Time to Call a Halt

AND so the pendulum swings, back and forth. At the moment it is apparently swinging against organized labor...

As has been indicated in this column, we favor the present direction. Organized labor, was getting dangerously near the breaking point...

But at the present moment we don't like certain signs and omens. We want fair play and justice, for capital as well as labor, we don't want more or less, than that for either.

But if present tendencies continue, we see the danger of certain labor hot heads being kicked out, and replaced by hot heads from the other camp.

For what COULDN'T happen here, boys and girls, is now HAPPENING!

Read over the preliminary murmurings in the Lewis opus, and then note the recent press dispatches from Michigan, Ohio and Pennsylvania.

Vigilante groups are being formed, throughout the strike areas. German Fascists, are drilling and quietly gathering recruits...

IN short the dragon's teeth are being sown, precisely as Sinclair Lewis predicted, and, unless sane and restrained counsels soon prevail...

WE went too far in one direction. Now let's not make the fatal mistake of going too far in the other.

Once let this vigilante spirit grow and spread, unchecked, and the entire nation will be perched, on a keg of dynamite...

The President could stop it in 24 hours, by one radio speech, calling a spade a spade, and merely being definite, instead of vague...

By all means a plague on BOTH their houses,—those who are working toward a labor dictatorship on one side, those who are working toward a Fascist dictatorship on the other.

That would clear the atmosphere at once, and reduce Uncle Sam's blood pressure by at least 50 per cent.

Keep Them Out

THIS isn't a timely subject. That is one reason we are bringing it up.

If it were timely, we could be accused of picking on some particular street carnival, which had just appeared here, or had just gone.

That would put us in a false position,—for we are not against any certain carnival, but ALL of them.

At best they are a bore, and at worst they are a "front" for a bunch of itinerant tin-horn gamblers, and antiquated striptease molls, to get in their dirty work.

THEY are particularly insidious when they hold out the lure of profits to secure the sponsorship of some reputable local organization, and then with this as a smoke screen, go the limit—and beyond.

We would like to see the local license for street carnivals placed so high, that none of them could afford to stop.

If they want to do business in this community let them come clean, and give evidence of reasonable honesty and decency.

Dog, Goose, Ducks, Doves Are Pals in Novel Idyle

WASHINGTON, Ga. (UP)—This is a story about Don, a setter, three ducks named Limburger, Cream and Swiss, a goose, Quackie, and a small flock of pigeons.

Originally Limburger, Cream, Swiss and Quackie were to appear on the menu of the Clem Sutton family.

WASHINGTON, Ga. (UP)—This is a story about Don, a setter, three ducks named Limburger, Cream and Swiss, a goose, Quackie, and a small flock of pigeons.

Personal Health Service

Signed letters pertaining to personal health and hygiene, not to disease diagnosis or treatment, will be answered by Dr. Brady if a stamped self-addressed envelope is enclosed.

Old-time mansions had huge bedrooms because land, building material and labor were cheap.

The bathroom adjoining each bedroom will take half the space of the usual bathroom, because only shower baths will be used.

But the bedrooms will have as much window space as possible, if windows entirely filling one side, if possible two sides.

Could my upper front teeth be replaced by anything except bridge-work? do not care for bridgework.

How long does rheumatic fever usually last? Is it necessary to remain in bed while blood tests are taken?

Ed Note: Persons wishing to communicate with Dr. Brady should send letter direct to Dr. William Brady, M. D., 285 El Camino, Beverly Hills, Calif.

A hair dresser—who has none of them as customers—declares that the most attractive coiffures are those of Kay Francis, Miriam Hopkins, Ina Claire, Genevieve Tobin, Mary Boland, Mrs. Walter Chrysler, Mrs. William H. Hays and Mrs. Anna Roosevelt Boettiger.

It used to be that no juvenile on stage or screen could go very far without a Grecian profile or a dandy moustache.

And is capering, like the frisky colt, along dangerous paths. Every generation has had its fling of wild youth.

And what joyous interludes they are. Each has a thrift account. Twice a month they attend a neighborhood movie together.

Elia Maxwell is said to be infusing the forlorn Paris and Riviera crowds with the same hoop-la that characterized her winter season in New York.

It was interesting the other night over coffee at Dick Berlin's to hear one of the professional psychologists express his reasoning about the brief span of Hollywood stars.

Robert E. Sherwood, the playwright is a subscriber to the idea that Hollywood often stamps ambition.

Don, meanwhile, loses all interest in his food until Quackie is finished. He has never quite figured this out either, and stands and watches it fascinated.

Comment on the Day's News

INTO a world already troubled sorely troubled by doubt, suspicion and fear is projected a new war scare.

The shooting started (nobody knows yet which side started it, as each claims the other did) over a few muddy islands in the Amur river.

THE situation seems even more grave when the cause of the face-making is considered.

The shooting started (nobody knows yet which side started it, as each claims the other did) over a few muddy islands in the Amur river.

THE more we see of dictators, the less we have for them. A country governed by chosen representatives of its people may be inefficiently governed, but it will be better off in the long run than any country governed by ONE MAN.

THESE may be reasons enough for plotters and counter-plotters, for dictators and the enemies of dictators, but they will be MIGHTY POOR REASONS for the mothers whose sons will die if war comes.

