All park concessions and naturalist services will be in operation, the latter offering guided field trips to different points of interest by trail and by launch excursions. MINES BOARD TO PLACE ASSAYERS AT GRANTS PASS

125 Initial Grubstake Applications Approved—Headquarters Will Be Established In Portland.

PORTLAND, July 2.—(AP)—The newly-created state mining board, speeding organization of its department, chose Portland for its headquarters today and voted to establish assay offices at Grants Pass and Baker.

The board also approved 125 initial applications for \$50 grubstakes for prospectors and ordered contracts forwarded to the miners immediately. Meeting with Earl K. Nixon, recently appointed director of the bureau, for which the last legislature appropriated \$100,000 for the 1937-39 biennium, the board through W. H. Strayer, Baker, said Portland was chosen as headquarters because it is midway between the two principal mining sections—Grants Pass and Baker.

An assayer and assistant will be employed at each assay office and Nixon was authorized to employ an engineer and geologist for the headquarters staff. At the next meeting of the board, July 13, a department budget will be set up.

Strayer stated the applications for grubstakes carried the approval of the county courts in the counties where they originated, and it was up to the board to approve or reject them. Under the law prospectors are allowed \$50 for the year in return for which they assign to the state 10 per cent of revenue from new sources of mineral deposits are located.

Nixon, an experienced mining engineer, and geologist, was named director a month ago. The other two members of the board in session today are Albert Burch of Medford and E. B. MacNaughton of Portland.

SHIPMENTS OF WOOL SUSPENDED BY STRIKE

PORTLAND, July 2.—(AP)—The Oregonian said today that wool loading for the Atlantic coast has been suspended temporarily by leading intercoastal steamship lines as a result of a strike of wool warehousemen at Boston, Mass.

The decision was made last week, the article said, after 14,600,000 pounds of the Oregon, Washington and Idaho wool crop had already been started east but Atlantic coast longshoremen had refused to handle it out of sympathy for the striking warehousemen.
