# MILLS STAY IDLE; SOLDIERS ON GUARD

WASHINGTON, June 22.—"What Next?"  
That oft-repeated question which business has been asking the New Deal to answer can be answered at last.  
This writer put it up to Secretary of Labor Perkins.  
Sitting in her high-ceilinged office in the labor department between strike conferences, she gave an unhesitating reply.  
"The point of the business man was to ask: 'What is coming? We might be able to take the medicine you've already prescribed if we were sure there wasn't going to be any more.'"  
"Miss Perkins replied: 'There isn't going to be any more. If business participates and cooperates fully in what we have now, including the proposed wages-and-hours law.'"

Here are three notes, unofficial but safe, to jot down on your desk pad:  
1. The national labor relations act will not be modified to permit employers to appeal to the board.  
2. The employer will, however, be given full hearing under the wages-and-hours bill when it comes to adjusting labor standards in his particular industry.  
3. Labor unions will not be regulated by the government. Like the professions, they will be expected to develop a code of ethics and reduce it to law.

The New Deal planners appear to have reached a plateau.  
The line that charts their progress toward what they consider achievement of social justice in capital-labor relationships goes like this:  
Almost straight upward, as there is enacted old age pensions, unemployment insurance, the national labor relations act, and the wages and hours bill is launched. Then horizontal, "onward" but no longer "upward."  
The planners admit that the steep climb made everyone lose his breath; some their heads.  
A rapid change in altitude, they point out, always results in palpitation. But they say to the panting business man, "you'll get used to it."

Senator Carter Glass may not feel well enough to attend the roasting fishing party of Jefferson Island this week, but his secretary will testify that you have to get up early in the morning to beat that peppery Virginia.  
The senator hasn't been well lately and his secretary, Rixey Smith, felt he ought to go along to keep an eye on his boss when the latter went up to get his honorary degree at Hamilton college.  
On the way back, Rixey told the

## 4800 GUARDSMEN ALLAY FEARS OF YOUNGSTOWN RIOT

**Ohio Governor Acts to Prevent Threatened Clash—C. I. O. Men See Victory—Deputies Halt Caravan**

YOUNGSTOWN, O., June 22.—(AP)—Steel-helmeted National Guardsmen brought peace to the strike-ridden Mahoning valley today.  
Under orders of the governor of Ohio and with the approval of President Roosevelt, the first contingent of a force of 4,800 men deployed along a 25-mile front to end a night of fear and forestall what John L. Lewis had called "contemplated butchery" at the scheduled reopening of four steel mills in defiance of Lewis' steel union.

Good humor and songs replaced the rumblings that had threatened to break into clashes between adherents of Lewis' committee for industrial organization and the ranks of "back-to-work" men.  
See Union Victory  
"Easy now, you mugs," a National Guard officer admonished the strikers. "We're not here to break the picket lines. We're here to see to it that nobody goes to work."  
"We've won the strike," was the unionists' cry.  
"We'll have a signed contract in our pockets before the first of next week," Charles Fagan, a district leader, told 500 cheering CIO men.

## HUSKY OARSMEN SWEEP REGATTA; SET 2 RECORDS

POUGHKEEPSIE, N. Y., June 22.—(AP)—The University of Washington today completed its second clean sweep of the intercollegiate rowing association regatta when its crack varsity won the climax race by a length and a half. Navy finished second and Cornell third.  
Navy and Cornell finished so closely together that it took an official posting to determine which had finished second to the great Washington crew. Poughkeepsie and Olympic champions last year.  
Earlier in the day the Husky freshman won the two-mile sculling race after which Washington's junior varsity broke the course record by rowing that three-mile event in 13 minutes, 44 seconds.

Washington's varsity beat itself off the early pace in the big four-mile feature. The Huskies were content to hold a threatening position during the early stages as Navy assumed the pace-setting role.  
Half way down the course the Huskies made their first threat and moved into a three-quarter length lead at the two-mile mark.  
Washington varsity set a new course record of 18 minutes, 33.5 seconds.  
This compared with the previous course record of 18:35.4/5 by California in 1928. Washington won last year in 19:09.3/5.