Flight 'o Time

Medford and Jackson County history from the files of the Mail Tribune 10 and 20 years ago.

TEN YEARS AGO TODAY July 6, 1927 (It was Wednesday) Medford 20 years ago had a great Fourth of July celebration, of which the Portland Journal of that date said: "With Governor Chamberlain present as orator of the day, Medford is enjoying a celebration such as never before was held in the Rogus River valley."

Belmy weather now prevails in contrast to high temperature of a year ago.

The home of Carl V. Tengwald, fire insurance agent, is menaced by flames.

Six merry-makers fined in police court for July 4th hilarity.

One-way traffic to Crater Lake rim now in force.

All water regulations, save watering from open hose, will be called off, council decides.

Twenty years ago today July 6, 1917 (It was Friday) Al Jolson in "Robinson Crusoe, Jr." at the Page tonight.

Civil war rages in Japan.

New offer of peace expected from Germany within a week. Allies launch offensive on both eastern and western fronts.

Senate to vote upon prohibition before midnight.

Fifteen thousand people attend Fourth of July celebration at Ashland yesterday.

Miss Nettie Pierce of Harrisburg, Ore., is visiting Mrs. Olen Arnsperger.

Mr. and Mrs. Leon Haskins and Mr. and Mrs. T. E. Daniels spent the Fourth of July at Prospect.

564 DEATH TOLL IN CELEBRATION OF INDEPENDENCE (Continued from Page One.)

ing with 228 during the celebration of Independence Day a year ago and 54 ten years ago.

Wyoming alone recorded no traffic fatalities. California had 26, New York 25 and Michigan 19.

Michigan registered the highest number of drownings, 15. There were 11 victims in New York and 10 in Massachusetts. The nation's 142 drownings represented the highest number since the 1931 celebration when 181 deaths were ascribed to that cause.

Airplane accidents caused three deaths. A parachute jumper was killed in Iowa. Shootings by celebrants and industrial mishaps were other causes which accounted for the 107 fatalities not attributed to fireworks, traffic accidents or drownings.

Intoxice Trks Grocer. CLEVELAND—(UP)—Mathew Konfel, veteran grocer, flew into a rage when he saw an invoice for merchandise sold to him by a wholesale grocer. Such prices as "soap, \$6.60 a case—sugar, \$28.55 per 100 pounds" were a ridiculous overcharge according to the current price he believed. The questioned invoice was dated 1920.

San Diego Fire Blast. SAN DIEGO, Cal.—(UP)—The San Diego fire department rushed its equipment to the Academy of Our Lady of Peace here early in the morning when a passer-by reported the interior of the chapel in flames. There was no fire, only the reflection cast by hundreds of candles placed on the altar.

Window Glass. WINDOW GLASS—We sell window glass and will replace your broken windows reasonably. Trombridge Cabinet Works.

News Behind The News (Continued from Page One.)

ation of Labor. If, in the following quotation from their description of communist activities, we read "William Green" instead of "Samuel Gompers," history would seem to repeat itself with a slight touch of irony in her voice.

Says the document: "A separate organization, fashioned as a national labor movement intended to work within the unions as a part of them—employing the process of 'boring from within'—was put into the field. Samuel Gompers, they hoped, would be overwhelmed by it, for it was apparent that with his unyielding opposition the American Federation of Labor could never be seized or controlled by them as long as he remained in it."

This highly pungent sauce, served with the communist goose which the afflicted mine workers were trying to cook back in the good old days, doesn't seem to be sauce for the

NEW YORK Daily by Day by O.O. McIntyre

NEW YORK, July 6.—There is much, too much, being said about Youth's state of mind.

It used to be that no juvenile on stage or screen could go very far without a Grecian profile or a dandy moustache.

And is capering, like the frisky colt, along dangerous paths. Every generation has had its fling of wild youth.

And what joyous interludes they are. Each has a thrift account. Twice a month they attend a neighborhood movie together.

This highly pungent sauce, served with the communist goose which the afflicted mine workers were trying to cook back in the good old days, doesn't seem to be sauce for the

FOOTY Apartment. NEW YORK—(UP)—All the comforts of the bungalow, with many modern improvements, are embodied in a new apartment house for chickens, the American Footy Journal reports. This chicken house, de luxe, built in New Hampshire, is four stories high and has elevators, electric lights, running water in every apartment and scientific ventilation.

Goes Under Knife. LONDON—(UP)—At the Infants' hospital in Vincent square, Dr. David Levi operated for pyloric stenosis—internal obstruction—on a baby weighing only three pounds—claimed to be the smallest child ever to undergo an operation.

Millionaire in Austria. VIENNA—(UP)—Among the 1,500,000 taxpayers in Austria there is only one millionaire. His income is more than 1,000,000 schillings, which is equal to approximately \$200,000. Taxes on this amount to 60 percent, so he has a mere \$60,000 a year left.

Rivalry Over Nuggets. DUNDEE, Australia—(UP)—This city is protesting energetically against recent claims that the world's largest gold nugget was found at Ballarat in 1853 and weighed 3,195 ounces. This community has an obituary that records that John Deason on Feb. 5, 1859, discovered the Welcome Stranger nugget that tipped the scales at 2,316 ounces.
