, 13, of Hillsboro, had requested a statewide search for the lad, missing since Monday.

The parents said he left home on a bicycle, presumably to seek employment picking berries.

### Light Cherry Damage HOOD RIVER, June 18.—(AP)—The cherry crop here, already light, suffered only negligible damage by recent heavy rains, splits being noted chiefly in Royal Annes, growers reported today. Greater damage was suffered by strawberries and hay and at least one picking of berries was lost throughout the valley.

Another Line-up of Oregon Charm!

ROGER EDWARD MARTIN    DIANE OLSON    PATRICK WALTER FRANCIS    JACK DONALDSON, JR.

Many of Oregon's best babies are raised on this fine milk from Oregon cows

• Oregon youngsters get a real break when it comes to evaporated milk—because they can have a brand made right in Oregon, from the milk produced here in our own Northwest.

Not many regions can boast so fine a milk—as Borden's know. That's why Borden's use it for their Irradiated Evaporated Milk, evaporating it fresh from nearby farms.

Your doctor can tell you more about this fine evaporated milk for your own baby's formula—how safe it is, how readily it can be digested. It's irradiated, too, with an extra supply of sunshine Vitamin D.

Ask him about it—and mention the name Borden's. Medical men know the special standards under which this milk is made.

So thrifty—so good in recipes!

Oregon Peach Pie Supreme

1 cup Borden's Evaporated Milk    2 egg yolks  
1 cup water    1 tablespoon butter  
1/4 cup granulated sugar    1/4 teaspoon lemon extract  
1/4 cup flour    4 level or rounded peaches  
1/4 teaspoon salt    Baked Pie Shell or Crumb Crust (2inch)

Blend Borden's Evaporated Milk and water. Mix 1/2 cup sugar, flour and salt. Add 1 cup cold milk mixture gradually, stirring until smooth. Scald remaining milk. Add flour mixture. Stir constantly over boiling water until mixture thickens. Cover and cook 10 minutes, stirring occasionally. Pour over well-beaten egg yolks. Return to double boiler and cook until egg is set (about 2 minutes). Add butter. Cool. Add lemon extract. Slice part of peaches into pie shell and pour cooled filling over them. Garnish with whipped cream and remainder of sliced peaches.

Special TRIAL OFFER

At our risk, see for yourself how quickly and surely Bif kills flies, mosquitoes, gnats, moths, ants, silverfish, earwigs, and other household pests.

The official Peet-Grady "kill" tests prove Bif has more killing power, yet it is harmless to humans and pets.

Bif is mildly scented—pleasant to use. Makes a fine, stainless mist. It's easy to use, economical.

Take advantage of this special money-back and money-saving offer today. A handy, inexpensive Bif Sprayer is also available—at leading stores and markets.

UNION OIL COMPANY

1 PINT plus 1/2 PINT BOTH FOR 39¢ REGULAR 65¢ VALUE

You save 26c on this trial offer and the risk is ours. Buy both cans at the special combination price. Use the small can, and if not completely satisfied, return the large can unopened for full 39c refund.