## COUNTY FARMERS UNITE TO COMBAT LABOR AGITATION

**Association Is Formed Here to Forestall Communism—Amity Toward Labor and Unions Is Stressed**

Jackson county farm interests organized at a meeting in the court house auditorium last night to combat subversive activities and to prepare for an orderly marketing of crops without outside interference.  
The meeting was attended by more than 100 persons who were said to represent every line of agricultural activity in the county. Several were present from other districts of the state and it was indicated that other counties would be similarly organized with a state association as the final goal.  
The county organization is to be perfected at another meeting called for 8 o'clock Friday night in the courthouse auditorium.

A set of by-laws read by Earl Newberry was adopted subject to change to meet local conditions as they might arise. This action followed a unanimous vote to organize on motion of H. Van Hovenberg, W. J. Warner, president.

## FOUR-POWER PARLEY ON GERMAN DEMANDS STYMIED BY BRITAIN

LONDON, June 22.—(AP)—Four-power negotiations over German demands for a display of naval strength to the Spanish central government broke down late today.  
The break came after Great Britain had rejected flatly the German demand for joint retaliation against the Spanish central government because of an alleged attempt to torpedo the German cruiser Leipzig.  
The rupture was disclosed in a communique issued after another talk at the British foreign office by Anthony Eden, British foreign secretary; Italian Ambassador Count Dino Grandi, German Ambassador Joachim von Ribbentrop and French Ambassador Charles Corbin.  
"Unfortunately, it was found impossible to reach an agreement on measures which should be adopted in this case," the communique said.  
Germany had demanded that an "immediate naval demonstration will be held showing the flag of the four powers" on the Spanish coast off Valencia, temporary seat of the Spanish central government. Eden had countered with a proposal that Europe begin the immediate recall of all foreign fighters from Spain.

SAN FRANCISCO, June 22.—(AP)—The man who piloted Soviet Russia's transpolar plane the 5,000 miles from Moscow to Vancouver, Wash., says such flights will be regular occurrences "in one or two years—maybe three."  
"Return flight would be easier because we would have tail winds," said Pilot Valerio Chekaloff.  
"With contemporary technique and science, we think there will be regular flights over the North Pole in one or two years—maybe three."  
Chekaloff and his two companions, welcomed by 5,000 persons who thronged the Oakland airport last evening, said they next wanted to try a Moscow-New York flight via the polar regions.

## LIFE INSURANCE USED TO DODGE TAXES IS CLAIM

Six New Yorkers Are Named in Congress Inquiry As Obtaining Big Policies in Bahamas Company

WASHINGTON, June 22.—(AP)—A senate-house inquiry committee received testimony today that six New Yorkers bought big insurance policies in a Bahamas company in an effort to reduce income tax payments between 1932 and 1936.  
Mason B. Leming, a treasury attorney, testifying at the congressional investigation into tax evasion and avoidance, explained what he termed "the device of foreign insurance companies" for escaping tax payments.  
By this method, he said, taxpayers paid single premiums for large policies, then borrowed on the policies and took interest reductions on the loans.  
The six New Yorkers were listed by Leming as follows:  
Richard E. Dwight, attorney, with a \$4,000,000 policy.  
Winfield Ayres, a doctor, \$400,000 policy.  
Henry W. Lowe, insurance broker, \$2,500,000 policy.  
Lawrence Marx, cotton broker, one \$2,500,000 policy in 1934, and another \$2,500,000 policy in 1935.  
Jacob W. Schwab, cotton broker, one \$1,500,000 and one \$1,000,000 policy.  
Leming said the policies all were taken out with the Standard Life Insurance company, Ltd., of the Bahamas.  
Leming said Dwight reduced his 1932 income tax payment by \$53,448 through the insurance company device.  
Testimony was developed that the reported manipulation and resultant negotiations between Dwight and the treasury had caused discussion in the New York law firm of Hughes, Schurman and Dwight, dissolution of which was announced recently.  
Charles Evans Hughes, Jr., son of the chief justice of the United States was a member of the firm.  
Morrison Shafter, internal revenue bureau general counsel, said that early this year—probably shortly before February 19—tax attorney had come to his office and asserted that Hughes had threatened to break up the law firm unless the tax difficulty was straightened out.

