Wall St. Report

NEW YORK, June 30.—(AP) Steels and rails played a leading role in today's stock market rally of fractions to around 3 or more points. Generally favorable industrial news and reduction of preferred dividend stream by U. S. Steel Corp. helped to sweeten the market dish, investors said. Although strikes deterred traders from entering the market more aggressively, Wall Street psychology showed further signs of having hardened itself to disturbing news, it was said.
Transactions totaled about 700,000 shares.

Will Sanders, for 27 years foreman of Glenmore's fermenting room, says:

'Those bubbles are mighty important in makin' this fine Kentucky Straight Bourbon Whiskey'

"For 27 years, I've been looking after these tubs. Always we run 'em the same. It's a slow process and the bubbles show how things are developing. We watch these tubs every minute. You can't take chances when you're making a whiskey as fine as Mint Springs."

Mint Springs Kentucky Straight Bourbon Whiskey is made of the same fine grains, distilled by the same processes as Glenmore's most expensive whiskeys.
