DEFIANT REPLIES GIVEN ROOSEVELT COURT BILL PLEA

(Continued from Page One.)

Unit should be made, or the fight carried on for a decisive vote on the legislation itself.

Senator Brown of Michigan, previously favoring the compromise bill, shifted to the uncompromising group.

His shift, Robinson's death and announcement against the bill by Senator Maloney (D. Conn.) gave the opposition a three-vote margin in the line-up of publicly declared senators.

The totals became 41 against, 38 for, 16 non-committal and one vacancy.

Administration senators said the failure of the foes to agree on a reconcilable move indicated they did not have the votes. They conceded, however, that the lineup was extremely close.

Foe reported the bill's supporters already were negotiating for a new compromise.

Intervened with the court bill dispute was an increasingly heated undercover fight over the Democratic leadership in the senate.

Foes of the bill were lining up behind Senator Harrison of Mississippi, although he once had declared for the measure. Some of their opponents were joining them.

Most of those who have gone along with the court bill were working for the selection of Barkley.

He was pronounced "more liberal" by a majority of the 14 first year senators.

CHERRY CANNING ENDS, BEETS NEXT ON LIST

The Rogue River Canning company has about completed its cherry pack and has started canning beets.

The cannery canned between 40 and 50 tons of Royal Annes and about 20 tons of Bing, according to Ralph P. Boulet, manager. The cherry crop was large but the large sizes were short owing to many of the cherries not staying on the trees.

Within the next 10 days the canning of string beans will start and it is planned to can about 25 tons of this vegetable.

The plant Hale's corydalis was named after Josiah Hale, one of Louisiana's early botanists.