## KILL AMENDMENT TO CUT AMOUNT IN FINAL ACTION

WASHINGTON, June 22.—(AP)—The senate approved the administration's \$1,500,000,000 relief bill today, winding up six days of heated controversy.  
The bill goes back to the house for action on numerous senate amendments.  
As approved by the senate the measure provides a two-year extension of the public works administration. A last-minute amendment submitted by Senator Thomas (D-Ore.) increased by \$40,000,000 to \$340,000,000 the limit on authority of the PWA to use its revolving funds for grants and loans for additional construction projects.  
A few minutes before the vote on amendments a majority defeated an amendment to cut the \$1,500,000,000 relief bill to \$1,000,000,000. The proposal was made by Senator Bridges (R-N. H.).  
Efforts yesterday to require specified contributions from communities for relief projects likewise were defeated.  
The vote on the Bridges amendment came after Senator Vandenberg (R-Mich.) told the senate that "indefinitely continued deficits pile up the raw materials of suicidal inflation."  
He offered as a substitute for the administration's \$1,500,000,000 relief bill a measure to provide \$1,250,000,000 in grants to the state.  
He was "under no illusion," he said, as to the fate of his plan but declared it was based on a philosophy "which some day must be embraced if the credit of the government is not destroyed."  
"There is a limit beyond which the federal credit can not be safely stretched," he asserted. "No senators should put any obligation ahead of the obligation that none shall go hungry. But the realistic problem is how he can meet this situation with less expense."  
Senator Connally (D-Tex.) undertook the administration reply to Vandenberg, saying that the republican proposal would "abolish the federal system that is supposed to have learned something" and "begin all over again" with a new system.

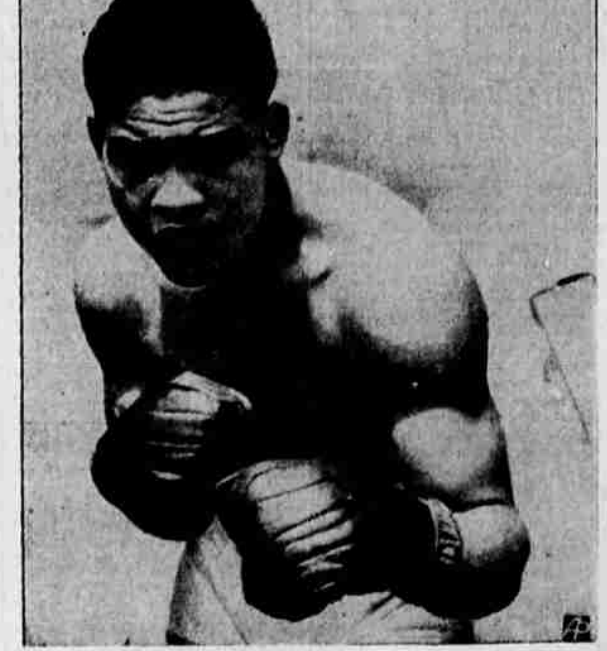

## DEFENSE SCORES IN FRENCH TRIAL

ALTURAS, Cal., June 22.—(AP)—The defense in the trial of Henry French, 30, for the murder of Claude L. McCracken, 45, rival newspaper editor, scored a technical legal victory today in a ruling by Judge F. M. Jamison.  
District Attorney A. K. Wylie had sought a ruling from the court that the defense should have the burden of proof in the second part of French's plea of not guilty by reason of insanity.  
F. Luke Howe, defense attorney, contended jurors should give the defense the benefit of any reasonable doubt, and Judge Jamison upheld his argument today.  
The extended task of selecting a jury for the trial continued today with the defense having 12 of its 20 preemptory challenges remaining and the prosecution 13.

# Champion and Challenger Voice Confidence

**James J. Braddock**  
"I have never felt better in my life. My legs are good, my breathing apparatus all right; and I have no mental worries. I predict I will knock out Louis in eight rounds. I will knock him out sooner if he fights the way I expect he will. I'm going out there to hit him just as hard and as often as I can, from the first bell until he goes down."

**Joe Louis**  
"I'm going in there to win and win as quickly as I can. I'm not predicting I will knock out Braddock in any particular round. I simply must win this one. I don't know whether it will be a long fight or a short one, but that makes no difference. I'm trained for one round or for 15 rounds, but a short fight is much better."
