Wall St. Report

NEW YORK, July 13.—(AP)—Traders dragged down some of their profits in today's stock market and price trends generally pointed lower.
Early losses of fractions to two points, however, were reduced or canceled in many instances before the close as bids for U. S. steel and some other leaders were hoisted moderately.
Steel issues were up at a fairly active opening. They dipped later when motors began to slide and, despite the mild rally in the final hour, some were still under water at the finish.
Farm implements and specialties did better than the average. Utilities and rails lacked vitality.
The transfers were around 800,000 shares.
